# PRESIDENT'S report

## *As I am writing this, winter has finally hit us in Melbourne with full force!*

Hard to believe three weeks ago we were basking in beautiful warm weather in Adelaide and enjoying the 46th GSDCA National GSD Dog Show & Trial. This event was hosted by the GSDC of South Australia and saw many from all over Australia and overseas exhibit, handle and or just marvel at the size of the event. One of our conformation judges commented to me that there are not many National / Seiger shows held by WUSV members around the world that have an entry close to 500! This fact should be noted especially in light of the distances our exhibitors do travel to ensure that this event continues to be the biggest single breed show to be held in Oceania and South East Asia. I again note the atmosphere, goodwill and sports like behaviour of all at this event - the fact that many celebrated the success of others, as in the past, is a highlight of this event.

I again thank John DeLucia, President GSDCSA and his committee for staging a most memorable event. I would also like to thank Dawn Fraser our Patron, and members of the GSDCA Executive who also contributed to the success of this event. This year saw an increase in the number of LSC variety of our breed and an excellent overall entry. Both conformation judges were indeed impressed with the quality of the LSC! In my opinion the introduction of the LSC variety has ensured the success of the National and Member Club Shows. I observed many younger members exhibiting at this year's event - I only trust you all found the experience as addictive as we 'oldies' did when we first started and are now hooked!

We now all look forward to the 47th GSDCA National GSD Dog Show & Trial that will be held on 5th, 6th & 7th April 2019 in Melbourne and hosted by the GSDC of Victoria.

This 'National' Edition is a snapshot of our breed at this point in time and therefore is a most useful tool for breeders and fanciers of our breed. The work and effort by Jacinta Poole as QNR Editor to see it produced so soon after the event must again be commended! Thank you Jacinta!

Some of my observations at this National were:

- **Dual Trophy:** it was indeed heartening to see nearly half the Obedience entry was made up of exhibits that competed in show & obedience at this event. As we are all aware the GSD is a working dog that has much utility and I encourage both conformation and obedience enthusiasts to pursue both disciplines.
- **Teeth:** It is important for owners to mouth their dogs from a young age and train them to sit and be mouthed by their handler - much time was wasted by uncooperative dogs and or handlers that were unable to show the judge the bite and both sides of the jaw. It must be noted that overseas judges rarely will mouth your dog so the onus is on you to train it.
- **Size:** There has been much talk about the size of our animals. It must be noted that at our last AGM, the membership decided to reaffirm its policy with regard to a maximum size to apply at our shows. The size allowed for an animal to be considered for a GSDCA Excellent grading is 2cm above the breed standard i.e 67cm for males & 62cm for females. Again, exhibitors must ensure their dogs are trained! They should not be called, must be relaxed, standing 4 square and not manipulated by their handler.
- **Double Handling:** In order to enhance a dog's performance we are allowed to double handle our dogs. This tool is not a replacement for doing the hard yards. Training your dog to ensure ultimate performance on the day is a must. The GSD is not a Cheetah. The desired movement of the breed is not that of break neck speeds, be it at walk or gait. The secret to double handling is the dog does

not know where you are, and not as we continue to observe: owners running 3 metres in front of the dog and then expecting that will enhance its performance.

- **Over angulation:** it was obvious at this National that over angulation of the hindquarter and instability of hind quarter movement was again prevalent. Despite us being more than aware of the problem as it has been highlighted again and again by the NBC Executive and notable peers of the breed, but it appears that in many breeders and exhibitor's eyes it is no longer a problem. We must continually remind ourselves that the GSD is not an exaggerated breed and that type, balance and harmony according to the breed standard must guide us when we breed.

It is indeed regrettable that Melanie Groth, NBC Chairperson has, due to health and work reasons, resigned just short of her first term. Melanie has been an integral member of the Executive and has contributed positively to the consideration of all matters and decisions as made during her tenure. I am happy and most appreciative that she has accepted the position of GSDCA Breed Survey Registrar.

I am happy to be contacted on any matter (phone) 0402 145 184

*Vince Tantara*

President

## VALE TIKI FRIEZER

*The German Shepherd Dog Council of Australia (GSDCA) was very saddened to hear that our dear friend Tiki Friezer passed away at a Tracking Trial on Sunday 27th May 2018.*

Tiki was an ANKC Obedience Judge and she loved attending the GSDCA National GSD Show & Trials and especially being invited to Judge the obedience at several Nationals in recent years. This also gave her the opportunity to catch up with her many friends and enjoy everyone's company.

The GSDCA President, Mr. Vince Tantara had the pleasure of presenting the GSDCA Service Award to Tiki at the 2016 National GSD Show & Trial and it is understood she was very proud to receive this award.

Tiki was loved and respected by all that knew her, and she will be sadly missed, especially by the GSDCA Obedience fraternity.

We extend our sincere condolences to Tiki's family and friends at this very sad time.

Rest in peace Tiki.

## Editorial

*It's a pleasure to present your 2018 National Show & Trial special edition Quarterly National Review. This expansive edition provides complete coverage of the 46th National. Included are all results and critiques from both the show and trial, major trophy and medal winners, Breeder Group, Sires Progeny, Junior Showmanship, images and GSDCA Service Awards. Plus much more !*

The GSD fraternity gathered en masse in Adelaide for the GSDCSA's hosting of the 46th National Show & Trial on behalf of the GSDCA. Everyone would agree the venue and set up was terrific and the South Australian Club did a great job running a very memorable event that they can be very proud of. It was enjoyed by all, spectators and exhibitors alike.

In order to prepare this edition's showcase, I am very thankful to SA Show Secretary Judy O'Laughlin who provided all the required information and results and critiques and Steve Collins for reports. Thanks to the NBC executive, led by Mel Groth for the comprehensive Sires Progeny Report, to Robyn Knuckey for the Breeders Group report, to Youth Officer Andrew O'Laughlin for the youth report and critiques, and also the trial results and critiques. Steve Collins has provided the Tail charts. Thankyou to Val Moody for providing the complete service award information and special thanks to Honey Gross Richardson, as she translated the very important SV judge's summations. The official photographers were Ingo and Caron-Lee Kahl and I am thankful to them for the provision of many of the exhibit photos used in this edition, along with extras. Thankyou also to exhibitors who have submitted their own preferred images of their animals. My thanks also to those who have advertised in this edition, one of our most widely circulated magazine editions, so great exposure.

Great sportsmanship was very evident in the rings throughout the show, from handlers in the first few places right to the end. Competition may be fierce, but the dogs do their best and it was great to continually witness the handshakes and hugs from owners and handlers to those finishing around them. Well done all, that's what its about !

The National means different things to different people, but it's a very important event for the GSDCA and our presentation to Police Dog Ruger for Outstanding Canine Service was again a highlight, recognising our breed for what they can achieve in working service. Ruger's achievements are detailed in this edition. We also recognised Jane Pike and Jo Seidl with Service Awards – important recognition of significant contribution to our fraternity.

Before signing off on this edition – Congratulations to two dogs on their exceptional performances. **Zicke vom Feuermelder**, who won her 3rd straight Gold medal in the SC Open Bitch Class. A rare Three-peat !! And to **Fremont Hells Bells**, who won the Bronze medal in the Open Dog Class, to go with his 3 previous Silver medals. A dog who has won the respect of all. Well done to both, a pleasure to witness, a highlight to remember.

The 2019 National will be hosted by Victoria, on April 5th, 6th and 7th and that time will come around soon so start your plans now.

Please enjoy our review of the 2018 National Show and Trial.

