# PRESIDENT'S REPORT

On behalf of the Executive, I welcome you all to the 2016 GSDCA Annual General Meeting and give a special welcome to a younger member of the fraternity who is now President of the GSDC Qld, Sharon Ballantyne.

It is indeed heartening to see a new face take on such an important leadership role at a time when she is also a trainee GSDCA Specialist GSD judge. I only trust her example will be followed by other younger members, as the time is fast approaching when many positions across our Member Clubs and Council will require new faces. Having said that, and even though she is not present, I am very pleased to welcome a 'new' face as a member of the Executive: Jacinta Poole, who has also come forward and takes up the position of Editor GSDCA Quarterly National Review (QNR). Jacinta is a most valued member of the GSDCV Management team, who has made significant contributions to the administration of that Club. She is very much grass roots and is involved in trialling, showing and has already made a significant contribution as GSDCA Web Officer in a team that implemented the new GSDCA website, and I believe will make a positive contribution to Council.

The past year has again seen much work done by the Council and Member Clubs and this has been reported in the Presidents Report and other reports as prepared by the officers of Council in the QNR and Member club media. I again report that the Council's achievements can only be attributed to the many members who voluntarily give up much time and money to administer Member Clubs and or act as officers of the Council: their passion and work continues to add to the long history of the GSDCA achievements towards responsible dog ownership, the promotion, welfare and development of the GSD in Australia. I thank you for all for your continued service to the breed!

It must be noted again that the GSDCA Executive's main role is to administer the affairs of the Council, but also to show leadership and initiate and help develop

new programs and or review / enhance current practises. I am pleased that despite each member of the Executive having large workloads, they have again contributed input to all matters in a timely manner and were professional in interactions with others and within the team. I have observed, since taking on the role 4 years ago, that members of the Executive continue to grow into their roles, are more confident and are

**"It must be noted again that the GSDCA Executive's main role is to administer the affairs of the Council, but also to show leadership and initiate and help develop new programs and or review / enhance current practises."**

frank and fearless when considering matters. I believe we now have a truly interactive leadership team that own and defend the decisions as made. I would like to note the valuable contribution that Yvonne Yun has made to the GSDCA during her 4 year term as editor GSDCA Quarterly National review over the last four years. Yvonne took on this role after a break from being Editor during 2003-2007. The position of Editor has always seen pressures brought to bear on the occupant but Yvonne's enthusiasm, and supporting the need for change, saw her putting forward the proposal that saw the Editors position expanded to cover all things Communication: whilst this change was not formally adopted, the concept was put in place and saw the Website, QNR and FaceBook better utilised as communication tools for the Council. I again thank her for her tireless work and state again that despite

the negative feedback she personally received from time to time, her work and knowledgeable contribution to the wider affairs of Council is noted and indeed appreciated by all of us.

The relationship between Member Clubs and the Executive is, in my opinion, also much improved and my aim of seeing all informed and all owning the solutions as well as the problems has again improved. This improved way of doing business has had positive effects with Member Club members being made fully aware of exactly what is happening at a National level. It has been suggested to Executive, NBC Executive and I, as President, that we must become more assertive and 'make' things happen as they did in the past: to those of you that think the good old days need to be revisited with lack of reason or logic, autocratic style and fear to instil control, I have a message for you: those days are well and truly over and may I say that Max Stokes as GSDCA President back in the late 1900's lead the charge on this issue and initiated major change with regard to how Member Clubs and their members needed to have greater control of the Council Executive than in the past. I can only urge Member Clubs to become even more transparent and inclusive of your membership. With regard to Member Club leadership I would like to thank Rodney Vernon, who decided to not seek re-election as President, GSDC Qld. Rodney stepped up at a time when the Club was divided and its future looked rather bleak. His work during his term saw a healing process in place and renewed enthusiasm that saw the Club initiate new member programs and win the confidence of the Council that saw the decision to conduct the 2017 GSDCA National GSD & Trial in Queensland.

The surprise of the year and a major disappointment for the Executive and I was in fact when clubs submitted their Agenda items for this meeting. What I felt as us progressing did in fact appear to be us stalling down the turn for home. The agenda has some very badly ordered motions and rationale which makes it hard to understand the intent of the motion, let alone give members true insight as to why they should be supported. Based on the discussions held at the Forward Direction Workshop (FDW) and subsequent fora, it appears that pure ignorance and or mischief making has seen motions proposed by Member Clubs, when in fact the matters surrounding these motions were either well established and or discussed and a direction put forward at other meetings of Council. The Council now has more opportunity than ever before to ensure that the members wishes are brought forward and considered in a manner which is well thought out and supported by rationale that can be defended.

Now to the future and challenges:

We expect the LRL that will see same scores for HD/ED that qualifies for A & Z stamps are adopted. If this is achieved, it will be one of the most important milestones the Council has been able to achieve! There is no doubt this will further improve the health of the GSD, however will also bring its challenges as now non- members can advertise fact their breeding stock is on par with that of our members: it has the potential to hurt our brand.

Another important fact is that only 1/3 of all litters in Australia are from Breed Surveyed parents, with the other 1/3 having 1 Breed Survey parent and 1/3 having no connection to Breed Survey. It is therefore imperative that we look at implementing a strategy on how best to convince the ANKC to introduce an LRL

that will see at least 1 Breed Surveyed parent of progeny registered. It must be noted that this cannot happen overnight and the fact that recent implementation by the Executive to have as a minimum 2 Breed Surveyors officiate at Breed Surveys is a case in point. There was much email traffic and opinion given about this matter, but what has to

**"The challenge for the Council, via its Member Clubs, is to remain relevant to the needs of owners of the GSD."**

be remembered is I, as have many in the leadership group, been made well aware of the innuendo and allegations about Breed Surveys that see only one Breed Surveyor attend. That discussion, together with what is continually being discussed behind closed doors, has highlighted the need for a review of the Breed Survey Scheme with regard to creditability, accountability of Breed Surveyors and the conduct of Breed Surveys and this should serve us well before we can put a case forward for such a game changing move.

The challenge for the Council, via its Member Clubs, is to remain relevant to the needs of owners of the GSD. It cannot be all about breeding LRL to the ANKC: we know that the number of GSD breeders has diminished significantly over the years, hence what partnerships can we engage in with other canine organisations to reach out to these owners, and how can Member Clubs not only maintain but improve member retention rates in order to further reach out in a community that for most part is anti-dog and continue to influence their members. We have talked about

sharing our programs etc. but really what is shared apart from talk at meetings like these. I still have members complaining to me about unfair practises in their Club: hence what level of real transparency, inclusion and sharing exists in our Clubs? We all need to look back and cite what was it that kept us coming back to our Club and made us work for the GSD? This may provide clues on how better we can maintain our relevance and attract new GSD owners and keep older members alike.

I again thank my colleagues on Executive, Club Presidents and the membership for their continued support of me and I only trust that I continue to meet your expectations.

In closing I would like to thank my wife Frances and my family who after some 39 years of involvement in administering GSD and canine affairs, continue to provide me support and encouragement.

## VINCE TANTARO, PRESIDENT

*PS: For the benefit of all members , the GSDCA has this year introduced a new feature to the National edition. We have invited the presiding conformation judges to give us insights into their view of the classes they judged. It is appreciated that everyone is time poor these days and the Council would like to acknowledge the great effort of Herr Richard Brauch and valuable information he has provided.*

*Unfortunately, at the time of going to press the overview of bitch judging could not be obtained.*

*Vince Tantaro*

## Opening Ceremony - 44th National Show and Trial

At the opening of this prestigious event every year, we pause to remember those who have gone from our midst in the past year. A minutes silence honours those we have lost. This year, mention was made of Laurelle Reilly, Jonathan Hayton, Frank Valastro and Richard Mindin, all of whom were active participants and contributors to our sport. This list is by no means comprehensive and to all those members and their families who have suffered a loss this year, the GSDCA and its member clubs wish to offer its sincerest condolences for your loss.

# EDITORIAL

This edition is a compilation and record of the 2016 National Show & Trial, and encompasses the complete results and critiques, reports, presentations and images from the event. Every effort has been made to record the event in its entirety.

The 2016 National edition of the Quarterly National Review has been produced and edited by Yvonne Yun, by arrangement prior to stepping down from the Editor position at the AGM. As such, the credit and responsibility for this edition goes to Yvonne. Thank you for your efforts and contribution to the Review magazine.

This edition showcases the 44th National Show and Trial, hosted by the GSDL. To complete the content, a huge team effort is required in the weeks following the national, by many who also worked so hard during the show. Thank you to Fay Stokes for provision of results and critiques from steno's and to Tiki Friezer and the obedience judges for their critiques. Tail Male charts are provided by Stephen Collins, and thank you to Robyn Knuckey and Joylene Neddermeyer for Breeders groups the Sires Progeny report. Thankyou especially to Cathy Shayler and her team of photographers at the event for provision of many of the images from both the Show and Trial. Thanks to those who contributed with advertising and thankyou to everyone involved in completing this edition and submitting material – there are too many to name.

In this edition you will find a detailed article on Police Dog Rumble. At the National Opening Ceremony a GSDCA Outstanding Canine Service Award was presented posthumously to PD Rumble, a member of the WA Canine Operations. At the WA State Breed Exhibition on April 16th, Robyn Knuckey formally presented the award to PD Rumble's handler Acting Sergeant Mat Muletta, in recognition of Rumble's efforts. Thankyou to all involved in arranging the award and the presentation.

Already we are looking forward to the 2017 National in Queensland and we wish them every success in their planning. Congratulations to everyone involved in the Sydney National Show & Trial, a terrific event to showcase our breed. One notable point was the overall atmosphere and particularly the sportsmanship exhibited within the rings during the show. A positive to move forward with !

Enjoy your review of the 2016 National.

JACINTA POOLE, EDITOR

A magazine of this nature does not just happen – a lot of people have made a huge effort to keep us on schedule and to ensure we have provided all required for this edition. My personal thanks to the stenographers, photographers, contributors, NBC Chairperson, Judges and Steve Collins for all their hard and very quick work to make this happen.

YVONNE YUN, QNR Production

The Club held its Open Show on the 20th February and Judge for the show was Ms. Melissa Starkey. Best in Show was Debban Dj Vu and the Reserve went to Debban Bella AZ. A Breed Survey was held the following day and four dogs were successfully classified. Thanks to Barry and Carol O'Rourke our Surveyors on the day. This is also a timely opportunity to send a get well message to Russell Wenham who is taking a break from club duties at present. We look forward to seeing Russell back in top form very soon. Our Obedience Coordinator Ann Clarkson is also doing it tough with health issues but knowing Ann's determination members are sure to see Ann fully recovered shortly.

Members have been fundraising for the 2017 National and were at the Durack Sportsgrounds on the 6th March assisting the Committee providing lunches and drinks for 14 other clubs on the day. Thanks to all who gave up their time with good profits deposited into the National account. Fundraising is the Committee's primary focus this year and already we have two more Bunnings BBQ's planned with all funds going towards the Queensland National being held on the 19th, 20th & 21st May 2017.

Congratulations to all who exhibited their dogs at the Sydney National over the Easter weekend. Once again Queensland was right up there in the medal count. Congratulations to the owners of \*Zicke vom Feuermelder owned by John & Pam Oar and Jurgen & Janet Haase for winning the coveted Gold Medal in the SC female class. Well done to Judith & Irene Hayton & Danni Mayne's \*Ch. Avahlee Girls Keep Secrets who brought

home a second Gold Medal in the LSC Female class – top effort and happy tears all-round. The Bronze Medal in the SC Male class going to Andrew & Rachel Jones and Astasia Kennels's \*Xaro von der Plassenburg who presented and performed well in the class. Congrats also to Kerri O'Brien's \*Ch. Denargun Uncle Fester who was the Bronze Medal winner in the LSC Male class. In the Obedience Trial ring a big well done to Dell Francis's \*Jaykri Ruby Tuesday who was second place in the CCD class under Judge Tiki Friezer (NSW). Congratulations also to all those who managed to get their dogs 'on the pegs'. Go the Queenslanders!

A small team of enthusiastic members in Zone 2 have been fundraising furiously for planned events this year. Sarina Kennel Club is holding a Triple Header Championship Show on 21st & 22nd of May and GSD's will be judged separately by Ms. Sharon Ballantyne. Class winners will all receive trophies and sashes at breed level with Gradings and Excellent Medals at the Judge's discretion. A bit of a break then a big weekend on the 13th & 14th of August in Rockhampton when the Zone will be conducting an Open Show followed by a Breed Survey on the Saturday. Russell Wenham is our Breed Surveyor for the day along with a second Surveyor still to be appointed. Russell will also Judge the Members Competition on the Sunday. Exciting times for Zone 2 members in the lead up to the 2017 National.

The next big event on our calendar is the July Championship shows double header with Louis Donald and Vince Tantaró judging the show and Bill Patterson judging the Restricted Obedience Trial. Dates are Saturday the 9th and Sunday the 10th July 2016. Those wanting to book accommodation can find details on the Club website [www.gsdca.org.au](http://www.gsdca.org.au)

## GERMAN SHEPHERD DOG CLUB OF NEWCASTLE

The Club has started the year off in full swing with our Championship Show and Trial which was an excellent pre-cursor to the 44th National and Trial which was held in Sydney. Our club members did extremely well at both shows and all the hard work paid off. Firstly congratulations goes to Fremont Hells Bells AZ who was Best in Show at our March show and for the first time in the history of the club a long Stock Coat Female, Kelpinpark Icing on the Cake AZ was runner up best in show. It is great to see the lovely quality coming through with some of the long stock coats, which was evident at both our show and the national titles. Our obedience trial was another successful event and special congratulations goes to Peter Asquith, whose Ch Babanga Make My Day AZ got his second pass in CCD as well as an excellent in Open Dog. Peter puts a lot of work and love into Colt and this is paying dividends—Peter qualified for the best in Show and Trial trophy which has not been presented for many a year.

