

## **2015 NSW State Breed Exhibition.**

**18 & 19 July 2015**

**Judge: Mr. V. Tantaro (Vic)**

*I would like to thank the members and committee of the GSDL for their kind invitation to judge the 2015 State Breed Exhibition (SBE).*

*It must be noted that my comment, as made, with the fact that the number of animals presented, makes it very difficult to give specific breed direction. What I can report on was that there was an absence of high quality animals and that many animals lack strength of foreface and in particular underjaws should be stronger. The movement of many is marred by incorrect forehand assemblies with short upper arms that should be better angled; good to short under chests and short steep croups that results in restricted movement.*

*These faults must be seriously considered when breeding into the future: if you chose a similar animal with the same problems you will only entrench the problem in your bloodlines forever. Look out for animals with much type, strong mother lines, long bones and proper GSD proportions.*

*I would also like to comment on fact that some exhibitors felt it necessary to protest whilst not directly at me by subversive actions and or comment. I can only say to those who feel aggrieved, that my approach to judging this show was to apply a degree of normalisation: yes it would have been so easy to hand out the top awards to all, but in the end what would that have achieved? I do understand your disappointment, but can only offer the fact that when you finally end up with a 'cracker' you will know the difference and then you will question as to why lesser animals are awarded the top grading that can be had in this country and yet are, at a National, placed well down the line and way behind your animal.*

*In closing I find it incongruous that the membership decided to do away with the MBE but yet the Member Clubs still conduct the SBE even though some of these shows attract less than far, far fewer entries than the MBE ever did, which makes it near impossible to give breed direction.*

*Thank you to Greg Jones and Fay Stokes and all my ring stewards' for looking after me over the weekend.*

*I wish you all the very best with your breeding program and know full well the road ahead is not an easy one for all of us.*

Vince Tantaro

In movement shows far reaching gait where the drive could still be more powerful. Off lead gaiting – shows very good ground cover falls slightly on the forehead. A dog that tired during the runoff and should have maintained his wither. A dog of very good type that has a very good pedigree that gives a degree of predictability. His progeny, as exhibited, were very good quality. **EXCELLENT**

**3** \* **Andacht Bolt AZ** 2100357883 - 26/02/2012  
 \* Andacht Raz N Hell A Z / \*Andacht Zindi A Z  
*Exhibitor:* **L. Reilly** *Breeder:* **Exh**

65 cm – large, strong, richly coloured and pigmented dog of very good type, strong masculine head, very good expression, enhanced by dark masking and eye colour, the underjaw could still be stronger, good length of neck, high withers, short steep croup, stands correct in front, very good fore and underchest, good fore and very good hind angulation, the upper arm could be better angled moves, slightly cow hocked behind hocks should be firmer. In movement shows good ground cover where both reach and drive should be more effective and the hocks much firmer. Off lead gaiting – shows very good ground maintained his wither. A dog that should have been fresher at the end of the runoff and maintained better overall firmness. A dog of very good type that mirrors his pedigree however his restrictions must be noted. **EXCELLENT**

**4** \* **Sundaneka Thunda Downunder (IID) AZ** 2100379579 - 11/02/2013  
 \* Fulz di Zenevredo a / \*Xyna vom Niemberger Eck (Deu) a ED  
*Exhibitor:* **G&K Stevenson** *Breeder:* **Exh**

65 cm – large, medium strong, well coloured and pigmented dog of good type, masculine head and expression, slightly short neck, normal withers, slightly short but well moulded croup, stands correct in front very good fore and good underchest, good fore and very good hind angulation, steps correct front and rear, hocks and elbows should be firmer. In movement shows good ground cover reach and drive should be more effective and the hocks should be firmer. Off lead gaiting – shows good ground covering movement maintaining his wither. A dog that tired during the runoff and should have maintained better overall firmness and his wither. A dog of good type that does not mirror his sire line and offers a much lesser degree of predictability. **EXCELLENT**