Cheers

*Jacinta*

## 'Thank You' From the GSDCSA

The GSDC of SA was host to the 46th GSDCA National Show and Trial held on the 27 – 29 April 2018 with a total entry of 445 which included a great entry of 31 obedience exhibits.

No event, especially one of this size and magnitude can ever be run without the help of volunteers and we were indeed blessed to have so many helpers, both members and non- members of our club. This included the huge task of setting up rings and equipment which was commenced on the Tuesday before the show to the Monday after the show. To the National Committee and to those who helped with the administration, set-up, canteen, bar, catering, cleaners, problem solvers and everyone in between, a huge 'thank you' as we would not have had this event without you. Thank you also to our major sponsor, MARS Petcare Australia makers of ADVANCE, to the Rottweiler Dog Club of SA for their help in the canteen and cooking breakfast daily and to the many of you who generously donated towards this event.

The Club also wishes to express our thanks to Mr V Tantaró who assisted in acquiring the services of Herr HP Schweimer when Herr Ludwig was unavailable, also for his looking after the judges and Dawn Fraser over the weekend and to Mr J Seidl who took the Judges sightseeing after the show.

We are very lucky in South Australia that we have our own grounds and have use of the grounds adjacent to our club for large events. I am sure that you would all agree, the grounds were magnificent and we thank Adelaide Shores for presenting the grounds in such an immaculate condition to us and the glorious weather was indeed a bonus.

Our Meet 'n Greet on Thursday was well attended as was the Breed Survey, that saw four animals presented and successfully classified. Unfortunately, the planned President's Dinner on Friday night was cancelled due to low numbers but the Saturday night Party Night made up for this with good numbers and great food and an enjoyable night was had by all.

The show then kicked off on the Friday and overall, ran smoothly over the three days. Unfortunately, we did run out of daylight on Friday and Saturday which meant that some classes needed to be run the following day. We also unfortunately had some technical issues and apologise for any inconvenience that this may have caused.

To our distinguished Judges and guests, SAPOL, GSDCA Executive and to one of our oldest living club members at 93 years of age, Myra Smith, thank you for making the event extra special and hope you enjoyed the event and in particular the Opening Ceremony.

Finally, congratulations to all Award recipients and winners and a big 'thank you' to the exhibitors for entering the National and making it an event to remember!

*John De Lucia*

President  
The German Shepherd Dog Club of SA Inc.

# INTRODUCING our judges

## Conformation Judges

**HERR HANS-PETER  
SCHWEIMER  
SV (GMY)**

### **LONG STOCK COAT BITCHES & DOGS, STOCK COAT DOGS**

Dear German Shepherd Dog friends in Australia,

After I had been able to address you in 2004 and 2013, I look forward again to the judges' work in your beautiful Australia. So that you can learn more about me, I describe to you once my career in the association for German Shepherd Dogs in a short form.

In 1976 I became a member of the Association for German Shepherd Dogs (SV). I then had a dog about 1 year old, which I brought with me from a holiday from Denmark. With this dog I started in the SV and made only normal dog sport in the performance range for about 8 years. I didn't have much in mind at the time with breeding and showing. This changed abruptly when I bought a new male puppy in 1984.

I was fortunate enough to acquire a puppy that significantly influenced my career in the SV. First of all, this new dog was just a nice puppy to me. With increasing age, this dog became more and more beautiful and it became increasingly more and more evident that this dog could probably become very

"big". He was the dog "Henning of Noort". He was evaluated at the Sieger Show in Hamburg in 1986 with SG3 in the JHKI and in the following years at the Sieger shows in 1987, 1988 and 1989 in the GHKL males he was 3 times V1 under the President Hermann Martin. Henning also reached VA in the countries of Denmark and Austria. He left a total of 1,064 descendants.

In 1988 I started to become an active SV breeder. My kennel "vom Nordlandzwinger" was registered in SV, but at the beginning only had small successes. The first self-bred dog with very good success was the female "Casha vom Nordlandzwinger", who gained a V15 at the Sieger show in 1997. The most famous dogs from my kennel were the males "Quiro" and "Quando vom Nordlandzwinger", Quando placing V10 at the 2000 Sieger show in Bremen. I achieved further good results with the males "Rudi van Noort" and "Quiro aus der neuen Hauffstraße", who was placed V13 in 1998 and V5 in 1999 at the Sieger shows.

As a public official in our national group (Hamburg/Schleswig-Holstein) I have been active since 1993. I was first called STV. Elected Chairman. During this time I also started the apprenticeship as a SV-breed judge and was appointed as a SV-breed judge three years later after successfully completing my apprenticeship in 1996. I was then elected Chairman of our national group in 1997. Since 2001 I have been confirmed as SV-Körmeister. I have so far judged in all continents and have 4 times judged Breed shows: 2006 JHKI-Females Oberhausen, 2008 GHKL-Females (TSB-decrease) Aachen, 2015 GHKL-Males (TSB-decrease) Nuremberg & 2016 JHKI-Females Nuremberg.

I invite you to come and see my homepage [www.nordlandzwinger.de](http://www.nordlandzwinger.de). At homepage [www.svlgl1.de](http://www.svlgl1.de) you can find out about SV-country group 1. In addition to my many other tasks, I am the webmaster and therefore responsible for both parts of the Internet presence. Many greetings to you all.

**HERR RAINER MAST SV  
(GMY)**

### **STOCK COAT BITCHES**

Herr Rainer Mast has been a member of the SV since 1974. From 1991 to 2004 he served on the board of the Württemberg State group.

In the year 2002 he was appointed SV-breeding judge. In August 2008 the appointment was made to SV-Körmeister.

In the year 1990, Herr Mast has re-registered the kennel name "vom Ermingerweg", which has been registered with SV since 1949. Herr Mast has judged on all continents in over 45 different WUSV countries. Among them were over 25 Sieger Shows.

In the year 2013 Rainer Mast was transferred by the SV Board of directors to the judging of the Junior female class on the Bundessieger Breed Show in Kassel.

# INTRODUCING our judges

## Junior Showmanship

**MR KURT MORTON (NSW)**

### GSDCA JUNIOR SHOWMANSHIP CLASSES

Kurt Morton was born into the German Shepherd Dog scene, where his parents began breeding in the 1980's. Collectively, he and his parents breed under the prefix of 'Vladimir' and are involved in breeding Stock Coat and Long Stock Coat German Shepherds.

Kurt's involvement started out at a young age participating in junior showmanship across all states of Australia in both all breeds and specialist arenas. Kurt has successfully handled across multiple groups and winning multiple Best In Shows.

Kurt has achieved many accolades in the 'dog scene', most notably lead in hand with "Annie." In 2005, Australian Supreme Champion Vladimir Anarchy E.T. "Annie" was born. To date, one of only a handful of Supreme titled German Shepherds to be a Best In Show winner in both All breeds and Specialty arenas. Other notable wins include a National class win, the 2011 QLD Siegerin & 2012 NSW Siegerin as well as a Sydney Royal Best In Group 3rd winner (still the highest placing a GSD has received in 15 years). Annie also produced 4 individual GSD National winners (for 6 individual wins & 4 Res CC) from 4 different litters, producing a total of 14 individual specialist GSD class winners and two medal winners.

In 2013, team Vladimir took out the GSDCA Breeders team at the National in Adelaide. An amazing achievement for such a fastidious kennel.

Currently, Kurt holds the position of GSDL (NSW) Youth Representative and is a current trainee group 5 Working dog conformation judge.