Now onto the national which saw our members do extremely well. Babanga Mr Anderson was the Silver LSC dog and Ch Fremont Hells Bells was the Silver SC dog, both these lovely males are from \*Gerry vom Schacher and he is very proud. Lawline Quira AZ was also awesome winning the bronze medal in LSC bitch class. Congratulations to all the connections with these dogs. All our members including our Team North Coast members, did extremely well, Cath Shayler was the proud winner of both the Intermediate and Junior bitch LSC classes so a huge weekend for her—she achieved all this in addition to doing the national photography with her team. Special mention goes again to Peter Asquith and Keira York with \*Ch Babanga Make My Day AZ who gained an excellent in Open dog in addition to gaining his third pass in the CCD obedience. This capped off a huge week for them as Colt also won open dog and Reserve Challenge at the Royal and their young Babanga Oriana won the puppy bitch

class. Whilst on the subject of the Royal huge congratulations also go to Paul and Kay York who won the breeders group at the Royal with their Lhasas and topped it off with winning Best In Show, I'm sure they are still floating.

The club settles down and into the activities of the year, in May we have our members competition in Coffs Harbour and this proves to be a fun filled weekend. We will be looking at several ideas to raise much needed funds for the club in the coming months.

The club finally has a new website which is still being finalised but please go and check it out, [www.newscastlegsd.com](http://www.newscastlegsd.com). Until next time, enjoy your dogs—Leeanne

E-Mail [secretary@gsdawa.org](mailto:secretary@gsdawa.org)

The National is over for another year and those members who ventured over had great results and deserve our congratulations. It is quite an undertaking to attend these big shows. Taking at least a week off work to travel back and forth - booking a flight where your dog can "fit", hiring a suitable vehicle for the dogs and crates, finding accommodation which will accept your dogs close by the ground. Not that we would change a minute of it of course, the highlights include catching up with people and seeing those gorgeous dogs.

One of our sponsors, Armadale Mower World, who were responsible for the Ride to the Other Side for charities including the E.J. Whitten Foundation for Prostate Cancer Research, decided to raise funds for the people who have suffered in the recent bush fires in W.A.'s South West. Our association was more than pleased to help support those in need and congratulate Craig and his team for their selfless efforts in helping others. This was a super way to begin our new daytime training term with a BBQ breakfast.

We held our first Character & Working Assessment last week and were very pleased to have 7 dogs presented. Although the crowd was a tad warm out in the open on a 32 degree day! Congrats to all for their participation.

We have had a couple of dogs attain the magic 100 at the Rally-O trials recently - congratulations to Kerrie Pearce and T Ch Glenbala Bratsarefun CD (twice) and Wayne Martin and LaShadas Xang Bang BS Class 1 A Z Exc CDX.

Things are well underway as we approach our State Breed Exhibition next weekend. The team has been organised to rake, mow, clean and polish our grounds at Headquarters. The members have supported this concept since its inception in 1989 when Barry O'Rourke brought the idea of a mini M.B.E. for our association with a twist (or two). We hold our usual graduation on the same weekend as the trials and conformation events. In addition we have the Critique only class which is a non-competitive class where dogs and owners who have not had the training for the show ring have the opportunity to present their dog to a specialist judge and receive a critique which is printed onto a beautiful certificate. It gives a more complete picture of what can be produced by both stud dogs and dams. We have been able to bring quite a few young dogs into the show ring as a result of this unique class.

We are holding a Rally-O trial late in April and the Working Dog Club of W.A. have invited Luis Pinto Teixeira from Portugal to judge our breed in the specialist manner at their 40th Anniversary show.

In May we have scheduled a Breed Forum with a talk on Canine Reproduction by Nadine Gruenthal and discussion of topics for the N.B.C. meeting later in the year. June will give us the opportunity to hold two Members' Competitions to be adjudicated by Andrew Jones and Bruce Knight.

I would like to close with a congratulations to our latest newly weds Mr & Mrs Wedge - Candy & Brendon. Wishing you every happiness from all our members.

Until next time - signing off Margaret Adams

The GSDL held the 44th National Show & Trial on March Easter weekend on behalf of National Council and the committee handled the task in their usual competent manner. Congratulations to all those who did well and I hope that they in turn appreciated the Organization Committee and workers that put the Show together.

There was the usual heavy workup to the Show with final preparations all coming together in the week ready for the Friday start to proceedings. The show got off to a flyer on Thursday afternoon with the Welcome Sausage sizzle which was well supported. We had no applications for Breed Survey this year, usually get one or two but not this year.

Judging went smoothly with no major hiccups thanks to the Chief Steward Jenny Kenworthy and her trusty band of stewards who managed the weekend with no major problems. Most of the functions were well attended, Marketing had a really good result and Pam Jarvis was aided by the Yates family and the Canteen was kept busy at all times and well handled by the Laughlan family. It was good to see that we could rely on these people and others that turn up each day and help run a big show like the National and commit to a whole weekend on tap and helping where they can and also helping out of their own allocated jobs.

NSW had good results over the whole competition with members taking out class and Major Awards and the Obedience Challenge was won by NSW with our team of stars Koonski Just a Dash, Koonski Dash of Pepper and Druann Black Magic, well done guys. There was also 11 Obedience Excellents given out in the Trial and a lot more in the show ring of which NSW picked up their share of. The weather was kind to

us most of the time but warm at some times during proceedings but sensible practice by Exhibitors with watering their dogs at the right times kept any problems from occurring.

The Trophy table was well received and very well displayed so all could see with the dogs being a standout. We had quite a crowd at the presentation where Champagne and Chicken was the order of the day and was enjoyed by all. The sportsmanship shown by all Exhibitors at the show and presentation was well appreciated by the GSDL.

Les Nicholas appreciated the help he received over the weekend, also the grounds were left in a tidy condition which is always a bonus and Les's dismantling of the Show after judging had finished and the help from members and some interstateers and the clean grounds also helped.

We are now looking towards our Open Show in June and then the State Breed after that October then our Christmas Show and then into another year all these details are on our website, where does all the time go.

Cheers, Terry Jarvis.

E-Mail secretary@gsdvc.org.au

Victorians have made a huge start to the 2016 year. The first week in February saw all branches resume training - on average our branches train over 400 GSD's each week across Victoria, so it was great to be back. At the end of 2015, our collection of training data was amazing - we'd trained 16,500 dog units over the year, using over 2,700 instructor hours. An increase of 15% over 2014. Wow !.

In March we were out and about in the annual Moomba parade down St Kilda Road, this year in front of 75,000 people. We even scored some TV time !. Our team of 10 dogs were a huge hit once again, and the crowd

loved the opportunity for pats and pics.  
Great promotion stuff for our breed.

Congratulations to everyone from the GSDCV, especially the Western branch organisers who collected \$30,206.00 for the Royal Children's Hospital Good Friday Appeal. Every year we are involved in this most worthwhile cause and after 33 years we've raised a total of \$575,830. A great effort for the kids, and not bad for a dog club either !!!

At our Champ Show in March Mel Groth judged, with SC Challenge Dog won by \*Jaknell Coz Im TNT, Challenge Bitch \*Ch. Bronacre Dark Diamond, LSC Challenge Dog \*Ch. Jayshell Glasgow and Challenge Bitch Bronacre Chewbacca. The biggest cheer at the presentations went to Dual Performance winner Stuart McDonald and his Open dog \*Ch. Stobar Quentin AZ CCD ET.

Our club AGM in March was again a special event. We presented over 100 title awards to both show and our highly active obedience dogs, along with our Perpetual Show trophies. 40 year membership awards were presented to Maureen & Will Goodwin, 30 years to Mary & Norm Hawthorne and Ann & Melissa Hammond and 25 years to Frank Grigons, Jenny Joseph, Andre Torpy and Jo Mee. Cristine Begbie and Julie Urie were recognised for 30 years continuous service as Obedience instructors. Wow ! The evening was topped off with presentation of Life Membership of the GSDCV to Jenny Yuen, a long standing and tireless worker. We also presented special recognition awards to Bendigo branch members Terry and Debbie Kennedy for their efforts. Our top Show dogs for 2015 were Schneider Trophy winner \*Ch. Jayshell Winona (P & N McDermott), Best Dual Performance Trophy \*Volsain Akira (C Anderson), Stock Coat Specialist Dog of the Year \*Xaro von der Plassenburg (A & R Jones), Specialist Bitch was \*Ch. Jayshell Winona (P & N McDermott), Long Stock Coat

Specialist Dog was \*Ch. Jayshell Glasgow (D & L Organ) and LSC Bitch was Ch. Zandrac Duchess Satine Kryze (D & L Organ). The Young Handlers Achievement Award winner was Trinity Jones. We deserved to all.

Congratulations to the Victorians who did well at the National, whether on the pegs or not. We had many of our dogs do well in both the LSC and SC classes against strong competition. Victoria brought home the Gold medal with 1st place in Open bitch to Jurgen and Janet Haase's Zicke vom Feuermelder, along with 7th place for Michelle and Tony Mercieca's Ch. Schaeferhund Balleena and 8th with John and Helena Schulz's Schaeferhund Nelke. Well done to Schaeferhund team Chris and Angela who bred both 7th and 8th placed Open Bitches. Caro Anderson's girl Volsain Akira finished in 10th, rounding out the peg placings for the Vics. Not bad at all in a very high quality class. In the prestigious Open dog the Vics had 2nd place and Silver medal with Andrew and Rachel Jones' Xaro von der Plassenburg and 6th with Vicki Dobson and Andrew Jones' Zandrac The Hard Way. In the obedience rings, we had many competitors who did their best. Congrats to Julie Urie with Harlerose Angel and Stuart McDonald with Stobar Quentin who both achieved passes in the Novice ring. To top it all off Julie Urie with Harlerose Angel won the Dual Performance Award, winning the novice ring with 197pts and finishing 28 of 49 in the Open Bitch Class. Julie and Sachie also won the Silver medal in the Winner of Winners runoff with a terrific obedience display appreciated by all who watched Julie and Sachie enjoy their work so much.

So now it's on to the State Breed Exhibition, obedience trials and of course the tracking season is now in full swing. Get out there with your dogs !

# INTRODUCING YOUR

## CONFORMATION

### Herr Richard Brauch Judging: Dog Judge, Stock Coat and all Long Stock Coats

Member of the SV since 1966 - Kennel Name „vom Elzmündungsraum“

Breeding about 120 Litters since 1971 (look at: [www.elzmuendungsraum.de](http://www.elzmuendungsraum.de)) highest rated dogs out of the kennel since 2000

- Xantia (SG3 2000, VA2 2002)
- Gigolo (Bronze medal winner and VA Australia)
- Ken (Young-dog-Sieger 2004 /V2 2005)
- Digger (V23 2007, V11 2008, V8 2009, V4 2010, VA4 Spain, VA1 Swiss Siegerschau 2009)
- Daphne (V8 2008)
- Gower (VA3 Swiss Siegershow 2012, VA2 Siegerschau United States 2014)
- Fax (V38 Siegerschau 2012, VA3+VA6 United Staates 2013 und 2014)
- SV-Judge since 1996
- SV-Breed Surveyer since 2001

Judging activities in more than 40 different countries all over the world including Siegershows in Germany, Argentina, Australia, Austria, Bulgaria, Estonia, France, Hungary, Italy, Latvia, Philippines, Romania, Spain, Switzerland, United States, Ukraine.

### Frau. Margit van Dorssen Judging: All Stock Coat Bitches

My name is Margit van Dorssen and I live in Cologne, Germany. It is an honour for me to judge again Australia and for the first time your 43rd GSDCA National GSD Show & Trial and express my gratitude to the German Shepherd Dog Council of Australia (GSDCA) for their kind invitation.

My kennel name is "von Arlett" is now more than 35 years old. I have bred many excellent rated dogs and bitches and the following VA dogs: Sieger "Ulk von Arlett", Huppy Von Arlett and "Ghandi von Arlett". I have also participated in working dog trials and presented what are indeed a highlight for any Breeder: Progeny Groups of the VA dogs I have bred and competed in the Breeders Groups at the SV Sieger Shows

I started judging in 1996 and was appointed a Körmeister ( Breed Surveyor) in 2001. I have judged Seiger Shows and shows in many countries with the highlight thus far being Judging Junior bitches at the 2012 SV Sieger Show.

I have been an active breeder since 1978. My basic philosophy is to try to breed dogs with an excellent conformation that can still be used as working dogs in the true sense of the word. In Germany we call this the "Universal Conception", the dog that has an excellent anatomy combined with very good working abilities. Further I am well known for my love of sable GSD. I make intensive use of sable dogs in my breeding program and in doing so I have found that the sable colour improves and consolidates pigmentation.

I am happy to meet many of you again and trust all exhibitors and visitors enjoy the show and everyone shares and celebrates each other's success.

## OBEDIENCE

### Vicki Etherington OAM Judging: Obedience Utility & UDX Dog & Bitch

I joined Dogs NSW as a child member. I have bred, owned, shown, trained and made up several Conformation, Obedience, Tracking, Heelwork To Music and Dances With Dogs Freestyle Champions. I have competed in Non-Slip Retrieving Trials, Gundog Working Tests and Rally Obedience to RAE Title. I currently exhibit in the Conformation Ring, Obedience, Rally Obedience, Tracking, Agility, Herding, Dances With Dogs in both Freestyle and Heelwork To Music, and Endurance.

