Stunadel Zinnia (Rupos vd Ostfriesischen Thingstatter x Stunadel Olympia)

Best Performance in Show & Trial:

Quosh vom Drei Birkenzwinger (Derrek vom Drei Birkenzwinger x Hadja vom Drei

Birkenzwinger)

Breeder's Groups

The National Breed Commission Executive again acknowledges the Breeders Groups that were presented at the 33rd National Show and Trial. It was very pleasing this year that three groups were presented on the day. The National Breed

Commission Executive appreciate how difficult it is to present a breeders group and the fact the groups were presented from kennels registered in Western Australia, New South Wales and Queensland contributed to a truly National event. All of the groups presented displayed a high degree of difficulty and we acknowledge the commitment that the breeders have made to the breed and indeed the support of the National Show.

1st. - Iccara Kennels – Western Australia

A group of 5 animals – 3 males, 2 females from 5 sires and 5 dams.

The group overall was of correct size, very well constructed, well coloured animals of very good type. There was a very clear distinction between the sexes and the animals were presented in a very firm and dry condition with very good top and underlines. The group displayed good fore and very good hindquarter angulation. Stepping correct both front and rear however the elbow connection could be a little firmer.

The kennel is a very well established one however to present a group of such high quality, with more males than females, from 5 sires and 5 dams displaying such a high level of uniformity must be congratulated. In addition this kennel is situated in Western Australia and the National Breed Commission Executive congratulates the breeders for presenting such a group at the National Show. A very pleasing group.

2nd. - Andacht Kennels – New South Wales

A group of 5 animals – 2 males, 3 females from 3 sires and 4 dams.

This is the first time that the kennel has presented a group at a National Show. The group overall was of correct size, very good colour and of very good proportions. There was clear distinction between the sexes and the males displayed very good masculinity. The upper arms are of very good length however in some animals the upper arm should be slightly better angled, Very good hindquarter angulation. Stepping correct both front and rear however in some animals the hock joints should be a little firmer.

The kennel is a relatively new, smaller kennel from Sydney and to present a group of very high quality from 3 sires and 4 dams is to be congratulated and encouraged. The breeders have presented a very good basis of a group and the National Breed Commission Executive look forward in seeing the future development, not only of the individual animals but the group as a whole. A very pleasing group.

3rd. - Boldsteps Kennel – Queensland

A group of 6 animals – 3 males, 3 females from 5 sires and 3 dams.

This is the first time that the kennel has presented a group at a National Show. The group overall were above medium size to large, with good toplines, and of good type. The upper arms were of good length but should be better angled, very good hindquarter angulations. Stepping correct both front and rear with good firmness of joints. Very good hindquarter angulation. Compared to the other groups presented, the type was a little more mixed and the uniformity was not quite as evident as a group.

The kennel is registered in Queensland however the breeders do live some distance from Brisbane and have made a huge effort to present the group of six animals with equal males and females from 5 sires and 3 dams at the National Show. The National Breed Commission Executive looks forward in seeing this group develop as a whole. A pleasing group.

In closing the National Breed Commission Executive congratulate the kennels for presenting three very good groups especially as the National Show is in Queensland and thank all of the kennels for their continued support of the German Shepherd Dog Council of Australia Breed Improvement Schemes and wish them all the best in their future breeding programs.

OBEDIENCE

Utility Dog

- 1 OC. Iniff Excalibur (Ch. Iwan vom Lechtal x Iniff Vivaldi) Score 191
- 2 OC. Elkantara Sir Simbah (Armani Zamb x Elkantra Kazzanee) Score 189