## Obedience Judges

**MRS DAWN HOWARD (VIC)**

### UTILITY DOG EXCELLENT & COMPANION DOG

From my earliest memories, I have been educated by my doggy friends. I have been trained by many German Shepherd Dogs. My family and I have competed in Conformation, Obedience, Tracking, Track and Search, Agility, Jumping, Games, Herding, Endurance and just playing with our dogs. Between us we have managed a few titles here and there. Most importantly we have had lots of fun on the way. I am an Obedience, Agility, Jumping, Tracking, Track and Search, Endurance and Rally-Obedience Judge, plus entry level retrieving. I have been privileged to judge extensively around Australia and in Asia and have made many good friends on the way.

My introduction to the dog world occurred when, with my first pay packet in hand, I bought my very own first dog. The breeder said the one I picked from the litter just had to be shown, and the bait was taken. Soon after I turned up at a dog club and the first person I met was Fran Farley, then (Osmotherly). We won't bother to mention how long ago that was, but it was the start of a very long friendship.

My husband, Peter and I are active competitors, and I have trialed multiple GSDs in obedience, four in UD and in UDX with my old German Shepherd girl Vixen, who lived and worked until she was over 13 years old.

Vixen had titles in 9 disciplines including Obedience, Agility, Jumping, Games, Herding, Tracking, Track and Search, Rally and Endurance. She won the Silver medal at a Sydney

National. She also worked in a paid position for the Government, teaching primary school children how to live safely with dogs. Vixen's progeny includes, three Dual Champions (T) TS Grand Ch's and her grandchildren are still doing very well. We have her Great granddaughter, Venice entered in the Open class this weekend.

As very small breeders, Peter and I are committed to the development of the total dog. Construction, soundness, temperament and working ability are equally important and we always breed within GSDCA guidelines.

It is a privilege to be asked to judge the GSDCA National, an event which is very important to me. Once a year we have a chance to bring the best in our country together to evaluate the attributes of our breed. Hence, I am well aware of the importance of Nationals being very special events that all specialist breed people aspire to participate in successfully.

Doing well at a "National" is what dreams are made of. A place on the pegs, an excellent grading or a pass in obedience at a National is really special.

If I am judging you, just remember, any little mistake you make, I have made as well. I am also a trialler. Please try not to let nerves get the better of you. You can rest assured, that I seriously want you to do your personal best.

**Good luck to all competitors.** May there be many qualifiers and PBs for the teams.

Remember in Obedience, every dog can potentially qualify and that is what really matters.

(The photo is of Vixen winning the UDX class at the Royal Melbourne Show, she was nearly 12 years old at the time).

# INTRODUCING our judges

## Obedience Judges

**MRS JAN BRABHAM (SA)**

**COMPANION DOG EXCELLENT**

German Shepherd dogs have played an important role in my life. My parents had a German Shepherd, "Pal", before I was born and I met my late husband, Roy, when he joined the GSDC of SA! When "Pal" died we went to a dog show and I won my first child handler prize. My parents gave me the choice of going to a private college or having a German Shepherd puppy – they couldn't afford both. Of course I chose the puppy! When they joined the GSD Club, as the dog was in my name, although a child, I also became a full member – no junior memberships back then! I virtually grew up involved in the German Shepherd Club. With my parents, we became heavily involved in all aspects of the Club – my Mum as Secretary, and my Dad was Vice-President for many years. We successfully bred many dogs to become show and obedience

Champions, including many Specialist Show Best Exhibit winners, under our "Palomine" Kennel prefix. Later I was a partner with Roy in "Balmead Kennels". The "Balmead Shield", awarded annually to the winner of the obedience team competition, was donated by Roy.

When Roy wanted to form the National German Shepherd Dog Council of Australia, I worked with him on that difficult project, and later assisted with the running of the First National Show and Trial in Sydney in 1967 and the original "National Review". I was officially Secretary of the Council for 5 years, at first under my maiden name of "Atkinson", until we both resigned, shortly before Roy's death.

I became a Panel Judge for Group 5 and also a full Obedience Panel Judge in 1964. At that time I was the youngest Panel Judge, and first female Obedience Judge in SA. Although I have judged both Obedience and Conformation in most States of Australia, acceptance of appointments has been restricted because of family and work commitments. I have had my Specialist German Shepherd Dog Licence for both Conformation and Obedience for several years and I am also an Examiner/Assessor for Group 5. I still enjoy being actively involved exhibiting dogs in conformation.

My love of the German Shepherd Dog and the improvement and future of the breed will always be important to me. The GSDCA has come such a long way from the humble beginnings, over 50 years ago, with many people giving so much of their time for the betterment of the breed. Let us hope that with people interested in the welfare of the breed, and not politics, that the Council will continue to grow and promote the German Shepherd breed for many more years.

**MR PETER DYNAN (SA)**

**UTILITY DOG & COMMUNITY  
COMPANION DOG**

Peter has been an ANKC licensed obedience judge since 1984. He has judged all over Australia and New Zealand and is a highly regarded and sought after judge.

The first dog he trained was a Doberman named Baron which he trained at SA Obedience Dog Club many years ago and he has only recently lost his "Honey" a Rhodesian Ridgeback. Peter has a close relationship with the GSDC of SA and feels privileged to be invited to judge at our prestigious National Show & Trial.

## Hans-Peter Schweimer

### *Judged all Long Stock Coat Classes and all Stock Coat Dog Classes*

Having been able to judge 3x in Australia in previous years, I was invited to the 46th National German Shepherd Dog Show in Adelaide this year as an SV Judge. First and foremost I would like to sincerely thank President Vince Tantaró for the trust that has been given to me in this very demanding task. The event took place in glorious weather from 27th to 29th April 2018.

Many thanks first of all to all the participating members and helping hands who, with their dedication, ensured that this event was excellently organized and could be carried out optimally. Personally, I was very enthused, and will also later on remember this event with pleasure.

Special thanks to all the helpers who were assigned to me personally in my rings and have performed the tasks with aplomb. They were all of great help to me, and made sure that we could work together smoothly during the course of the events.

For me personally, the invitation to judge the "National" was a great challenge. I have very gladly accepted this assignment and now, in hindsight, can say in summation, that it was a great pleasure for me to be able to judge and assess the classes assigned to me, that in part were of outstanding quality. In the top of all classes there were dogs of high standard, who presented themselves very convincingly.

Altogether there were 200 dogs entered in my classes. Of these exactly 100 Long Stock Coat dogs and bitches, and 100 Stock Coat dogs. Only a few registered entries did not face the competition, so we had a high number of exhibits.

Of course, as SV judge, I kept to the following basic requirements in my judging.

I paid special attention to the size, firm hocks and firmness of the pasterns. Apart from that, of course, the additional standard requirements were in the foreground. Correct anatomical overall construction, correct and not exaggerated angulations, straight fronts, as well as correct and even sequence of steps with good overall firmness were the basis for a high grading. Added to that were expression, condition and constitution.

No dogs were placed in the top of the class that exceeded the current size (standard +1 cm). Larger dogs (bitches > 61, males > 66) were placed in the midfield and significantly oversized dogs (more than 2 cm above the standard) were placed at the end of the classes.

With regard to the firm hock joints and the tight pasterns, I was pleased to find that very few dogs were affected by loose joints and soft pasterns.

Dogs that presented themselves with anatomy equal to the competition, with absolutely self assured nature, high spirited temperament, and obvious joy in running, had an advantage with me. They were dogs that from their outwards appearance, radiate an absolutely firm character, present themselves with great self assurance and are always oriented towards the front.

But I will also not fail to mention, that with further breeding use, it should be primarily seen to, that the angulation of the forehand (upper arm length and lay) should be more pronounced. In many dogs (also in the classes of stock coated bitches with my judging colleague Rainer Mast) there is something left to be desired in this respect.