I have been Judging for 40 years - Full panel Obedience, Tracking, Endurance, Rally Obedience, Agility, Dances With Dogs and Retrieving Ability Tests for Gundogs (RATG). I am an official Accredited Government Temperament Tester and Breed Assessor, representing Dogs NSW. I represent Dogs NSW on the Animal Advisory Committee of the Woollahra Council. I am a member of The Community Consultative Committee of The Centennial Park Lands NSW. Currently presenting Pet and Child Safety School Holiday Programs. I will continue to work with Dogs NSW to foster the growth and development of affiliated clubs to support enthusiasts in the wonderful world of numerous dog activities. The dog world is my love, my life and my passion. On the 26th January, 2010 I was awarded the OAM "for service to my country in the Vietnam War, for services to the community", as a dog trainer, for charitable work with Delta Dog Partner, "Country".

# JUDGES

**Maryanne Fazekas**  
**Judging: Obedience Open Dog & Bitch**

I have been involved in obedience training and trialling for over 25 years, and presently share my home with two Border Collies. I have been a judge since 2004, as I wanted to give something back to the sport I love. I judge extensively in metropolitan and country NSW and I love both 'playing' with my dogs and introducing new competitors to the challenging world of obedience and rally competition am honoured to be judging a the 44th National German Shepherd Show and Trial and hope everyone has had a truly enjoyable time in every discipline they are competing in.

**Tiki Friezer**  
**Judging: Obedience CCD, Novice Dog & Bitch**

I joined the Cumberland branch of the German Shepherd Dog League in the late 1960's with my mother's Tarcoola bitch, my dad had to join also as he had to drive - I was too young for a driver's licence.

I am an obedience, rally, tracking and track & search judge, Dogs NSW and CGC [now Delta] instructor and life member of the Sutherland Shire Dog Training Club and the Tracking and Rescue Dog Club of NSW. Currently I am the Treasurer and Editor for the Tracking and Rescue Dog Club of NSW and Trial Secretary of the Hills Dog Club. I am currently owned and trained by Elka [ Killara Summer Wine AZ]

## JUNIOR HANDLERS

**Craig Rice, Leeds, UK**  
**Judging: Junior Showmanship**

I was introduced to the breed and showing of German Shepherds by my parents. Having grown up with them, the family began showing when I was a teenager. I quickly caught the showing bug and became a part of the showing and breeding decisions whilst still very young. I first handled our own dogs and then some of the more recognised kennels at the dog club took me under their wing and helped me.

Giving me good dogs to handle at a young age gave me a huge confidence boost. I was 18 years old when I handled my first National class winner in the UK, the quality of the dogs I was asked to handle then started to improve quickly. Within a couple of years I was becoming more established as a handler, being asked to handle for some of the top kennels in the UK. This has continued and I have now had the pleasure to handle for all that I would consider the top kennels in the UK.

To date I have helped over 30 dogs achieve the title of Champion in the UK and have now handled 8 dogs to the title of VA. After becoming involved in our first import, Philipp aus der Neuen Hauffstraße, I quickly became more interested in the SV side of showing and handling and have had the pleasure to handle at the German Sieger show every year for at least the past 10 years. Along the way gaining some fantastic placing in the young classes. These include SG5, SG6, SG11(x2), SG21, SG29, SG22 and most recently SG25 from an entry of 350 with our own, home bred, female Zandamor Afra.

At the British Sieger Show I have handled dogs to the title of Sieger and Siegerin as well as numerous VA titles and class winners. I have also had the pleasure to handle in the following countries; Spain (VA1), Belgium, Holland, Barbados, China (VA) and obviously Australia, where I've handled the Gold Medal winning female in 2014. Since attending the Australian National I have handled 1 Gold Medal winner, 2 Silver Medal Winners, 1 Challenge winner, 3 Reserve Challenge winners and 7 class winners, all in 4 years! The highlight of my handling career has to be handling Ballack von der Brucknerallee, first to SG5 in the 12-18 class, and then to VA the following year at the German Sieger show.

# JUDGING OVERVIEW FROM HERR RICHARD BRAUCH

The 44th National in Sydney was a great advertisement for the sport with the German Shepherd Dog. The entire event was imprinted through outstanding organization, very good weather conditions, a remarkable number of dogs exhibited and a very positive atmosphere with all participants and visitors.

I wish to sincerely thank the GSDCA and the GSDL of NSW for the invitation to the event. It was a lot of fun to judge at this event.

One of my assignments was the judging of all Long Stock Coat classes. As also found in Germany, the number of the exhibited Long Stock Coat – German Shepherd Dogs has in the past years clearly risen and the quality of the exhibited animals continually improved.

In regards to the individual Stock Coat Classes, the following comments are to be noted:

## Baby Bitch LSC

A quite large class of quite good quality, all of the 11 exhibited bitches received the grading of “very promising”, all bitches had very good pigmentation, a quite good size for their age and especially correct hindquarter angulation.

The Siegerin was a very beautiful sable bitch with very good movement sequence.

## Baby Dog LSC

All 4 dogs presented received the grading “Very Promising”. The winner was a sable dog – as I found out later, a litter brother of the Siegerin of the Baby Bitch Class.

## Minor Puppy Dog LSC

Here 4 of the entered 7 dogs were exhibited. The dogs all had very good pigmentation. Deficits were found in the overall firmness and especially in several of these dogs, the ears should for that age, be distinctly firmer.

## Minor Puppy Bitch LSC

Here too there were only 4 bitches presented, that were all able to receive the grading of “very promising”.

## Puppy Bitch LSC

Only 3 bitches were presented, who all 3 were of quite good quality and were able to receive the grading of

“Very Promising”

## Puppy Dog LSC

Here only 1 dog was entered, who received the grading of “Very Promising”.

## Junior Bitch LSC

In this class 11 bitches were entered, 9 were presented, 8 received the grading of “Very Good”, one the grading of “good”. The class was of quite good quality. Most of the exhibited bitches were very expressive and very well pigmented and of quite good overall appearance.

## Junior Dog LSC

There were 4 of the entered 6 dogs presented. 2 were graded “Very Good”, and 2 “Good”. There were restrictions noted in the overall firmness and in part; in the firmness of ears.

## Intermediate Bitch LSC

All 6 bitches exhibited received the grading “Very Good”. The first 4 of the exhibited bitches were of very good anatomical quality with excellent pigmentation and excellent type and expression. All bitches in this class were, however, rather large.

## Intermediate Dog LSC

Here of the 5 dogs entered, unfortunately only 2 were exhibited, who were both able to be graded “very good”.

## Open Bitch Class LSC

The open bitch class was the largest Long Stock Coat class. The class was of very good anatomical quality, so that 15 bitches were able to be graded “Excellent” and one bitch “Very Good”. In this class too, nearly all the bitches were found to be of very good overall structure, very good pigmentation and a standard appropriate hindquarter angulation. However in this class too, there were a few bitches that are to be described as “decidedly large”.

## Open Dogs LSC

All 8 dogs entered were initially presented. One dog was withdrawn with my permission. The remaining 7 dogs all received the grading “Excellent”. The class had especially, a very good top group with very strongly expressive, excellently pigmented dogs and correct overall

structure. To my pleasure I found after the event, that the Sieger was the sire of a number of highly graded animals.

In all classes there were more than just a few individual cases with a short under chest and so-mewhat light eyes to be faulted. On the other hand it is to be noted, that the stands in front, and the firmness of pasterns – actually typical faults in long stock haired dogs – were correct in almost all animals exhibited.

Apart from the judging of the Long Stock Coat classes my second task was the judging of all Stock Coat Dog Classes.

**The following comments are to be made on the individual Stock Coat classes:**

## Baby Puppy Dog

Unfortunately of the 18 entered dogs, only 8 dogs were exhibited, which nearly all were able to receive the highest award; these dogs all presented an age appropriate size, good type and a standard set overall construction.

## Minor Puppy Dog

In this class 20 dogs were entered, of which 14 dogs were exhibited. The class was overall of average quality, did have, however, a very beautiful top group. With a number of dogs restrictions in the overall firmness and especially of the firmness of hock joints had to be noted. Here too several times a light eye and a short underchest were to be found.

## Puppy Dog

In this class 11 dogs were entered, of which 6 dogs were exhibited; with my permission one dog was withdrawn, so that merely 5 dogs remained in the competition. In this class too, restrictions in the area of firmness and the length of underchest were found.

## Junior Dog

In this class, of 12 entered dogs, 10 were exhibited, of which 8 dogs were graded Very Good and 2 dogs were graded Good. This class too was at best, of average quality; here too, especially deficit in the length of the underchest, the eye colour and the overall firmness, were to be found.

## Intermediate Dog

In this class of 18 dogs entered, at first 17 dogs were presented for the individuals, 1 dog was withdrawn with my permission. All of the 16 dogs remaining for the competition were able to be graded Very Good. The class therefore had a very good number exhibited and was also of a rather good quality. Also to be found in this class, was that several dogs with yellowish or light eyes were exhibited and here too, the length of the underchest in more than individual cases were to be faulted. To be noted positively, is that in all dogs the stance in front is correct, and in this class also without exception, standard set hindquarter angulations with firm hock joints were the norm.

## Open Dog

In this class of the 45 dogs entered, 35 dogs were presented for the individuals, one dog was withdrawn with my permission, so that altogether 34 dogs were graded. The class was altogether of a very good quality and has in particular, a very good top group. The dogs were nearly all large, but within the size frame set by the standard. The dogs were almost throughout, of correct structural proportions and a pronounced dryness and firmness. In some cases the length and lay of the upper arm as well as pronouncedly sloping croups were to be faulted.

It was very pleasing for me, that after the end of the show – during the checking of results – I was able to find that the dogs who themselves were able to produce a Progeny Group, or the dogs whose sires presented Progeny Groups, were to be found in the top group and that in this top group there is also a number of different bloodlines represented, so that the breeders have diverse opportunities in the selection of the breeding partners for their bitches.

In closing thanks must be expressed again, to the organisers and all helpers within and also outside the ring, who made my judging adjudication very easy.

**RICHARD BRAUCH**

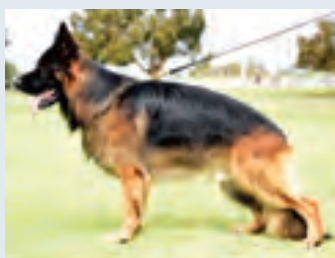

# DOG LONG STOCK COAT CLASSES

JUDGE: Herr R. Brauch (SV) Deu

## OPEN DOG LONG STOCK COAT

Graded: 1- 6 Excellent

**1**  
**\*Ch EROICA CATCH ME IF YOU CAN AZ**  
 11/09/2013

# GSDCA SERVICE AWARDS

Presented at 2016 National Show & Trial

## TIKI FRIEZER

Tiki has been a member of the GSD League since 1988, some 27 years.

Her willingness to help when ever called upon has ensured the League can run events professionally and well organised.

Her dedication to the German Shepherd Dog is ever apparent and we thank her.

Assisting with organisations of:

- Obedience Trials
- Tracking Trials
- Track & Search Trials

Judging:

- Obedience – CCD
- Obedience – Novice Dog
- Rally Obedience
- Tracking
- Track & Search

Tiki took on the role of Trial Manager this year which was very important as her expertise is needed to ensure the Obedience section of the 44th National Show & Trial will run efficiently.

## JUDY CONNORS

Judy has been a member of the GSD League since 1993, some 23 years.

Over that time Judy has held various Committee positions and worked tirelessly for the German Shepherd.

One particular task that Judy has undertaken for many years is to take all the number vests home after each show and wash and irons them as well as making new ones for those that are well worn.

Judy was a member of the Demonstration Team of the GSDL and eventually took over the role of Chief Instructor and the training of the Demonstration Team.

In that capacity Judy and her team represented the GSDL in many publicity events and expos putting the German Shepherds out in public view in the very best light.

Judy has also been the Chief Instructor at our Erskine Park Branch of the GSDL for many years and conducts obedience training every Tuesday night during which time the branch has grown and she has a group of very enthusiastic members.

Judy is also involved in the breeding and exhibiting of German Shepherds and is always ready and willing to assist anyone in any way possible.

Judy was made a Life Member of the GSDL for her services and dedication to the Club and the German Shepherd.

## GREG JONES

Greg has been a member of the GSD League since 1993, some 23 years and has during that time worked on the League Committee in the positions of Point Score Chairman and Show Manager, a position he held during the running of a National Show.

Greg has also been actively involved in assisting in the show training at the Erskine Park Branch of the League and after having a break off the committee for a few years, although still continuing to be actively involved in the Thursday night training, stood for GSDL President in 2015 and was successfully elected to that position and is still currently President of the GSDL.

Since becoming President Greg is even more actively involved and attends both Obedience Training on Tuesday nights and Show Training on Thursday nights as well as the weekends the League has training.

Greg is ever ready and willing to assist in any capacity he is asked and the GSDL is very fortunate to have such an active member.

Greg breeds under the prefix of Niquistar and has been successful in breeding Excellent graded, breed surveyed and A & Z stamp German Shepherds.

## HUGH GENT OAM ANKC PRESIDENT

Commenced Judging in 1969

Obtained All Breeds Licence in 1992

Judged extensively in all States of Australia, New Zealand, Singapore, Japan, Taiwan and Korea, along with judging Breed Specialities through to 2014.

Hugh along with wife Elizabeth, have been involved with breeding and exhibiting Labradors under the "Gunnislake" prefix since 1964. He has owned or bred more than 50 Australian Champions and have had outstanding successes at All Breeds Shows, Royal Shows and Breed Speciality shows

Hugh has been President of the Sutherland Shire All Breeds Kennel Club for 32 years and has held a number of positions with The Labrador Retriever Club including President, for the last 16 years.