## **LSC Junior Bitch -**

**1 Kazkiri Bohemian Rhapsody** 3100305418 (L) -

\*Ch Siobahn Apollo A Z / \*Kazkiri Suri A Z

*Exhibitor:* **A&Y Yun** *Breeder:* **Symes/Chapman**

60.5 cm – very large, medium strong, slightly elongated bitch of good type, feminine expressive head desired dark eye and masking, foreface and in particular the underjaw should be stronger, good length of neck, high withers, slightly short steep croup, stands correct in front, pasterns should be firmer, very good fore and underchest, good fore and very good hind angulation, the upper arm should be better angled, steps correct front and rear, elbows could be much firmer. In movement shows very good ground cover with powerful drive. **VERY GOOD**

## **LSC Inter. Bitch**

**1 Sundaneka Xynas Xcstacy AZ** 2100390840 (L) -

\*Ch. Ustinov vom Romerland (Deu) a ED / \*Xyna vom Niemberger Eck (Deu) a ED

*Exhibitor:* **G&K Stevenson** *Breeder:* **Exh**

59 cm – large, medium strong, richly pigmented and coloured bitch of very good type, strong but still feminine head, good expression, good length of neck, normal wither, firm back, slightly steep croup, stands correct in front good fore and underchest, good fore and very good hind angulation, upper arm should be longer and better angled, moves narrow in front and rear, hocks and elbows should be firmer. In movement shows good ground cover where the drive should be more powerful, falls slightly on the forehead and hocks should be firmer. **VERY GOOD**

**2 Ch. Durnstein All That Glitters AZ** 2100388590 (L) -

\* Toby von der Plassenburg (Deu) a ED / \*ChDurnstein Dirty Dancing ET A Z

*Exhibitor:* **TK Carr** *Breeder:* **F. McAdam**

59.5 cm – large, medium strong, substantial bitch of desired type, strong but still feminine head, expression marred by left inward tilting ear, desired dark masking, very good length of neck, high withers, firm back, well moulded croup, stands not quite correct in front, very good fore and underchest, good fore and very good hind angulation, upper could still be better angled, steps correct front and rear. In movement shows very good ground cover with very good reach and drive. **GOOD**

## **LSC Open Bitch**

**1 \*Ch Vladimir Greyt Sensation AZ** 2100213140 - 8/09/2012

\*Ch Siobahn Apollo A Z / \*Sup.Ch.Vladimir Anarchy A Z

*Exhibitor:* **Yun/Kada** *Breeder:* **G&K Morton**

62 cm – oversize, medium strong, substantial bitch shown out of coat, well coloured and pigmented, very good head and expression, very good length of neck, high withers, firm back, well moulded croup, stands correct in front with a very good forechest, slightly short underchest, good fore and very good hind angulation, upper arm could be better angled, moves slightly cow hocked behind, hocks should be firmer. In movement shows very good ground cover where reach could still be freer. Off lead gaiting – showed good ground cover and maintained wither line. An oversize bitch that reflects her pedigree that offers a degree of predictability that will maintain phenotype and genotype. **EXCELLENT**

**\* Ch Arkon vom Altenberger-Land (Deu) a ED**

*Sire: \*Canyon Vd Lars-AUE 'a' ED (Gmy)*

*Dam: \*Calista v Hamyar 'a' ED (Gmy)*

Sire present. ANKC registrations: 158. A dog that has not been used extensively since arriving in Australia and to date has 13 animals through the hip and elbow scheme with a mean score of 6.31 for hips and 54% normal, 7.5% Near normal, 38.5% grade 1 elbows respectively. Even though the sample size is small, concern must be expressed about his elbow results.

This is, I believe, the first time he has presented a group that is sire typical, of good to very good type, size large to very large. Very good type - very good distinction between sexes and ideally underjaws could be stronger, very good pigment –body proportions slightly elongated — normal withers – firm backs – croups slightly short slightly steep – good to very good forechest – angulations good to very good – movement is balanced where the reach could be freer and the hocks and elbows firmer. A pleasing first time group and one I look forward to seeing again. Congratulations.