Now I wish all exhibitors, breeders and owners of the dogs a lot of success for the future, as well as very good breeding results. I think that many dogs carry the necessary basis for successful breeding and heredity within them.

In conclusion let it be said: As SV-Judge, I found it extremely enjoyable, to work for you, and I would be pleased to accept a possible renewed appointment.

Best regards

*Hans-Peter Schweimer*

## Herr Rainer Mast

### *Judged all Stock Coat Bitch Classes*

The 46th GSDCA Siegerschau was conducted in Adelaide.

With an entry of over 450 animals entered, it was an outstanding event. Not many countries in our WUSV can offer such a good entry. I was engaged to judge all the bitch classes without the long stock coat classes. The entry number in the classes for my adjudication was 250 bitches. I was delighted with the incitation to judge this Siegerschau. For every judge, it is a highlight, to judge a National Show. For this my heartiest thanks to the president, Vince Tantaró.

I know, that without the numerous helpers in the background, such a major event would not be able to be conducted. Representative of all these helpers, I would most heartily like to thank John di Lucia and Steven Collins.

An excellent show ground and weather were among the prerequisites for this very well organised event. The ring team at my disposal performed excellently in their tasks, so that I could concentrate entirely on the judging of the; in part, numerically very large bitch classes. For this my thanks go to Mari Lowden, Leanne Irvine, Gail van Groen and Louisa Rodger. They saw to the at all times relaxed atmosphere in the ring and with the exhibitors.

For the numerous translations on these 3 days, also a heartfelt Dankeschön to Joylene Neddermeyer. Naturally my thanks also goes to the breeders and owners of the dogs, for the great number of dogs exhibited at this event. I would like to equally heartily thank the handlers for their fair and sportsmanlike behaviour in the Ring. There were battles for placing, but at all times fair, just as it should be. The effort that these sports enthusiasts expend, is impressive, and of course also associated with considerable costs, at these distances and long journeys to get to this event.

My intention was to be able to present a top group in all classes that finds acceptance and that my gradings and assessments are transparent. After the assessment of the anatomical requirements of our standard, I have given special attention to the following criteria:

- Self assured, natural appearance
- High spirited in temperament; natural onwads drive
- Correct head formation
- Dark eye
- Over-size has also flowed into the assessment.

The classes presented to me were of very good quality. The broad middle field extended all the way to the last places in all classes. Restrictions that I noted to a greater extent are the length and lay of the upper arm, as well as also many slightly short, steep croups. The size too should be taken into consideration for future matings.

In conclusion I would like to express my thanks to those responsible, for the hospitality and for being so well looked after.

I wish you all, for the future, all the conceivable best and success in breeding.

*Rainer Mast*

# JUNIOR showmanship

## National Junior Showmanship

### Judged by Mr. Kurt Morton

Firstly, what an honour and privilege to be asked to judge the Junior Showmanship classes at the 46th. My thanks to the SA club and the GSDCA for asking me to judge. It's clear we have a number of talented and skilled young handlers in Australia and wish to thank them for their entry and sportsmanship. Overall, what I found to be particularly impressive were the number of handlers that were spatially aware, listened carefully to instructions, were courteous to other handlers and control of the dogs presented. The high level of skill displayed in each of the classes was great, in particular the 13 to under 19 age class. Consequently, a number of difficult decisions were made as a result of minor differences between each handler. Well done to each and every one of you.

#### 7 to under 10 Years

##### 1. CIENNA ACCIARRESI – VERY SKILLED

Age: 8

Club: GSDCSA

Sienna showed very good rapport with her dog, with excellent control of the lead, excellent control and communication with her puppy and a great awareness of the judge for her age. Sienna presented the dog very well in stance and in movement and the dog was always on the correct side. A particularly impressive presentation of skill for one so young, well done.

##### 2. AYDEN JONES – VERY SKILLED

Age: 9

Club: GSDCV

Aiden showed very good rapport with his dog, very good control of the lead, with very good communication with the dog. Aiden was able to present the dog very well overall showing great skill in stance and movement. Very well done.

##### 3. LACHLAN COLE – VERY SKILLED

Age: 8

Club: GSDCSA

Lachlan had very good rapport with his dog and had very good control of the lead. Lachlan communicated well with his dog and was able to present the dog with great skill on the move and in stack very well. Well done Lachlan!

##### 4. KAIDEN ACCIARRESI – VERY SKILLED

Age: 7

Club: GSDCSA

Kaiden had very good rapport with his dog with good control of the lead. Kaiden was able to present the dog very well and ensured that at all times his puppy was enjoying the experience also. Well done Kaiden.

#### 10 to under 13 Years

##### BAYLIE MERCER – VERY SKILLED

Age: 12

Club: GSDCSA

Baylie showed excellent rapport with dog, very

good control of the lead, excellent control and communication with dog, very good awareness of judge with excellent awareness of the dog. Baylie made minor adjustments in both lead tension as well as small changes in stance to present her dog well. At all times, the dog was presented on the correct side with particularly impressive skill in presenting the dog in stance. At all times Bailey was able to work co-operatively with her dog and in doing so, showed significant skill. Congratulations and well done.

##### 2. ZACHARY BLAND – VERY SKILLED

Age: 11

Club: GSDL & GSDCV

Zack showed great rapport with his dog. He had a high degree of difficulty with a somewhat headstrong dog. However, overall did a great job. Zack showed great patience and control with the dog. He had very good awareness of the dog and judge and was able to present the dog very well overall. Zack showed a very consistent presentation, well done.

##### 3. LAURA MITCHELL – VERY SKILLED

Age: 11

Club: GSDCSA

Laura had very good rapport with her dog and overall showed great skills in the presentation of her dog. Laura had very good awareness of her dog and judge and was able to make minor adjustments in the stance to ensure her dog was well presented. A commendable performance, well done Laura.

#### 13 To under 19 Years

A highly competitive class with not very much between all the entrants. A pleasure to judge, albeit difficult.

# JUNIOR showmanship

## 1. TRINITY JONES – VERY SKILLED

Age: 17

Club: GSDCV

Overall, Trinity showed an excellent level of skill, control and ability. She had very good rapport with her dog and always had control of the lead and the dog was always in view. On the individual presentation Trinity was very patient when showing the dogs teeth and went at a pace on the out and back suitable for the size and age of the dog. In the group presentation she was conscious to identify the appropriate pace for her dog to move well amongst others. Trinity was particularly impressive with her use of tension and feel on the lead where she was able to adjust the length and angle to present the dog very well. Congratulations and well done on winning a very competitive class.

## 2. AMBER PHILLIS – VERY SKILLED

Age: 14

Club: GSDCSA

Amber did an excellent job of showing off her skills in a highly competitive class. She showed very good rapport with her dog and ensured that the dog was always presented on the correct side. On the individual presentation she was able to stack the dog very well and go at an appropriate pace for the out and back for the dog's age. In particular, Amber was conscious of the size and age of her puppy and appropriately encouraged her dog to keep up with older dogs in the class during the all phases of the presentation. In addition Amber ensured she was continually maintaining awareness of the judge at all times. An excellent display of skill. Well done.

## 3. DARCY CLARKE – VERY SKILLED

Age: 16

Club: GSDCSA

Darcy presented a very polished performance from start to finish. Darcy showed very good rapport with the dog and communicated well with the dog and his double handler. On the individual presentation Darcy was able to present the teeth skilfully and stack the dog well.

On the group out and back performance Darcy was patient with other handlers and ensured that he showed his dog off the best of his ability. During the walking exercise Darcy showed great skill in getting the dog to work at the end of the lead. Well done on a confident and highly skilled presentation.