Has been awarded Life membership of both of these Clubs.

I have been President of the Australian National Kennel Council since 1998 and was the Australian Delegate to the FCI Congress in Dortmund in May 2003 and to the Conference of Commonwealth Kennel Clubs in London 2008 and represented Australia at the FCI Asia Pacific Region Congress in Taipei in April 2015.

I was a Director of the Royal NSW Canine Council from 1988-2003 and Chairman of the Board from 1994-1997. In 2004 I was awarded Life Membership for my long service to the Council and dog fraternity. Until January 2016 I was the Chairman of the Conformation Judges Training Committee.

In the 2006 Australia Day Honours I was awarded a Medal in the Order of Australia (OAM) for my services to Canine Activities, in particular to the Australian National Kennel Council and the Royal NSW Canine Council. Away from these activities I am Captain of the Theresa Park Rural Fire Brigade, I have been awarded the National Medal with Clasp for my service to the NSW Rural Fire Service.

# YOUTH REPORTS.

## YOUTH AT 2016 NATIONAL

# 44TH GERMAN SHEPHERD DOG NATIONAL SHOW & TRIAL

The 44th National Show & Trial had a couple of great events for the up and coming youth handlers of Australia.

On Thursday 24th March, National Youth Officer Jess Lynch, along with three other mentors, Hazel Docherty, Andrew O'Loughlin and Trent Bray took ten youth handlers through a master-class which was individualized to the experience of each handler.

Broken up into 4 groups, the four mentors took the youth through various exercises ranging from the basics for the beginner handlers (showing teeth, stacking a dog, up and backs and how a dog should work while in the show ring) through to more specific things for the more experienced youth about handling in the show ring.

During the lunch break on Friday 25th March, the youth had the opportunity to compete in the junior handler's competition. This year, junior handlers were judged by world renowned handler Mr. Craig Rice (UK).

The competition was broken up into 3 age groups: 7-u10; 10-u13 and 13-u18, with a great number of youth entering (14 entries) and having a go at handling.

## 7 - u10:

1st - Lucas Carroll  
2nd - Zachary Bland

## 10 - u13:

1st - Stephanie Jones  
2nd - Jacinta Ens  
3rd - Amber Phillis  
4th - Alyssa Gregory  
5th - Baylie Mercer

## 13 - u18:

1st - Trinity Jones  
2nd - Brooke Holloway  
3rd - Jes Mase  
4th - Megan King  
5th - Jordan Gregory  
6th - Estelle McDonald  
7th - Ben Bland

It is great to see so many of our youth getting involved in handling and the breed as a whole.

Thank you to all of the youth of the Australian GSD community for making the future of the German Shepherd Dog in Australia secure.

Trinity Jones

Brooke Holloway

Jes Mase

Zach Bland

Lucas Carroll

Jacinta Ens

# SPECIAL RECOGNITION AWARDS

In July 2010 PD Rumble was purchased from Queensland. He was sourced by Vendo Vincent who helps supply WA Police with quality dogs. Rumble commenced on a WA Canine Operations General Purpose Dog Course in July 2010, along with his new handler Senior Constable Muletta. Rumble completed this course in September 2010 and was deployed to the Western Australian Metro region (Perth).

Rumble has tracked and apprehended numerous offenders for a wide range of offences including Stealing offences through to apprehending offenders wanted for Armed Robbery. Rumble also attended numerous Public Order, Crowd Control and Disorder incidents.

Rumble also attended schools, daycare centres and community events promoting the WA Police. He featured in an episode of "The Force" capturing one of his first arrests on the road.

On the 19th of July 2011 Rumble assisted two Police Officers, including his handler at an address in Kenwick. Officers had been called to the address and whilst there had been mobbed by a large crowd of people at the residence. They requested urgent back up with PD Rumble and myself attending the address. PD Rumble was deployed and was used to keep the crowd back with fellow officers behind us and being protected by PD Rumble as the crowd became violent towards Police and had armed themselves with weapons.

As we awaited further back up persons at the address have released two pit bulls from the rear of the residence and PD Rumble has taken these dogs on protecting the two Police Officers and his handler. The dogs violently mauled PD Rumble with Police Firearms being discharged to save PD Rumble's life.

PD Rumble suffered severe puncture wounds to his neck and front legs. PD Rumble required numerous surgeries to repair muscles torn from the bone in his front leg. He required 14 weeks off the road to recover from his injuries.

Rumble's efforts on the night prevented any serious or fatal injuries to police officers.

In the first week of returning to duty on the 4th of November 2011, PD Rumble apprehended two males for Robbery. The males had pulled a knife on a member of the public taking money out of an ATM. The offenders had taken off on foot with attending units cordoning off the area for PD Rumbles arrival.

Rumble was deployed and located a scent into a Primary School and located the two males hiding within. Both males were charged and put before the courts and found guilty of Robbery.

There have also been other numerous instances where Rumble has apprehended violent and unpredictable offenders, which if not for Rumble could have resulted in serious injury to Rumbles handler and/or other police officers attending these incidents.

## NOTABLE OCCURRENCES

### 5th October 2015

Multiple Armed Robbery Offences: Apprehension of the "Porsche Kid" who was wanted on a crime spree over a week in the Perth area. He was wanted on multiple Armed Robbery offences, Stealing with violence, Stealing Motor Vehicles and Pursuits. Officers had cornered the offender into a bush area and called in PD Rumble. Rumble was deployed and located a scent into the bush area. With the offender sighting the Dog Team approaching he immediately came out of his concealment and gave up to the dog team without incident.

### 2nd September 2015

Abduction/Assault/Firearms: A male was abducted from a vehicle in the early hours of the morning in Mandurah. He was taken at gun point by two males wearing balaclavas. Dog Team attended the scene with PD Rumble deployed and locating a scent and track into bush area. After approx. 750 metres he located the abducted male under a tree semi-conscious with severe facial injuries after being beaten by the butts of the firearms. Back up attended and assisted in getting the victim medical assistance.

### 22nd August 2015

Prison Escapee: A forklift has rammed through gates at the Rangeview Prison with 4 prisoners taking off on foot dressed in prison greens. A Hot Burg at 29 Bainton Road in Leeming was called through soon after. The Escapees have broken into the residence stealing clothing and dumping their prison greens. They have stolen numerous items with the home owner coming home and locating the Escapees in the house who have threatened the victim and his family before taking off on foot. Dog Team attended the last sighting and deployed Police Dog Rumble who located a scent and tracked to number 25 Heatherlea Pkwy and indicated the Escapee nearby by barking. All Police vehicles immediately cordoned the area and locked it down. The dog team was unable to enter the yard and flagged down Gang Crime Detectives who entered the rear yard and located the Escapee and took him into custody.

### 21st of July 2015

Commercial Burglary: 3 males on a secure building site with scarves on their faces and carrying torches are being captured on CCTV. Offenders have bags on their shoulders inside the secure compound. Dog Team attended and deployed Police Dog Rumble into the business through a hole in the fence. He immediately picked up a scent heading in a southerly direction through the business and onto Forsyth Street through another hole in the fence. Rumble tracked over a kilometre to a cul-de-sac on Mooney Place where he indicated to a bush area by barking. The handler issued a challenge with the offender coming out of his concealment under the bushes.

### 15th of July 2015

Vehicle pursuit: Police have pursued a vehicle that has failed to stop. Vehicle has taken a bush track near the Port Kennedy Golf Course into the sands dunes with pursuing Police vehicles unable to continue. Vehicle has been located dumped with the Dog Team attending the scene. Police Dog Rumble deployed and has located a scent and tracked through the sand dunes and into residential streets. Rumble tracked east bound onto Dunns Way and has indicated the offender in the street. He tracked to the front of 12 Dunns Way and started barking at a boat in the front yard. Handler has issued a challenge with the offender located concealed under the boats trailer. The offender complied with the handler and was taken into custody.

### 11th of July 2015

Burglary: Caller has interrupted a male who has broken her front gate and entered her courtyard. The male has run off with local Police conducting patrols in the area. Business premises has been broken into nearby after further inquiries. Police sighted a male around 133 South Terrace, South Fremantle matching the description of the offender. They have cordoned the area as the offender has taken off on foot. Dog Team attended the scene and deployed Police Dog Rumble who conducted yard searches of the area and after a short time located the offender concealed in the front yard of 141 South Terrace.

### 22nd of May 2015

Burglary: Two males smashed the window of the Telstra shop situated on High Street, Fremantle. The two males made off on foot. Dog Team attended and deployed Police Dog Rumble who located a scent and tracked to 28 Holdsworth Street locating a male concealed in the front yard. Dog Team also located a discarded black backpack. The backpack contained 10 mobile phones and one tablet. Some of the phones were still in their display cradles from Telstra shop. Second offender was located by the local Police.

### 21st of April 2015

Aggravated Burglary: Caller states that she can hear what sounds like someone trying to break into her house. The caller is "96" years of age. Dog team arrived at scene with local Police and heard a banging noise from the rear of the property. Police Dog Rumble deployed down a laneway and covered the rear of the property which backs onto South Street. Rumble has indicated the offender nearby with the offender attempting to jump over

the back fence were Police Dog Rumble has attempted to apprehend him. The offender has retreated and jumped onto the roof and made off on foot where he has jumped off the roof and hidden out of view. Police Dog Rumble re-deployed into the rear yard of 12 Park Lane where he has located a scent and pulled to the back corner of the property. The offender has been located by Rumble concealed next to the fence. The offender had a large quantity of jewellery, cash and other items stolen from the victims address.

Above are significant arrests Rumble has been involved in during the last 6 months, he has many other notable achievements that have occurred during this period and also extend past this period and he epitomises the working ability of the GSD. During his service he was involved in 620 arrests and in over 200 of those Rumble single-handedly tracked and located the offenders.

On the 10th of October 2015 after working night shift PD Rumble was rushed to the Murdoch Veterinary Hospital for a twisted stomach. He suffered further complications including Meningitis, Pneumonia and Myasthenia Gravis. He lost his battle for life on the 2nd of November 2015 and was cremated and returned home to his partner Senior Constable Mathew MULETTA and his family. Rumble made an exceptional contribution to policing in Western Australia and keeping the community safe. You could say he was loved by the public and loathed by the crooks.

### **The German Shepherd Dog Council of Australia is pleased to present a Special Recognition Award to Buddy, a German Shepherd Dog injured as he protected his home and owners from burglars.**

In February 2016, Buddy was hailed a hero after he was stabbed trying to stop people breaking into his home in Darwin. Buddy is owned by Mobin Pour Nowrouz.

Buddy was 7 months old at the time when a group of 5 youths attempted to break in as his owners slept. Mobin Pour Nowrouz and his pregnant partner Yuni were asleep in their home when the incident happened.

Household members found Buddy in a pool of blood sometime after the attempted break-in. Buddy had been stabbed in one of his back legs.

Vets indicated the blade cut through Buddy's tendons and muscle to the bone.

Buddy's owner recognises how lucky they were to have Buddy protecting them, as the outcome could have been much worse.

Buddy is a loyal and loving dog, who rarely leaves his owners side, for which they are very thankful.

*Owners Mobin Pour Nowrouz and Yuni Lay comfort Buddy after his surgery at Parap Veterinary Hospital. Picture: Elise Derwin.*

# RETIRING AT 2016 NATIONAL

**CH SCHNEEBERG  
FIRE STORM  
ET AZ BSCL I**

Born: 1 September 2007

Sire: Scheer Jose Cuervo

Dam: Ch Schneeberg Pure Charm

Bred by: Schneeberg Kennels

Owned, trained and very much  
loved by Teresa, Andrew and  
Ava Mills.

Kujo as he is known to his friends was Teresa and Andrew's introduction into the show scene and he has had a very successful career spanning over 8 years.

Kujo has had a wonderful show career and always consistently placed highly at specialty shows. Kujo has won many specialty classes in show and also Best in Specialty shows throughout all Australia.

Some of Kujos accolades include winning 1st Intermediate dog at the 2009 Queensland National, placing 8th Open Dog at the 2010 National, followed by 4th Open Dog at the 2011 National. Kujo has won Best in Specialty Shows at the Western Australia West Coast Challenge in 2009 and in 2012 at the GSDC Tasmania, and numerous other NSW specialty shows, always receiving the highest gradings available. He has been graded excellent in excess of 50 times.

Kujo has been awarded NSW Seiger in 2011 and Reserve Seiger in 2012, 2013 and 2014 and graded Excellent Merit 6 times.

Kujo has gone on to produce lovely progeny from limited studs who are sire typical and those progeny are now themselves producing.

His owners wish to thank Kujos handlers who throughout his show career have included Jessica Kada, Angela Sneddon, Kurt Morton and most recently Ray Mercer. Also a big thank you to Jean Butterfield, Gayle, Ray and Baylie Mercer who looked after and loved Kujo for almost 12 months whilst he was standing at stud in South Australia.

Kujo, on your retirement we wish you all the very best and for many happy years relaxing on the lounge, sharing Teresa and Andrews bed and being the best friend of Ava Mills.

# SHEEP HERDING AT THE NATIONAL 2016

Well, where do I start, just as well there are photographs, as a picture tells a thousand words. A big thank you to our judges over the 2 days, John Mitchell from Queensland on Friday, with Karin Finlayson in reserve, and Sue Fedoryschyn teaming up with John on Saturday.