**\* Pepe von der Zenteiche (Deu) a ED**

*Sire: \* EU2 de la petite Laticia 'a' ED (Gmy)*

*Dame: \* Amy vd Zeneitche "a' (Gmy)*

ANKC registrations: 430. A dog that has been used extensively since not long ago arriving in the country and to date has 18 animals presented to the hip and elbow scheme with a mean score of 7.06 for hips and 96% normal elbows, 4% with UAP. Given the number of registrations, it is surprising that not more of his progeny have been presented to the scheme.

What is surprising is that this is Pepe's home state and one would have expected a far larger entry of his progeny in the show. Comments made at this year's national applies again when viewing the small group as presented. The group demonstrates very good colour and pigment with mixed type. Very good heads. Restrictions are the length and lay of the upper arm and the croup, the movement should be more expansive. Congratulations.

**\* Ch. Ustinov vom Romerland (Deu) a ED**

*Sire: \*Quantum v Arminius 'a' ED (Gmy)*

*Dame: \* Kira v Lacros "a' (Gmy)*

*Sire present.* ANKC registrations: 207. A dog that has not been used extensively since arriving in Australia and to date 13 animals through the hip and elbow scheme with a mean score of 10.08 for hips and 85% normal, 15% near normal..

We are all familiar with this sire as he is the first SV VA dog to be imported into Australia and who has been used extensively in Europe. Comment as made at this year's National also applies to this group. The type is mixed and is not father typical. Heads could be stronger, withers are normal, restriction of length and lay of upper arm, and short croups, the movement should be more expansive.

**\* *Xaro von der Plassenberg (Deu) a ED***

*Sire: \* Remo v Fichtenschlag 'a' ED (Gmy)*

*Dame: \* Wendy Vd piste Trophe "a' (Gmy)*

ANKC registrations: 75. Does not have required sample of 10 for stats to be reportable. The group consists of very young animals and therefore comment is restricted to a general observation: It is noted that the type and movement of the animals in the group is very good. The sire is well bred and I believe offers a high degree of predictability through his sire and dam lines. It will be interesting to see this group grow and develop.

**\* *CH Sundaneka True Blue A Z***

*Sire: \*Fulz di Zenevredo 'a" Ed (Gmy)*

*Dam: \*Xyna V Niemberger Eck 'a' Ed (Gmy)*

Sire present. ANKC registrations: 8. Does not have required sample of 10 for stats to be reportable. This is the first time that a LSC dog has presented a Progeny Group in Australia and it must be noted that the progeny as presented are all from 1 litter. Therefore any comment must be treated with caution as the animals are also very young. to make definitive comment on. They are father typical large to oversize, with very good colour and pigmentation, good heads where underjaws should be stronger, normal withers, good angulations of the forequarter and very good angulations of the hind quarters. The movement should be more expansive and the withers held higher. A pleasing group however fact they are all siblings together with restrictions should be noted.

---

**Breeders Group.**

There were 2 groups competing and this in itself is an achievement as many of us as breeders never have that many animals at a show in order to compete in this class.

**1<sup>st</sup> Jacknell Kennels: Jess Kada.**

The group was represented with 3 sires and 4 dams. There was very good uniformity with the animals displaying very good type with good fore and very good angulations and balanced movement. A most pleasing group and it must be noted that the breeder Jess Kada is a younger member of the fraternity and is currently pursuing her ANKC licence to judge GSD'S.

**2<sup>nd</sup> Andacht Kennels: Lorelle Riley**

The group was represented with 5 sires 4 dams: the predictability factor is very high. The group displayed was very good, however with mixed type. Overall the firmness of hocks and elbows should be much firmer. Restrictions of the forequarter and length and lay of the croup, movement should be more expansive. The breeder Lorelle Riley has enjoyed much success and has a proven record of producing quality animals. Congratulations.