## 4. STEPHANIE JONES – VERY SKILLED

Age: 13

Club: GSDCV

Stephanie showed great skill in a very competitive class particularly as one of the younger competitors. She showed excellent rapport with her dog and double handler and ensured at all times the dog was presented on the correct side. She was able to stack the dog very well and during the group performance Stephanie showed great skill working cohesively with the dog on the move. Well done.

## 5. BRODIE BONHAM – VERY SKILLED

Age: 17

Club: GSDCSA

Brodie showed excellent rapport with her dog. At all times she was able to maintain control of her dog and present her dog on the correct side. During the individual presentation she was able to skilfully stack her dog and present it very well on the out and back. During the group presentation she showed very good skill in presenting the dog through adjusting the length of the lead. Overall a very good presentation, well done.

## 6. ALEX LAWRENCE – VERY SKILLED

Age: 15

Club: GSDCSA

Alex presented a very skilled performance. She had very good rapport with her dog and very good control of the lead. During the individual presentation she was able to stack the dog well and on the out and back. During the group presentation again, she was able to present the dog well. At all times she was aware of the judge. Alex showed great perseverance with her dog and maintained her positive attitude and demeanour from beginning to end of the class. Well done.

## 7. BREE HANSEN - VERY SKILLED

Age: 17

Club: GSDCSA

Bree showed very good skill in both individual and group presentations. Overall a very skilled presentation, particularly with the individual presentation. At all times she ensured the dog was on the correct side and on the individual and group presentation presented the dog very well. Bree was able to ensure the dog worked well and ensured the dog maintained a gait consistently. Well done.

# JUNIOR showmanship

## Our Juniors

### Our Youth at the 2018 National

#### Andrew O'Laughlin, GSDCA Youth Officer Master Class

We continue to hold a Youth Master Class for handlers to learn from experienced handlers in conjunction with the National Show and Obedience Trial. This year a different format was tried with some success. The Master Handlers were Craig Rice, Bronson Pereira and Jess Lynch. Each Youth participant spent around 10-15 minutes with each Handler doing some individual work. This meant that each Youth was getting direct feedback on what they were doing well, what they could change immediately and other aspects that they can work on over time. What was really pleasing to see was how friendly and engaging all of the Master Handlers were – each giving praise to the wonderful Youth handlers that participated.

It was interesting to watch the Master Class as there were four handlers of different ages and different development in their handling journey. It was so pleasing to see the Masters engaged each handler on the level they needed – speaking with appropriate terminology for each level, appropriate instructions and appropriate voice tone the entire time. This is not something that comes about easily, and I would like to commend Craig, Bronson and Jess for this.

The Masterclass has become an important part of the National Show and Trial weekend and it really should be one of the highlights – particularly since it is on the first day. I would encourage everyone to be present for next year's Masterclass in Melbourne. You never know, even as an adult handler you might learn something from spectating! I'd also like to remind everyone that the Youth are the future of our Club's, the breed and this hobby we all love. If we do not support them, there will be no future.

### Youth Handlers Classes

What a fantastic competition this years National had between the Youth Handlers! It was incredible to see such a high level of ability across all of the age groups. It was also very pleasing to see a young adult judging the classes – well done Kurt Morton. The 7-10 age group saw 4 young handlers with 4 young animals. A particularly fun class to watch with the 'youth' animals leading our Youth Handlers around the ring! The 10-13 age group had 3 participants. This was another wonderful class to watch. It is always pleasing to see young handlers that have terrific rapport with animals and when they remain calm with difficult or headstrong animals. The 13-18 age group had 7 terrific handlers in it. What a tough job Kurt had in this class. This really was a top class to watch. The skill level in this class was extremely high. The future for handlers looks strong when you take a look at all 14 handlers that participated in the Youth Handlers Classes! Well done to everyone.

# OBEDIENCE trial classes

## Community Companion Dog (CCD) Class -

**Judge: Mr Peter Dynan (SA)**

Prior to providing feedback on the individual dogs I would like to take this opportunity to thank the GSDC of SA and also the GSDCA for the privilege of judging at the 46th GSDCA National Show and Trial.

I am of the opinion that the unseasonably warm and sunny weather impacted on all of the dog's performances.

# OBEDIENCE trial classes

## Open Class (CDX) -

Judge: Mrs Jan Brabham (SA)

Thank you to the German Shepherd Dog Club of SA Inc for the invitation to judge at the 46th National Show and Trial held in Adelaide. It was a privilege to judge the CDX section of the Trial. Special thank you to my two Stewards, Natalie and Bon, who did a great job. We were fortunate to have great weather and venue and although only three passes, all six competitors were of high standard and a pleasure to judge. I would like to wish them all the best in their future trials.

Breeder: Howard P & Mrs D

Exhibitor: Butler R

Critique: This dog and handler commenced working very well, losing only a few points in the heeling for slow response to commands, which was followed by a very good Stand for Examination. Unfortunately extra commands to sit at the commencement of Drop on Recall were followed by the dog not returning over the jump in the Retrieve Dumbbell over the Solid Jump. The handler asked to withdraw when the dog did not sit in the Distance Control. A good effort and best wishes with future trials.

Catalogue Number: 444  
Breeder: Archbold Mrs R  
Exhibitor: Skipper AG & Mrs R

*Critique: This bitch is one of the nicest working dogs I have had the pleasure to judge in UDX. She has lots of energy and a great bond with her handler. Seek back with decoy was perfectly executed. She heeled well, and found the correct article very quickly. Then checked the decoy, kept the correct one and continued back to the handler. Overall excellent work. Missed the sit position in the positions in motion, lost very few points otherwise. Very confident with scent discrimination, judges scent and send away. Missed both leathers. Other than the directed retrieve she only missed that one position. Excellent work and good handling.*

*Critique: 7.5 mths. Good medium size, good medium strong, good structure. High wither, straight backline, the croup is short and slightly sloping. Good front and very good rear angulation, deep chest proportions, straight front. The gait in front and behind is straight, shows good gait, should be a little bit more power in the drive and the forward reach should be a little bit freer.*

## JANE PIKE

*Joined the German Shepherd Dog Club of South Australia in October 1987.*

*Elected to the GSDCSA Committee in 2000.*

Elected as Honorary Treasurer 2002 and held the position for Ten (10) years.

Has served on Breed Affairs Sub-Committee for approximately eighteen (18) years.

Honorary Treasurer of German Shepherd Dog Council of Australia (GSDCA) since 2012 to present.

ANKC Group 5 Judge since 2006.

Completed the German Shepherd Dog Council of

Australia (GSDCA) Specialist Judge Extension course in 2009.

Awarded German Shepherd Dog Council of Australia (GSDCA) Breed Surveyor status in 2012.

Jane has been an integral part of the National Show Committee in Adelaide for the past fifteen (15) years.

Jane has also assisted other GSDCA affiliates with the organisation of National Shows and Trials, recently the Queensland National.

Jane has served on the organising committee of previous Main Breed Exhibitions held in Adelaide.

Jane works tirelessly behind the scenes on several levels:

- Updating of Club website;
- Assistant Show Manager;
- Conformation Training Co-ordinator.

## JOSEF SEIDL

*Josef (Joe) Seidl, joined the German Shepherd Dog Club of SA in 1981 following the purchase of a Pedigree GSD by the name of, \*Zandastein Asaboson 'A' CDX, AD, ET (Sabo) in 1980.*

Sabo was jointly trained by Joe and his daughter, Jenny in both obedience and conformation.

In the mid 1980's, Joe became an Obedience Instructor of the club and has been an active instructor for some 30 years.