Good Friday dawned the coolest it had been in a long while, ideal conditions for our dogs to work in and work they did. Before the GSD speciality trial started, we had 23 dogs entered and finished up with 35 in total, and on the following day, entries were 25 but by the afternoon such was the interest by GSD owners, we had 44 entries. All in all a huge success in more ways than one, as a number of persons who entered their dogs, asked where they could find sheep herding and trainers in their own states, if only one takes up herding then it was an immensely successful venture.

GSD owners from all States and Territories took a break from showing and strolled across to take advantage of testing their dog's instinct as herding dogs, with 100% qualifying and receiving their ribbon and Herding Instinct Certificate. It was great to see German Imports competing as well, National Gold Medal winner, Ustinov vom RömerlandV A and Toby vom Plassenburg, the 2015 National Gold Medal winner, receiving their Herding Instinct Certificates and Turbo vom Casselswald gaining his 1st pass in Pre Trial.

## Review by John Mitchell, Herding Judge.

Firstly I would like to thank the German Shepherd Dog League of NSW for the opportunity to

judge, it was an appointment I was very excited to take up. The opportunity to assess and watch so many German Shepherds was a temptation that could not be refused, as there is no greater beauty than to watch a GSD moving freely on a paddock working sheep in the manner they were intended for.

On the first day of judging, I was very pleased to judge a fine GSD, working C Course, in a manner that befits the breed. Both handler, Melissa Turoczy and dog, Glenbala Regal Venus ET HSAs HICs are to be commended for their achievements. Many, many hours of patient training went into two well executed performances over the two days.

I was also honoured to have had the chance to assess many fine GSD's for Instinct. There was so much potential displayed by a majority of dogs and I sincerely hope that many will return to their home States and pursue this discipline further.

I'd like to thank the committee responsible for making this herding event a great success. Even though there were not a lot of test dogs, the number of Dogs showing promise was extremely encouraging. I would also like to personally pass on my thanks to Nev Kirkham and his wife for looking after me over the weekend. They worked tirelessly behind the scenes along with all the

committee members. Thank you! The herding committee of the GSDL did an AWESOME job!

I now look forward to seeing the herding entry in Brisbane in 2017!!!!

Thank you

## Danielle Atkin. A non-competitor and steward's view of the Trial.

I was fortunate enough to have the immense pleasure, of being a volunteer steward at the herding trials and herding instinct tests of the 2016 GSDL Easter Trial. I must say, it was a thing of pure beauty to see the GSDs demonstrating their inherent abilities. Working the sheep on a long lead, as permitted for the instinct tests, each of the participating dogs demonstrated their ability. Seeing the wonderful communication and bond between the dogs and their owners as they proved, time and again, that our wonderful breed still retains all of those somewhat forgotten, and perhaps neglected in our modern world, abilities. I cannot thank the organisers, (Rachel, Nev, Alan and Eduardo) enough for their dedication and diligence in making the herding trials the success they were, and Pat Smith for ensuring this event was included alongside the National. I have no doubt we will be seeing more GSDs working a flock on the grazes in the future.

## Melissa Turoczy, a competitor's viewpoint.

I have shown dogs my whole life and was introduced to herding 3 years ago. I took my 2 years old German Shepherd Bitch Glenbala Regal Venus ET HSAs HIC, Excellent Graded to herding one weekend to see what the big fuss was about. I must admit we both were hooked instantly. After a few weekends of training, we entered our first trial and obtained our instinct test. After three years Venus has obtained 5 titles across A & C courses and even won several High In Trial and Reserve High In Trials.

It is truly amazing watching how adaptive our breed is. Taking them straight from the show ring into the herding arena and allowing them to do what they were originally bred to do. There is nothing like watching a German Shepherd in a full extended gait tending sheep and containing them within a graze or road area.

I highly recommend anyone with a German Shepherd to give herding a try. Herding practice is operating every Saturday for C course at the Bill Spilstead Dog Complex for Canine Affairs at Orchard Hills NSW. It is a great way to mentally and physically stimulate your German Shepherd. Ideally before you start herding, your dog should come on command and stop on command. But be warned, herding is addictive

and highly rewarding for dog and owner.

**Mel Lloyd, another competitor's review.**

Fantastic set up at Orchard Hills.

A great judge, very helpful, pleasant and friendly. Very friendly and helpful assistants as well, from the stock man to the pencil pushers and great atmosphere from competitors. Thankyou to those who took photos (or videos) and posted them afterwards

On a personal note - very pleased with Freddie (Ch \*Vondoussa Queen AZ PT) her first ever run in Started A course - no training in ages and she made the mistake a lot of GSDs make on her outrun (as they are not a breed that naturally casts) but despite some messy work was very pleased with her completing every element and finishing the

course. She actually achieved a passing score despite NQing on her outrun so happy with the result and indicates (with training) some great results to come.

**Eduardo Monreal, stock handler extraordinaire on both days and Belgian Malinois owner.**

The late March sheep herding trial held at Dogs NSW Bill Spilstead Complex with the GSD National was a great addition to the 2016 Herding calendar. It was encouraging to see the level of interest it raised among exhibitors who showed up in good numbers to test their dogs with the sheep.

It was also the rightful scenario for some of the local Shepherds to show their team skills (some Belgian Shepherds included). A wonderful weekend full of activity of which sheep herding was a welcomed addition.

A personal highlight of the weekend was to witness Turbo v Casselswald and Pat Smith working on their PT Title for which they got a pass on Friday. Turbo is a very talented dog and demonstrated his skill on the job. I look forward to seeing him and Pat developing as a working team and achieving their full potential on the field.

In conclusion, for the success of these trials, thanks must go to 5 people who worked tirelessly throughout the two days, there were 3 GSDL members, Rachel Phillips, who incidentally never saw any of the action, apart from when she took in her own young bitch, Bhuachaille Renaissance and Jan Lawler's young bitch to attain their Herding Instinct Certificates; her father Alan Phillips, with Neville Kirkham and also 2 others, non-members, with no ties at all to the German Shepherd Dog League, Eduardo Monreal and his dog (a

Belgian Malinois, who incidentally competed the following day and did extremely well, qualifying with a high score in C Course), who were everywhere supplying their expertise in moving sheep around for our GSDs, and last but not least Danielle Atkin who stewarded for us on Saturday, when incidentally, assistance was also given from unknown persons who were competing in the All Breeds Trial on the day. Without these people, everything would have gone pear shaped. Would love to see more local and interstate GSD people become involved in this great sport and give a helping hand. Find out from your local GSD Club in your State whom to contact for sheep herding.

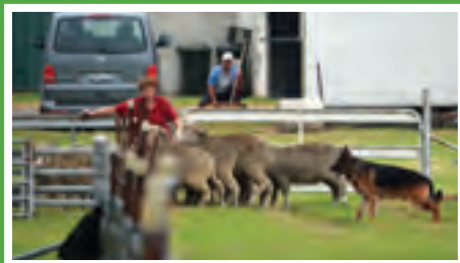

Unfortunately, at the time this is being written, the 23rd of April, the GSDL website does not have any results on their web pages.

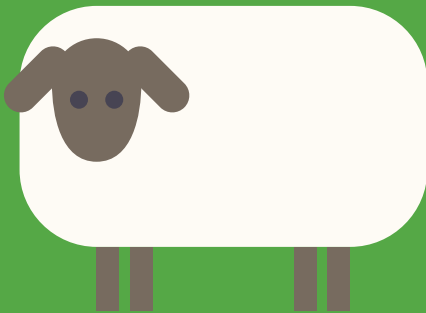

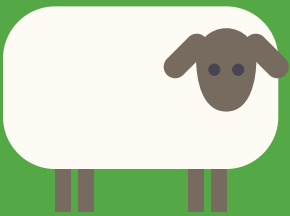

*Daniel McDonald and Narathor Jazz Beat AZ CDX, ET., competing in his Herding Test*

# 2016 OBEDIENCE AT THE NATIONAL

## OPEN OBEDIENCE

### Ms. M. Fazekas (NSW)

It was a pleasure to judge so many talented German Shepherds in my open ring. The class standard was very good and I was impressed not only by the performance and teamwork shown by all the entrants, but the level of consideration shown for the wellbeing of the dogs. Whether you gained a qualification on the day or not, this is no reflection on the high quality of the work I witnessed and is a credit to the hard work that has been put in. Five dogs were qualifying in the ring as we moved to the stay exercises, but unfortunately only two successfully completed these exercises. That's trialling for you....

Congratulations to all of you and I look forward to seeing you and your dogs in the future.

## COMMUNITY COMPANION DOG

### Tiki Friezer

It was a great honour to judge the CCD and Novice Class at the 44th German Shepherd Dog Show and Trial.

Thank you to the triallers who entered in the CCD and Novice rings – every one of you demonstrated teamwork, sportsmanship and great potential

It was a pleasure to judge you all and I wish you every success in the future

# 2016 NATIONAL GSD SHOW AND RESTRICTED TRIAL

# SIRES PROGENY SYDNEY

## 25TH, 26TH 27TH MARCH, 2016

The following report was prepared by the National Breed Commission (NBC) Executive, whose members are: GSDCA NBC Chairman: Joylene Neddermeyer, GSDCA President: Vince Tantaro, and GSDCA Judges Committee Chairman: Robyn Knuckey.

The hip, elbow and breed survey statistics were supplied by Joylene Neddermeyer from the GSDCA Database.

The Sires Progeny Class is an integral and important part of our National GSD Show and Trial. Its continued development and wider acceptance by the fraternity is a positive achievement for the Council. The value of the Sires Progeny at the National and the subsequent report as published for the fraternity cannot be understated.

The National Breed Commission Executive would like to thank all exhibitors for making their animals available for assessment in the Sires Progeny at this year's National.

The NBC Executive believe that the improved standard of the GSD in Australia is a direct result of the GSDCA Breed Improvement Schemes, and as a result the assessment of the Sires Progeny at Nationals ensures information and breed direction is offered back to breeders in order for them to consider and make informed decisions with regard to their breeding program.

In total eighteen groups were eligible but only thirteen groups were presented and assessed by the NBC Executive. Amazingly of the sires only two were locally bred with eleven being from imported sires. Five sires presented a group for the first time. It should be noted that nine of the thirteen sires presented carry the Quanto Wienerau bloodline, and four sires carry the Mutz Pelztierfarm bloodline.

As stated last year the NBC Executive felt that the overall quality of the groups was not as good as previous years and uniformity within the groups in some cases is not evident. The groups however of Toby Plassenburg, Xaro Plassenburg and Yester Feuermelder were very impressive with a number of high quality animals presented of the desired type and overall harmonious construction.

It is disappointing that the number of Australian bred animals being able to present a group has decreased with this year with only two locally bred sires: Orrinshir Elton John and Schaeferhund Xesko being able to present a group. Once again this confirms the NBC Executive's opinion that a number of Australian bred sires have not been seriously considered by the breeders and have been overlooked as having the ability to positively further add to the development of the breed in Australia. Again the NBC Executive would stress it is essential that we look at what we have in our own "backyard" before heading off on the unknown path of using the latest 'import'.

Breeders are urged to consider sons of all the sires presented and we would expect if utilised they will in turn also be able to add further to the breeding base by consolidating type. It is important that these locally very well bred dogs are not lost to the breed. We can only again repeat these dogs carry a high degree of predictability and are free of exaggeration and should be used in our breeding program to further cement type and overall soundness in the progeny.

The selection of a breeding partner plays an important part in any kennel's future success and there is a responsibility for breeders to consider the makeup of the pedigree of the resultant progeny and the genetic makeup of both the sire and dam lines within that pedigree.

While the NBC Executive over recent years have stressed the issues through the sires progeny and presentations at member clubs outlining the areas that need to be addressed in our breeding program, but at times it does seem that breeders are not taking this information into consideration when selecting a breeding partner. The NBC Executive feels that minimal, but more likely no improvement has been achieved in the following areas:-

### **Pronounced hindquarter angulation, instability of the hindquarter**

The issue of excessive and unstable hindquarter angulation was discussed at length at the GSDCA Breed Surveyors and Judges meeting held in Adelaide in July 2015. All breed surveyors and judges agreed that that this is a major issue and needs to be addressed however most importantly all breeders also need to be proactive in addressing this problem in their breeding program.

- While the issue of loose hock joints has been evident in numerous bloodlines here in Australia since the lifting of the importation ban, the increase of animals displaying an over-angulation and unstable hindquarter over recent years is disturbing.

The over-angulation of the hindquarter impedes the working capability and affects the endurance and versatility of the dog. It needs to be highlighted that this is not only a major problem for us as breeders but more importantly for the public that wish to buy a German Shepherd Dog as their family pet, which of course is the majority of the animals that we breed.

There are now a number of bloodlines currently being utilised within our breeding program that produce slightly deep to over-angulated hindquarters and it is imperative that we Surveyors take a uniform approach to deal with this issue and record before it is further ingrained within the breed.

### **Strength of dentition, incorrect scissor bite**

Since 2008 the NBC Executive has been mentioning the problem in regards to strength of dentition within our animals. Again the NBC Executive advises that this problem has not improved. After checking dentition at the 2016 National Show and Trial it is apparent that the number of incorrect scissor bites has increased. The issue of underdeveloped teeth has also not improved.

### Strength of upper and the lower jaws.

One can ask if the problem that we have with strength of dentition is directly related to the strength of upper and lower jaws. The overall structure of the skull and foreface is lacking and in my opinion is certainly not ideal.

### Short and deep in the lower chest – extreme tuck up;

The shortness of lower chest has been imbedded in our breed since the early 1990s. A number of animals both here and in Germany are now displaying not only a short lower chest but are also deep in lower chest proportions. (e.g. like a Greyhound, Great Dane or Doberman) I would suggest that this is one reason why in Germany that height and depth of chest measurements are being recorded at their shows. As per the GSD standard the depth of chest should be approximately 45% to 48% of the height of withers. A number of animals currently being presented to breed survey are displaying measurements greater than 48% and in cases are reaching 50%.

### Size, Set and carriage of ears;

Size, set and placement of ears is also an area of concern. In the current bloodlines in Germany and also of our locally bred dogs there is an issue with size, set and placement of ears. Linebreeding of these bloodlines will cement incorrect ear carriage into our breed for years to come. Incorrect ear carriage detracts from the overall expression of the GSD.

Breeders of the GSD have the responsibility to ensure that the animals we breed with have participated in and received classification in the GSDCA Breed Improvement Schemes: to do otherwise is directly against the aims and objectives of the GSDCA. We can only remind all that the work of many dedicated breeders following the ideals of the Council is the only reason why we continue to improve overall quality and type of the German Shepherd Dog in Australia.

We again thank the stud dog owners and exhibitors for their participation and supporting this most important element of the National.

### A summary of the individual groups according to bloodline follows:-.

#### QUANTO WIENERAU BLOODLINE

#### \*TOBY vd PLASSENBERG 'a' normal ED Normal (Gmy) SchH111

Sire: \*Wegas v Fichtenschlag 'a' ED (Gmy) – Dam: \*Grace de Cuatro Flores 'a' ED (Gmy)

Linebreeding: Hill Farbenspiel (4-3) Jango Furstenberg (5-4)

Sire not present

March 2016: = 424 puppies

SV Breed Worth =75

#### GSDCA Hip Dysplasia Control As at 30th December 2015

Progeny: 47 Dams: 34. Best 2, Worst 43, Mean Score: 7.49 0-5: 57%, 6-10: 32%, 11-20: 6%, 21-30: 0%. 31-40: 0% 41-50: 4%. 51+: 0%.

#### GSDCA Elbow Dysplasia Control Scheme as at 30th December 2015

Progeny: 47. Dams: 34. Normal; 85%. Near Normal 4.5% Grade One: 10.5%. Grade Two: 0%. Grade Three: 0%. UAP: 0%.

This is the fourth time that this sire has presented a group at a National GSD Show and Trial. The group consisted of six males and seven females. Five sons were exhibited in the Open Dog Class with Zandrac The Hard Way, Kuirau Casey Stoner and Vonpeta Ugottabekidding placed 6th 11th and 13th respectively. Another son, Schaeferhund Xesko also presented a progeny group in his own right. In addition another son won the Intermediate Dog Class. The NBC Executive are very pleased that this sire has been able to

produce a number of high quality males that should ensure the continuation of this bloodline into the future.

The group is large, medium strong, well coloured, well pigmented of very good type and proportions. The group is sire typical, of very good uniformity and very good definition of the sexes. High withers, firm back, slightly short and slightly steep croup. Good fore and very good hindquarter to slightly deep hindquarter angulation. Good head and expression with dark eyes, slightly large, slightly infirm ears. View from front is correct. Very good length of foreleg. Slightly deep chest proportions, where ideally the lower chest should be a little longer. Steps correct both front and rear with slightly loose elbows, slightly loose to very loose hock joints. Displays very good ground covering movement with strong hindquarter drive and free forehand reach, very good back transmission. Some care to be exercised in regards to the length of the lower chest, firmness of ears and hock joints.

The NBC Executive is pleased to see the further development of this group especially in regards to the number of very well constructed males that are sire typical. It should be noted that this well-bred sire has blended well with the lines of Kwint Juerikstall and therefore there is a very high degree of predictability. This sire should be considered to ensure consolidation of type and improvement in overall construction, colour and pigmentation. His progeny results through the GSDCA HD/ED Control Scheme are excellent with a low mean score for hips and a very high percentage of normal elbows.

Overall a very impressive group very worthy of the 2015 Gold medal winner and the NBC Executive congratulate the owners of this sire on presenting such a high quality group and contributing to the future development of the breed here in Australia.

#### \*GERRY vom SCHACHER 'a' normal ED Normal (Gmy) Hneg Sire: \*Arex von der Wilhelmsswarte 'a' ED (Gmy) – Dam: \*Zaskia v Schacher 'a' ED (Gmy)

No of ANKC registrations as at September 2015 = 288 puppies SV Breed Worth = 77

#### GSDCA Hip Dysplasia Control as at 30th December 2015

Progeny: 25 Dams: 17. Best 2, Worst 12, Mean Score: 5.28 0-5: 68%, 6-10: 28%, 11-20: 4%. 21-30: 0%. 31-40: 0% 41-50: 0%. 51+: 0%.

#### GSDCA Elbow Dysplasia Control Scheme as at 30th December 2015

Progeny: 25. Dams: 17. Normal; 88%, Near Normal 0%, Grade One: 12%. Grade Two: 0%. Grade Three: 0%. UAP: 0%,

This is the fourth time that this sire has presented a group at a National GSD Show and Trial. The group consisted of three males and two females. His progeny results through the GSDCA HD/ED Control Scheme are excellent with a low mean score for hips and a very high percentage of normal elbows.

The group is large, medium strong, of very good type, proportions and of good pigmentation. In some cases the bones should be slightly stronger for their size. High withers, firm back, slightly short and slightly steep croup, slightly high tail set. Good fore and very good hindquarter angulation. Good head and expression,

medium eye colour with good masking. Lower jaw should be slightly more developed. Very good length of foreleg. Balanced chest proportions, ideally the lower chest should be a little longer. View from front is correct. Good sequences of steps with slightly loose elbows and hock joints. Displays very good ground covering gait with balanced hindquarter drive and forehand reach. In some animals the ears should remain slightly firmer during movement. Slightly long tails which at times could be carried in a slightly more natural manner. Easy going good natured character.

Some care to be exercised in regards to the length of the lower chest, firmness of ears and overall bone strength. Again a sire that produces a high number of well-constructed males that are sire typical. His son Fremont Hells Bells won the silver medal at the 2015 and 2016 National Show and Trial and one would think that the breeders will consider this male as a suitable breeding partner in their future breeding plans. In addition two other sons were placed in the top twenty in the Open Dog Class and another son was the 2016 Silver Medal winner for long stock coat male. The NBC Executive looks forward to seeing a progeny group from the sons of Gerry Schacher being presented in the near future.

Congratulations, again a very pleasing group from a very successful sire.

#### **ORRINSHIR ELTON JOHN 'A' (1:2) 'Z' Normal (0:0)**

Sire: \*Sannjesa Crusty Demon 'A' 'Z'  
- Dam: \*Orrinshir Xcel 'A' 'Z'

*Linebreeding: Iwan Lechtal (3-4) 'S'  
Litter Bedwins Siegáro-Siegfreud (4-5)  
Sire deceased*

*4 males, 6 females*

*SC OD 26,27,33 MPD 10, OB 8,11,19:  
IB 23,34: JB 37:MPB 12,22,29*

*No of ANKC Registrations as at March 2016: = 500 puppies*

#### **GSDCA Hip Dysplasia Control**

#### **Scheme as at 30th December 2015**

Progeny: 77. Dams: 48. Best: 1.  
Worst: 49. Mean Score: 8.91. 0-5:  
43%. 6-10: 39%. 11-20: 8%. 21-30:  
5%. 31-40: 3%. 41-50: 3%. 51+: 0%.

#### **GSDCA Elbow Dysplasia Control Scheme as at 30th December 2015**

Progeny: 77. Dams: 48. Normal:  
78%. Near Normal 0%, Grade One:  
\*15.5%. Grade Two: 5%. Grade  
Three: 0% UAP \*2.5%.

This sire has presented numerous groups to the NBC Executive over recent years and it is pleasing that this locally bred sire has been given the opportunity to have an influence on the breed here in Australia. This sire is a true example of the producing ability of Australian bred males and a sire that has improved the overall construction and consolidated type particularly via his daughters. Again this sire has blended well with the lines of Kwint Juerkistall and therefore has consolidated type within his progeny.

The group stands within the desired standard of size, of medium strength, well coloured and well pigmented, of very good type and of slightly elongated body proportions. Very good length of neck, normal withers, firm back, with slight restrictions in the length and lay of the croup. Whilst the upper arm is of very good length it should be better angled, very good hindquarter angulation. Good head and expression, very good eye colour and very good masking. Very good length of foreleg. Some care needs to be exercised in regards to strength of bone and strength of lower jaw. While the ear placement is good, in some animals the ears are a little large. The lower chest should be a little longer. Stepping narrow at rear, with good firmness of hock joints and elbows. During movement very good ground covering gait with very good length of stride, powerful hindquarter drive but the forehand should be a little freer, very good back transmission and shows a joy in running.. In some cases the coat should be a little more profuse. Character firm and self assured.

The NBC Executive would like to take this opportunity to congratulate the breeders and owners of this sire on the contribution that he has made

to be breed. As this sire is now deceased it is unlikely that he will present another group at future Nationals.

#### **\*ODIN DELL TERRE MATILDICHE HD Near Normal (FCI) ED Normal (FCI) Hneg**

Sire: \*Furbo degli Achei 'a' ED (Gmy)  
- Dam \*Hella delle Terre Matildiche 'a'

*Line breeding : Ursus Batu (4-4)*

*Kimon Dan Alhedys Hoeve (5-4) Urk Wienerau (5-5)*

*Sire present and exhibited at the show OD 4 (Excellent)*

*4 males 9 females presented*

*Placing of progeny from Open to Baby Puppy Class*

*SC:OD 23: ID 2: PD1: OB 5,22: IB 1,5,22: JB 28: MPB 19, BPB 15,40*

*LSC:BDP 6:: OB 11,14: IB 4, Released from quarantine September 2012*

*No of ANKC Registrations as at March 2016 = 196 puppies*

#### **GSDCA Hip Dysplasia Control Scheme as at 30th December 2015**

Progeny: 18 Dams: 12, Best: 3,  
Worst: 52, Mean Score: 7.44 0-5:  
67%, 6-10: 28%, 11-20: 0%, 21-30  
0%, 31-40: 0%, 41-50: 0%, 51+: 6%,

#### **GSDCA Elbow Dysplasia Control Scheme as at 30th December 2015**

Progeny: 18, Dams: 12, Normal:  
100%, Near Normal 0%. Grade  
One: 0%, Grade Two: 0%, Grade  
Three: 0%, UAP 0%:

This is the third time that this sire has presented a group. The oldest progeny was exhibited in the Open Class. The progeny results though the GSDCA HD/ED Control Scheme are excellent.

The group is large to very large, medium strong, well coloured and well pigmented, sire typical and of overall very good type and proportions. Normal withers, firm back, slightly short and steep croup. The upper arm while of good length should be better angled, very good hindquarter to slightly deep hindquarter angulation, slightly

loose to loose hock joints. Very good length of foreleg. Balanced chest proportions. Steps correct in front, not quite correct at rear. Slightly long tails which at times could be carried in a slightly more natural manner. Stands correct in front. Very good forechest development. Slightly short lower chest. Good head and expression with very good masking of the skull and foreface with medium eye colour and good ear carriage. Ideally both the skull and foreface should be a little stronger and the lower jaw slightly more developed. Show very good ground covering movement with balanced hindquarter drive and forehand reach transmitted through a firm back.

When considering this sire as a suitable breeding partner it is imperative that the females stand within the desired standard of size and have correct hindquarter angulation, free from exaggeration with a very good lay of croup.

The NBC Executive were pleased to see the further development of the group with a number of very good animals presented within this group which included two class winners at the 2016 GSDCA National Show and Trial.

Congratulations, an overall pleasing group.

### GSDCA Hip Dysplasia Control Scheme as at 30th December 2015

Progeny: 15 Dams: 10, Best: 4, Worst: 12, Mean Score: 7.8 0-5: 27%, 6-10: 53%, 11-20: 20%, 21-30: 50%, 31-40: 2%, 41-50: 0%, 51+: 0%,

### GSDCA Elbow Dysplasia Control Scheme as at 30th December 2015

Progeny: 15, Dams: 10, Normal: 80%, Near Normal 0%. Grade One: 13%, Grade Two: 6.5%, Grade Three: 0%, UAP 0%:

This is the third time that this sire has presented a group at a GSD National Show and Trial. The group consisted of 5 females with the oldest progeny being exhibited in the Open Class and his daughter Leberhine Umeeko being awarded the Silver Medal.

The group is large, are sire typical, strong and of very good proportions, pigmentation and of overall type. Slightly short neck, high withers, firm back, slightly short and steep croup. The upper arm is of good length but should be slightly better angled. In some cases the shoulder blade is set slightly steep. Very good hindquarter angulation. Very good length of foreleg. Good head and expression with medium eye colour, very good ear carriage. In some cases the planes of the skull and foreface are not absolutely correct. The foreface and lower jaw should be slightly more developed. View from front correct. Good forechest development, slightly deep, slightly short lower chest formation. Steps correct both front and rear with firm hock joints and good firmness of elbows. Shows very good ground covering gait with strong hindquarter drive, the forehand reach should be freer, very good back transmission with very good firmness of ligamentation. Some care is to be exercised in regards to the length of the lower chest and eye colour. The females within the group are of very good brood type and again should cement these attributes in the future.

The NBC Executive were pleased with the further development of this group as they enter the open class, particularly pleasing is the overall strength and very good firmness of hock joints.

### GSDCA Hip Control Scheme as at December 2015

Progeny: 27. Dams: 16. Best: 2. Worst: 72. Mean Score: 11.11. 0-5: 48%, 6-10: 26%, 11-20: 15%, 21-30: 4% 31-40. 0% 41-50: 0%. 51+: 7%.