Joe held the position of Branch Manager in 1993, 1994, 1996 and again in 2000.

In 1994, Joe approached (former) Senator John Quirke MP to become the Patron of the GSDC of SA, a position that John embraced and still holds and who's contribution and help to the Club has been invaluable.

Joe became a Tattoo Officer in 1997 and held the position for many years, then in 2000, held the position of State Tattoo Registrar.

In 1997, Joe was bestowed Life Membership of the German Shepherd Dog Club of SA in recognition of his service to the club.

In 1999 Joe became Grounds/Infrastructure Coordinator which is a position he held spanning more than 10 years and is the position he currently holds on Committee.

In 2003 Joe held the position of First Vice President with the portfolio of Obedience. He has also held the position of Trials Manager for the club.

Joe has been a valued contributor with the organisation and running of many Main Breed Exhibitions (MBE) and National shows. Joe of course speaks fluent German and has entertained many German judges that have attended judging appointments in South Australia, showing them the many and beautiful sights of this State, which has been greatly appreciated.

Joe is a qualified Obedience Judge (now retired) and a breeder under the Vomkogelberg Prefix. Joe is now 79 years of age – a valued member and tireless worker of the club, a friend to many and a fierce protector of the breed in this State.

# GSDCA service awards

## GSDCA Outstanding Canine Service Awards

### *Presentation of the "German Shepherd Dog Council of Australia Outstanding Canine Service Award" to: Police Dog "Ruger" and handler Senior Constable Craig Charles*

#### **Police Dog "Ruger"**

Born 13/11/2011  
Acquired from BROOKSVALE kennels.

Commence course on 8/10/2012  
Complete course on 15/2/2013

To date Ruger has been deployed on 791 occasions resulting in 115 persons being apprehended and charged with a combined total of 274 offences. He has also located property on 81 occasions to the value of \$43,000.

#### **Some memorable deployments are:**

23/2/13: TAPEROC: Rugers first operational deployment resulted in his first "win", finding a man hiding in the sand hills after committing a serious criminal trespass. 9/9/2016: GREENACRES: Ruger deployed after an armed hold up on pizza bar. Ruger tracked for about 500m to an address where he began barking. Numerous persons at address. Address searched and clothing, balaclava, and knife used in robbery located hidden in various spots.

13/7/2017: TATACHILLA Ruger deployed after a police pursuit of a stolen car ended in an olive grove on a rural property. Ruger tracked through vineyards, roads, and a quarry in very windy and rainy conditions for a distance of 2.5 – 3 km. Track ended at a culvert along Main South Rd where it is believed suspect was picked up. Along route of track, Ruger identified numerous items – balaclava, tools, and a jumper. These items were processed and a DNA match received. A male person was arrested for this offence. One of Rugers strengths is his scent discrimination ability.

16/7/17: QUEENSTOWN Ruger deployed after stolen vehicle located abandoned in a unit block. Ruger tracked from the drivers' door across Port Road to a nearby address and began barking at the front yard of a house. Several occupants of the house were persons of interest. Patrols separated persons on street and Ruger walked past all. Ignored all but one who he began barking at. This male had been located by patrols "asleep" in bed but sweating. Arrested for the stolen vehicle and pursuit.

Ruger has certainly had some ups during his career, but there has also been some downs. In September 2016 after a rigorous internal selection process, Ruger was one of two dogs selected to represent SAPOL at the Australasian Police Dog Trials in Melbourne in October. Unfortunately a week prior to the trials, after a sudden significant weight loss, Ruger was diagnosed with a serious bacterial lung infection. This resulted in his lungs filling with fluid and him "basically" drowning. The second day after he was admitted to the Trinity Gardens Adelaide Vet Hospital his

handler was advised to attend the hospital in preparation for Ruger to be put down.

Thanks to the awesome work by staff and the support by SAPOL management, Ruger fought through and after 14 days in hospital returned home. By the end of the month he was back to his favourite past time "catching criminals". He did however miss his opportunity at the Australasian Police Dog Trials. Ruger is easily identifiable by his trademark titanium canines.

## Breeders Group

*One group entered from Alimanda Kennels, from three sires and two dams. This group is represented by two males and three females, with the following placings in the GSDCA National Show and Trial - 17th Open Dog, 43rd Open Bitch, 10th Intermediate Dog, 6th Intermediate Bitch and 11th Intermediate Bitch.*

The group was a very similar type to each other in anatomical structure, but was somewhat spoilt by the variance in colour, with four black and golds and one sable. There was a clear differentiation between the sexes, with all animals presented having strong heads with praiseworthy ear placement, correct body proportions and overall substance. The necks could be longer, good withers and overall firm straight backs. Some variance in the length and lay of the croups noted. All animals stood correct in front. The angulation of the forequarter was good to very good and all had very good angle of the hindquarter. All of the animals had good ground coverage, and a willingness to run.

Congratulations to all involved in Alimanda Kennels, with Jean Butterfield and Ray and Gayle Mercer.

*Robyn Knuckey*  
GSDCA Judges Chair

Hello all, from your friends & family in Sunny Queensland, still beautiful one day, perfect the next but just a little chillier overnight & early in the morning, so pack a jacket when you come up for our DOUBLE HEADER Championship Show weekend – SATURDAY Judge Heather MacDonald UK and SUNDAY Melanie Groth (Schedules on our website & entries via Show Manager – well hopefully by the time you receive this they are.)

Several of our members were lucky enough to make the trip to the 46th National in SA – On that, congratulations GSDCSA on a successful National, the 45th is of course still fresh in our minds so we do appreciate how much work you all put in to make it the success it was.

Thanks to Gail Donald, we have the Qld successes listed below but before we do, special honour & congratulations must be given to the owners & trainers of the very beautiful Zicke v Feuermelder a ED (Imp Deu) CONGRATULATIONS - John & Pam Oar, Jurgen & Janet Haase - THREE GOLD MEDALS IN A ROW! WOW guys! What an achievement, what a beautiful girl.

Another special mention to congratulate an "honorary" Queenslander & his "Qld Family" ... The very lovely Xaro vd Plassenburg a ED Hneg (imp Deu) - placed 4th Open Dog and was as always, a credit to Les, Brenda & Peter Hersant - Congratulations

We also congratulate all of our members who came home with the fantastic results as listed below, we will share the glory of a couple of medals with owners from other states but a couple of class wins to members Kylie Zimmerle – Junior Dog & Lance & Helen Young with their huge win in Intermediate Bitch – Well done to all – Qld (including some shared) results below:-

Congratulations to all German Shepherds successfully exhibited at the 46th GSDCA National Show in Adelaide. Celebrating the success of our very own GSDC Club of Queensland Members:

### SC OPEN DOG:

2ND Excellent Macho v Lamorak a ED

Hneg(Imp DEU) - Oar/Donald/Green

14TH Excellent Conbhairean Karlos a ED (imp UK) - Hersant

15TH Excellent Rudy v Haus Edmond a ED (Imp DEU) - Thorp

18TH Excellent Abelara Majestic Prince (AI) A Z - Hurley

20TH Excellent Hasenway Montgomery (IID DEU) A Z – Oar

### SC OPEN BITCH:

1ST Excellent Zicke v Feuermelder a ED (Imp Deu) – Oar

18TH Excellent Vonehrlich Panya A Z – Young

19th Excellent Awesomeshep Brandy - Hersant

37TH Excellent Hasenway Magnolia (IID Deu) A Z – Oar

52ND Excellent Abelara Yakimo A Z – Hurley

### SC INTERMEDIATE DOG:

3RD Very Good Albata Nicco A Z – Alli

5TH Very Good Kaygarr Arko A Z – Williams

16TH Very Good Jaystryke Gold on Fire – Brandon/Brown

### SC INTERMEDIATE BITCH:

1ST Very Good Vonehrlich Sassi (AI) A Z – Young

5TH Very Good Karalcin Katana - Long

8TH Very Good Karalcin Harley Quinn - Long

9TH Very Good Astasia Darya A Z - Hersant

### SC JUNIOR DOG:

1ST Very Good Castastar Gringo A Z – Zimmerle

### SC JUNIOR BITCH:

15th Very Good Kelinpark Nutella - Gregor

### LSC JUNIOR DOG:

4TH Very Good Kelinpark Nachstes Leben - Gregor

### SC BABY PUPPY BITCH:

2ND Very Promising Kelinpark Old Gold – Gregor

7TH Very Promising Gewalt Party Like A Rockstar - Crozier

14TH Very Promising Karalcin Flirt – Hersant

23RD Very Promising Panskyli Bellissa - Hurley

### SC BABY PUPPY DOG:

2ND Very Promising Karalcin Flash – Hersant

### LSC BABY PUPPY DOG:

3RD Very Promising Eroica Ice Ice Baby – Williams

We have a few events coming up, Members Competitions – Brisbane June 9, Judge, Jo Cathie and a double header weekend in Zone 2 at the end of the month – Judges Louis Donald & Karen Hedberg. We are also looking forward to catching up with many of our regular visitors & hopefully some new ones, in

July – PLEASE SEE SCHEDULES on our website, we promise the weather will be perfect...

Again, congratulations to SA and exhibitors for a wonderful 46th National – keep the vibe going and come up for our Champ Shows!

Safe travels, see you in July & watch this space for updates in the next QR - & as always, remember what brought us all together in the first place. Our one common love – the German Shepherd Dog

E-Mail [faystokes@dodo.com](mailto:faystokes@dodo.com)

An exciting time of the year for our GSD enthusiasts with many activities and lots of training to get the dogs to their absolute ultimate to peak for the Nationals.

Our first event for the year was the Breed Survey on the 18th February with 1male and 5 females all being classified with 4 surveyors in attendance. The next survey is on Saturday 19th May, then 14th July and 22nd September. Dogs NSW Endurance Test is the 12th August, begin training and come along and have a go.

Our obedience numbers have increased due to the positive and supportive approach of Kathie Minton, Yvonne Spek and Tony Darcy. Tiki Friezer has been conducting Rally O training on a monthly basis.

The Mid North Coast Branch have worked hard training together to prepare their dogs for the National with a variety of strategies including sandhill runs and supporting each other to work as a team.

The club put on an extra show to help in preparing the dogs for the National. Our February twilight Members Competition which was well supported with around 100 dogs entered under Mrs Fay Stokes (NSW) and Mr Glen Gregory(NSW).

At Easter we were fortunate for the first time in Australia to have Frau Nancy Herms SV (Gmy) judging, who breeds under the kennel prefix 'vom Zellwaldrand'. The entry was pleasing

# NEWS FROM OUR member clubs

with 88 stock coat bitches, 45 stock coat dogs, 27 long stock coat bitches and 17 long stock coat males making a total of 177 in total.

Nancy was very considerate of the dogs in the heat and was well organised with time making it a very enjoyable show. Our obedience judge Mrs M Wheeler (NSW) had 14 entries. The show had a friendly atmosphere with interstate visitors. The Sunday was quite hot.

Then many of our members hit the road for the long trip to Adelaide, enthusiastic and well prepared. The grounds and accommodation always make it worth it and catching up with interstate exhibitors. Congratulations to the host club for all their work to make it a memorable National. NSW sure displayed the successful breeding that is going on here coming away with many firsts and medals. Congratulations to the GSDL members on their success at the 2018 GSDCA National GSD Show & Trial.

## **Congratulations to the following medal winners:**

**Gold Medal Open SC Dog** – \*Ch Sundaneka Young Gun AZ – bred by G&K Stevenson  
**Silver Medal Open SC Dog** – \*Macho vom Lamorak a ED (Imp Deu) – co-owned by M Groth

**Bronze Medal Open SC Dog** – \*Fremont Hells Bells AZ – co-owned by L. Lynch

**Silver Medal Open SC Bitch** – \*Ch. Durnstein Glitz N Glamour AZ – Fran McAdam

**Bronze Medal Open SC Bitch** – \*Andacht Gypsy Moth AZ – P & D Smith

**Silver Medal LSC Dog** – \*Ch Hillmagic Purple Haze AZ – E Bevk & R Koerber - bred by Pjones

**Silver Medal LSC Bitch** – \*Ch Eroica Duchess Of York AZ – co-owned by Cathy Shayler

**Bronze Medal LSC Bitch** – \*Ch Vladimir Insaisable AZ – bred by G&K Morton Challenges:

**SC Dog Challenge** \*Ch Sundaneka Young Gun and Reserve Challenge to \*Macho vom Lamorak

**SC Bitch Reserve Challenge** \*Ch Durnstein Glitz N Glamour

**LSC Bitch Challenge** \*Jacknell Ruby Tuesday and Reserve Challenge to Crytara Red Sox  
Congratulations to the following class winners:

**1st SC Baby Bitch** – Vladimir Nice N Naughty – bred by G&K Morton

**1st Baby bitch LSC** – Crytara What's The Catch – Yates family

**1st SC Minor Puppy Dog**– Sabaranburg Rolex – co-owned, J Cathie, L Lynch

**1st Minor Puppy Bitch LSC** – Lindenelm Fancy Tickled Pink – Chelsea Jane Bird

**1st SC Puppy Bitch**– Shardon Under My Spell – M&C Morris & D. Bryant

**1st Puppy Dog LSC** – Cinderhof Vandaal – R. Hornick

**1st SC Junior bitch** – Jaknell Love Bomb –

Jess Kada

**1st Junior bitch LSC** – Crytara Red Sox – Rachael Hornick

**1st SC Intermediate Dog** – \*Fremont Watson AZ – co-owned by S&P Morrissey

**1st Intermediate Bitch LSC** – \*Jaknell Ruby Tuesday AZ – Jess Kada

We now look forward to the June Show on 9th June where Mr Kurt Morton (NSW) is judging the Open Show, this is his first opportunity to judge. Mrs Jenny Delucia (SA) is judging the Sanction Show, her first appointment to judge in NSW. This will be a very interesting show with a good entry. State Breed Assessment is on the 18th & 19th August. The October Championship Show and Trial is on 13th & 14th October with Joylene Neddermeyer (SA) judging and Jessica Kada judging the Members Competition.

Our first promotional event this year was the German Shepherd breed stand at the Sydney Royal Easter Show on the final day with 3 dogs and 5 members with information available on the breed on what the club has to offer. It was very successful in answering questions from the public and giving guidance. As Dr Robert Zammit was in an officiating position at the show he called into the stand to say hi.

Paws in the Park was held on Sunday 6th May at Camden and was very successful exposing our breed and club to the general public. Thank you to the club and committee members for helping to set up and bringing their dogs down to socialise as this is an event where the public bring their dogs as well. An excellently run event and most enjoyable. The dogs were excellent ambassadors for the breed. Many queries about training and the GSDL, membership forms and information sheets were handed out. Photos of our dogs were also in the Camden Advertiser.

Our next promotion is Dogs on Show organised by Dogs NSW at their grounds on the 16th June which will be followed by Dog Lovers Show on the 4th and 5th August in the Hordern Pavilion. Both excellent opportunities to have our breed out among the public.