### GSDCA Elbow Dysplasia Control Scheme as at December 2015

Progeny: 27. Dams: 6 Normal: 83%. Near Normal 0%. Grade One: 9%. Grade Two: 5%. Grade Three: 0%. UAP: 3%

This is the second time that this sire has presented a group at a GSD National Show and Trial and while the group is smaller in number this year, the NBC Executive was pleased with the further development and improvement of the overall quality of the animals presented within the group.

The group is large, are medium strong, well coloured and well pigmented and of slightly elongated proportions, pigmentation and of overall very good type. Good length of neck, normal withers, firm back, slightly short croup. The upper arm should be longer and better angled. Very good hindquarter angulation. Very good length of foreleg. Good head and expression with medium eye colour, good masking. Both the foreface and the lower jaw should

be stronger. Very good size, set and placement of ears. Stands correct in front. Good forechest development, slightly short lower chest formation. Steps correct, slightly narrow front, correct at rear with firm hock joints. Shows very good ground covering gait with balanced hindquarter drive and forehand reach with good length of stride, very good back transmission with very good firmness of ligamentation. Self-assured and good natured character.

Congratulations on a pleasing group.

### No hip or elbow progeny results are available due to insufficient numbers as at 30th December 2015.

This is the first time that this sire has presented a group at a GSD National Show and Trial. The group consisted of 1 male and 5 females with the oldest progeny being entered in the intermediate Class. This is the first time that a son of Toby Plassenburg has presented a group for assessment to the NBC Executive.

The group is above medium size to large, are sire typical, medium strong and of very good proportions, pigmentation and of overall very good type. Very good length of neck, normal withers, firm back, slightly short and steep croup. Slight restrictions in the length and lay of the upper arm, very good

hindquarter angulation. Very good length of foreleg. Good head and expression with medium eye colour, very good ear carriage. In some cases the planes of the skull and foreface are not absolutely correct. The foreface and lower jaw should be slightly more developed. View from front correct. Good forechest development, slightly deep, slightly short lower chest formation. Steps correct in front, slightly narrow at rear with good firmness of hock joints and elbows. Shows very good ground covering gait with strong hindquarter drive, the forehand reach should be freer, very good back transmission with very good firmness of ligamentation. Some care is to be exercised in the strength of the foreface and lower jaw.

It is pleasing that this locally bred sire has been given the opportunity to have an influence on the breed here in Australia and the breeders are to be congratulated by recommending this young sire. The group is still young and are just entering the GSDCA Breed Survey Scheme and the NBC Executive will watch with interest the further development of this group

**No hip or elbow progeny results are available due to insufficient numbers as at 30th December 2015.**

This is the first time that this sire has presented a group at a GSD National Show and Trial. The group consisted of three male and twelve females with the oldest progeny being exhibited in the Intermediate Class.

The group is large to very large, are sire typical, medium strong, substantial, of very good proportions, pigmentation and of overall very good harmonious construction. Very good length of neck, withers, firm straight back, well moulded croup that in some cases could just be a fraction longer. The upper arm should be slightly longer and better angled with very good placement of the shoulder blade. Very good hindquarter angulation. Very good length of foreleg. Very good head and expression with dark eye colour and very good masking. Slightly large ears. Stand correct in front with balanced chest proportions. Very good forechest development, with good length of the lowerchest. Steps correct both front and rear with firm hock joints and good firmness of elbows. During movement shows very good ground covering gait with powerful hindquarter drive and free forehand reach with a very good length of stride and maintaining a firm topline with a very good desire to run.

It is pleasing to see this sire present a group of significant numbers with animals displaying very good uniformity, very good overall construction, balance and are free of exaggeration. One could expect a high degree of predictability when this using this sire and should be considered as a perspective breeding partner to consolidate type and balance of construction, colour and pigmentation.

The NBC Executive were very pleased that this sire has presented such a high quality group and will watch with interest the further development of the group as the animals enter the GSDCA HD/ED Control Scheme and the GSDCA Breed Survey Scheme.

Of particular note is the very good uniformity of the animals presented it is expected that that there is a very high degree of predictability when using this sire to consolidate type, overall construction, colour and pigmentation.

**GSDCA Hip Dysplasia Control Scheme as at 30th December 2015**

Progeny:54. Dams: 26. Best: 2. Worst: 90. Mean Score: 16.87. 0-5: 44%. 6-10: 24%. 11-20: 6%. 21-30: 11% 31-40. 4% 41-50: 0%. 51+: 11%.

**GSDCA Elbow Dysplasia Control Scheme as at 30th December 2015**

Progeny: 54. Dams: 26. Normal: 83%. Near Normal 0%. Grade One: 9%. Grade Two: 6%. Grade Three: 0%. UAP: 3%

This the third time that this sire has presented a group at a GSD National Show and Trial. The group consisted of two males and five females with all of the animals being presented in the Open Class.

The group is large to very large, are sire typical, strong, substantial, of good proportions, pigmentation and of overall good type. Slightly short neck, level to normal withers, firm back, slightly short and slightly steep croup. The upper arm should be slightly longer and better angled. Slightly deep hindquarter angulation. Good length of foreleg. Good head and expression with medium eye colour, slightly wide set ears. In some cases the skull is slightly domed. View from front not quite correct with slightly infirm pasterns. . Good forechest development, slightly deep, slightly short lower chest formation. Steps slightly narrow both front and rear with slightly loose elbows and slightly to very loose hock joints. Shows very good ground covering gait with balanced hindquarter drive and forehand reach, good back transmission and where the wither should remain higher during movement and the ligamentation over the back should remain firmer.

The group has decreased in numbers compared to previous years and his progeny are now being presented to the GSDCA Breed Survey Scheme for classification. While the progeny results through the GSDCA ED Control Scheme are very good, the progeny results through the GSDCA HD Control Scheme are disappointing with a higher than acceptable mean score. When selecting perspective breeding partners only animals with an excellent hip result, correct hindquarter angulation and correct German Shepherd character should be considered.

Congratulations – once again an overall pleasing group.

Progeny: 44. Dams: 29 Normal: 91%. Near Normal 0%. Grade One: 7%. Grade Two: 2%. Grade Three: 0%. UAP: 2%

This is the second time that this sire has presented a group at a GSD National Show and Trial. The group consists of 7 males and 7 females with the oldest progeny exhibited in the Open class.

The group is large to very large, are sire typical, very well coloured and pigmented, medium strong and of good proportions and of very good type with very good definition of the sexes. Some animals display slightly compact body proportions. Good length of neck, high withers, firm back, slightly short, slightly steep croup. In some cases the animals display a slight roach over the back. The upper arm is of good length but should be slightly better angled. Slightly forward placed shoulder. Very good hindquarter to slightly deep hindquarter angulation. Very good length of foreleg. Very good head and expression with the desired dark eye colour, very good masking. Slightly round eyes. Good

breadth of skull however both the foreface and the lower jaw should be stronger. Slightly large ears which should be slightly firmer during movement and in some cases are set slightly broad. Stands not quite correct in front with slightly open feet. Good forechest development, slightly deep, slightly short lower chest formation. Steps correct both front and rear where both the elbows and hock joints should be remain much firmer. Show very good ground covering gait with balanced hindquarter drive and forehand reach with good length of stride, and very good back transmission. Slightly long tails which at times could be carried in a slightly more natural manner.

The NBC Executive were pleased to see the further development of the group and it is pleasing to see this sire present a group with very good balance between males and females that are sire typical, of very good uniformity and type and will watch with interest the further development of this group as they enter the breed survey scheme.

Some care to be exercised in regards to the angulation of the hindquarter, ear carriage and strength of lower jaw and length of lower chest.

Congratulations once again on a pleasing group.

# BREEDERS GROUPS

## GSDCA NATIONAL 2016

The Breeders Groups class is one of the most important at the GSDCA National. Here the breeders need to present a very definite Kennel 'type' with absolute uniformity of type, colour, virtues and faults.

---

### KUIRAU KENNELS — 1ST PLACE

The Breeders Groups class is one of the most important at the GSDCA National. Here the breeders need to present a very definite Kennel 'type' with absolute uniformity of type, colour, virtues and faults. Ideally they will look like 'peas in a pod'. The group is to consist of 5 animals, a mixture of males and females, for maximum effect, from the older classes. It is difficult to get the required consistency, if animals are from the younger classes. To increase the difficulty and really show the kennel type, the more sires and dams involved the better. The maximum difficulty is 5 sires and 5 dams. The best group is not the one with the best individual animals, these may not look like each other at all, but the one with clear consistency and uniformity of type and overall appearance.

---

## VONPETA KENNELS—2ND PLACE

At the 2016 GSDCA National, hosted by the GSDL in NSW, there were two groups entered and presented on the day. These kennels were Kuirau from New South Wales, owned by Paul, Daphne and Jamie Murray. The other kennel was the 2015 GSDCA National Breeders Group winner Vonpeta from South Australia, owned by Peter Damarell and Jane Pike.

Both groups were very well presented, with obvious consideration on the deliberate positioning of animals within the groups to present the best picture. Well done to both breeders.

In first place was Kuirau Kennels, established in 1979, this is the first group presented by this well known and successful kennel from the Hunter Valley in NSW. The group was from 4 sires and 3 dams, with 2 males and 3 females. This was a very typey group with a clear consistency of established kennel type and of high quality animals, of which 3 were placed on the pegs during the National Show. The group presented were consistent in type, proportions, heads, dark eyes, angulations, movement and praiseworthy strength of hocks. There was a clear definition of sexes between males and females. There was a slight mix in the lay of the croup from good to slightly steep. It was noted the work that had been done leading up to this show in training these animals to be presented as a group and step out in a manner different from a show. The group was presented in a very professional manner and worked very well together. Congratulations on a very

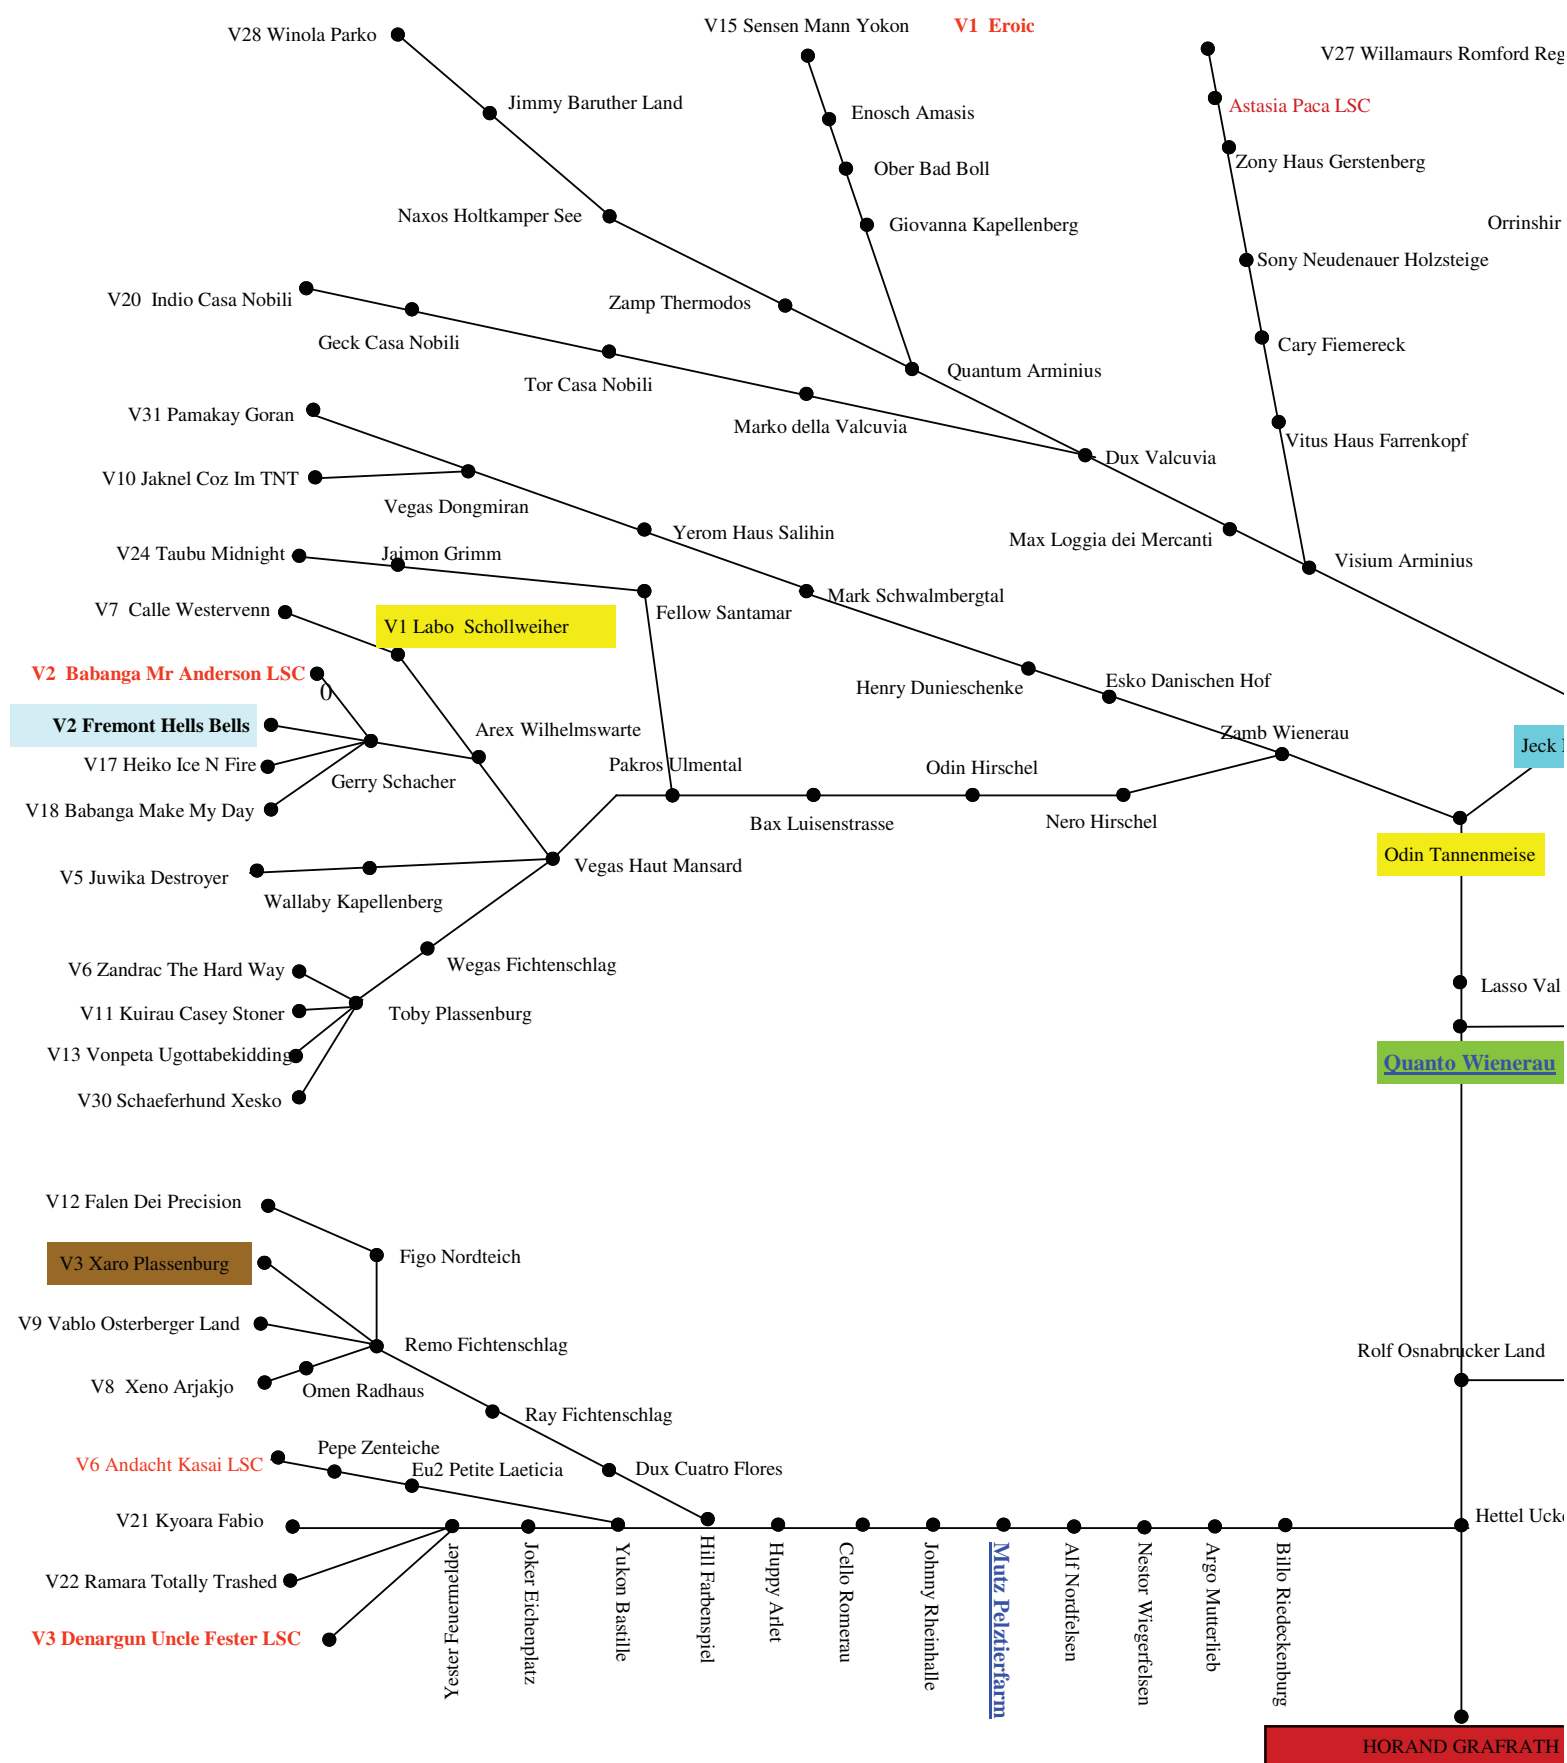

deserving win for this first time Breeders Group presentation at a GSDCA National.

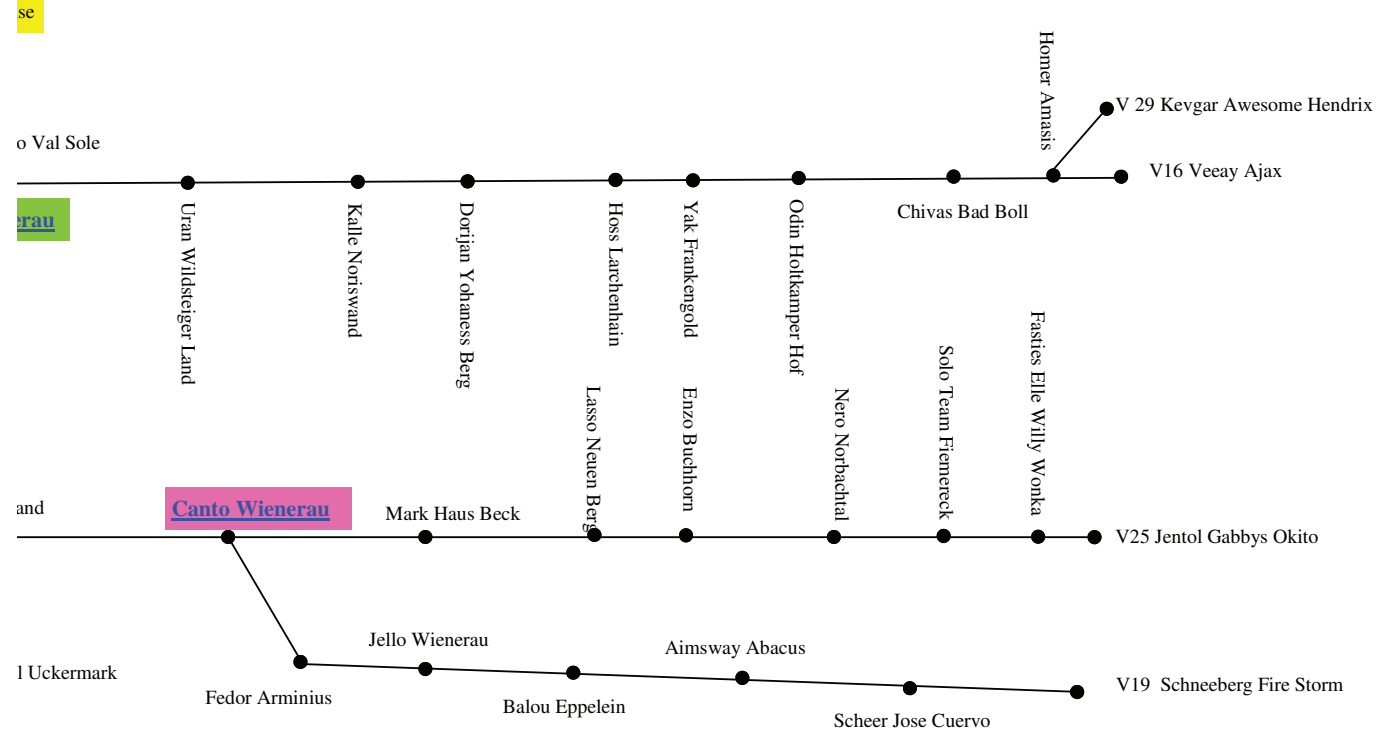

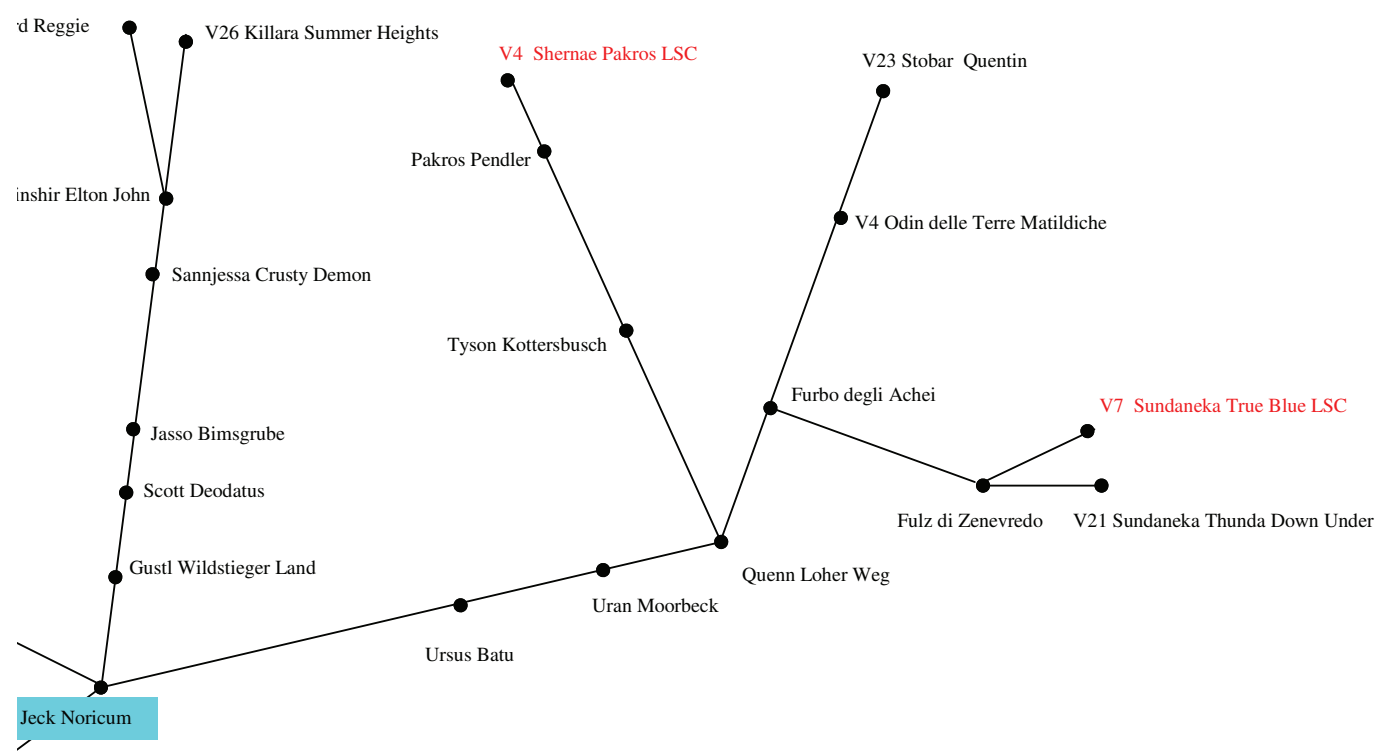

In second place was Vonpeta Kennels, established in 1973, this has been a very successful kennel over many years including owning and breeding a previous Gold Medal winner from the Adelaide Hills in South Australia. The group presented was from 4 sires and 5 dams with 3 males and 2 females. Again a group of very good consistency of type and very well presented with consideration to the overall picture of the 5 animals presented. This group was not as clear in the absolute consistency of the first placed group, but still presenting with a clear kennel type. The

group was consistent in overall type, strength, proportions and angulations. There was a mixture of presentation of withers, croups and stance in front. This is still a very competitive group and congratulations on presenting your second group at a GSDCA National.

I would like to encourage breeders to consider presenting a breeders group at future Nationals. There are breeders that would have enough animals exhibited in the National, but not think about it. It should be the pinnacle for breeders to do this, as to have an established kennel is the ultimate goal.

## FEMALE TAIL CHARTS 2015

# THANK YOU!

The GSDL of NSW Inc., would like to thank their members, and non members, who assisted in making the 44th National Show & Trial a success – our core National Committee who were there from the initial meeting until the very last meeting – Greg Jones, Fay Stokes, Ann Mackenzie, Pam & Terry Jarvis, Sharon & Bruce Laughlin and Kim McGregor.

We have some 51 people to recognise at a special evening which is being arranged to thank each and every one of them and there are far too many to try and name however special mention must be given to Jenny Kenworthy, for training and organising an amazing group of stewards and to the family of Bruce and Sharon who worked tirelessly in our canteen over the three days.

The League will be in touch with each of you with an invitation to a special “Thank You” evening.

### Notes:

All advertisers must forward FULL PAYMENT at the time of placing their advertisement. Advertisers are advised that where an animal is over 18 months of age it must have been successfully Breed Surveyed. Any imported animals with an overseas breed survey Classification will be permitted to be advertised for 6 months following their date of release from Australian Quarantine, after this time they must have obtained an Australian Breed Survey Classification.

If you require return of photos and a receipt, please provide a self addressed, stamped envelope.

The Trade practices Act 1974 came into force on 1st October 1974 and certain provisions of the Act relating to consumer protection place a heavy burden on advertisers, advertising agents and publishers of advertisements. In view of the difficulty of ensuring that advertisements submitted for publication comply with the Act, advertisers and advertising agents must ensure that the provisions of the Act are strictly complied with. In case of doubts advertisers are advised to seek legal advice.