Congratulations for your achievements and wishing you all the best for future events.

Karen Stevenson

Our Club led by Bernie Lester, Lyn Pickering and Dom Cafari from Western again collected for the Royal Children's Hospital Good Friday Appeal back in April. This year we raised \$21,472, for a total of \$624,922 over the last 35 years. Outstanding. Thanks to our many club volunteers. We couldn't do without you, nor could the kids who benefit from your efforts.

Our recent State Breed Exhibition was a big success, with 114 show entries and even better, 56 entries in our trial – 34 in Obedience and 22 in Rally. Yay !! A big cheer to Caro Anderson and Volscair Akira who were our Dual Performance winners with 198 in Open obedience and 2nd of 17 in Open Bitch. Nice work from a great team. In the show ring, big smiles to our Excellent Merit LSC Open Dogs Karabach Night Force and Eroica Erotic Erik 😊. Jayshell Kenzie was Excellent Merit in Open Bitch SC. Our Open Dog winner was Jayshell Nebraska and LSC Open Bitch winner was Eroica Easy on the Eye.

Back in March we held our 99th Championship Show, with judge Malcolm Griffiths. Malcolm drew a great entry of 216 animals, and exhibitors weren't disappointed. A big thanks to all our interstate visitors too! A great weekend. Shows are going great guns here in Victoria, thanks to exhibitors for their support.

Of course we're all abuzz with news and results from the National Show & Trial – 'coz heaps of Vics did us proud, bringing home ribbons and silverware, and some great memories for every exhibitor 😊.

We can only mention a few, so let's begin with Baby Puppy Dog LSC winner Jayshell Rickodo and the Wisdom family. New to showing, but what a buzz for all !. Not to be outdone, breeders Nicky & Pat McDermott sent Kodo's brother Ricochet into the SC Baby Puppy Dog and he WON his class too! Wow.

# NEWS FROM OUR member clubs

The obedience rings featured lots of Vics, with great performances by Alastair & Yokon, Tania & Bracken winning their classes, and passes to Michelle & Bella and Stuart and Quentin. Lots of others did their best too!

Saturday was Finn's Day – Hannah & Jason Kelly's boy Karabach Night Force (Finn) WON the Intermediate Dog LSC Class late Saturday which produced a huge cheer from all. And there was none prouder than breeders John & Jeannette Carter. Happy Days 😊 Just as happy was Stobar Elouise and her owner Shaun Schembri, winning the Puppy Bitch LSC Class.

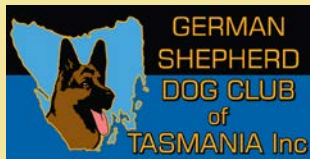

Sunday is Medal day – Deb Colson and her girl Prada (Vanharley Promiscuous Girl) were GOLD Medallists in the OB LSC class. A very popular win for Deb and her handler Michelle Mercieca. Followed by Open Dog where Dave and Lorelle Organ's boy Kaiser (Jayshell Glasgow) were Bronze medallists, handled by Kate Raven. In the Obedience Winner of Winners, Tania Schumann and Bracken put in a great performance to win the Bronze medal, just pipping Alastair Henderson and Yokon. Always great to see obedience in the big show ring! In Open Dog and Bitch classes there were some great performances from our dogs, and lots and lots of happy smiles from owners who were graded excellent. Reward for performance – well done.

And we reserved some of the best till last – finishing position in the Open classes decided the highly cherished Dual Performance Award. Congratulations to Stuart and Megan McDonald and Stobar Quentin – 2018 Winners!! Stuart handled Quentin in Obedience to a great score of 191pts in the Open Class and Megan was his handler in the Open Dog ring to finish a very credible 9th of 25. A big family affair 😊.

Congrats to all winners, placegetters and exhibitors. Well done to the S.A. Club on a great event too! Next year's National will be hosted by Victoria, April 6, 7 & 8. Lock it in now!

As we head into winter, our obedience branches are buckling down to some serious training, and with the colder weather, all the tracking and trialling enthusiasts are out and about – so good luck at your trials.

My Shepherd, My Friend, My Responsibility

A short and sweet report for this edition

Never a dull day over here in the West - I often wonder what I would do with my days if I was not involved in our association. Happy to have completed not one but two magazines in the past month. Hope the members like the special editions dedicated to our children and the A.N.Z.A.C.s.

The State Breed Exhibition was a busy weekend as we included a breed survey on the Saturday morning. The weather could not have been more different on Sunday from the Indian summer sunshine on Saturday - raining, cold and windy. Congratulations to all exhibitors in graduation, show and trial - I was very proud of the sportsmanship which was exemplary. My favourite class is the Critique Only Class where those members who come along to their obedience classes every week have the opportunity to receive a critique certificate from one of our specialist judges. Many of our seasoned handlers pitch in to help out and it is the ideal opportunity for a breeder to see how the balance of a litter has turned out.

What a lovely surprise to have a return visit from Barry & Carol O'Rourke - It seemed like only yesterday that the plans for the very first S.B.E. were spoke of. Nice to see that Barry's retirement as a Breed Surveyor was honoured with a presentation and we could not let the occasion pass without giving some lovely flowers for Carol.

As always a super showing of Sandgropers at the National in South Australia (and some great results I may add) - there was not a lot of time to gather themselves before flying off to compete, socialise and enjoy. Congratulations we are all so very proud of you.

# NEWS FROM OUR member clubs

The road to my heart is paved with paw prints  
Margaret Adams Editor G.S.D.A. of W.A.

Looking forward to a continuance of support at meetings, shows and obedience events in the coming months prior to our A.G.M. which will see a change in leadership and I am sure we can continue our positive, inclusive and progressive attitude for all members AND more importantly our beloved breed.

Until next time - be the person your dog thinks you are

# SIRES progeny report

## GSDCA 46th National Show and Trial – hosted by the GSDC of SA - 27-29 April 2018

This Sire's Progeny report has been formulated by the National Breed Commission Executive; Vince Tantaró (President), Robyn Knuckey (Judges Committee Chair) and Melanie Groth (National Breed Commission Chair). The statistics used in this report have been drawn from the data provided in the GSDCA Database as from 18 April 2018 and the HD/ED Control Scheme report 30 December 2017, and from SV publications for recently imported sires.

At this year's GSDCA National Show and Trial a total of eighteen progeny groups were eligible and of that sixteen groups presented. For the second time a Long Stock Coat progeny group was presented by \*Ch Eroica Catch Me If You Can. The remaining fifteen groups were Stock Coat.

The conformation entries this year increased from 394 in Queensland in 2017 to 442, of which 366 were exhibited in South Australia. See the table below for a breakdown in each class. Dual exhibit entries competing in Obedience and Show totalled 16 with progeny from Toby and Xaro taking out Gold and Silver medals for obedience. It was encouraging to note that a number of our more established, older sires are still enjoying good use from breeders across Australia. Of note it was also encouraging to see sons of established sires with enough progeny entered and exhibited to parade a group, e.g. Alimanda Fire Walker a son of Schneeberg Fire Storm, Schaeferhund Xesko, a son of Toby von Plassenburg son and Fremont Hells Bells, a son of Gerry vom Schacher.

An overall view of the animals exhibited at the show would suggest that breeders must be cognisant of the need to make informed decisions regarding the suitability of a sire for their bitches. Choosing a dog for its anatomical worth is firstly the most important thing, however breeding requires insight as to the hallmarks of the pedigree and the results of line breeding.

Ear size, set and strength is still an issue and requires action. Ears that are tilted, large, soft and/or require taping for them to stand upright would indicate that care needs to be taken using animals from the lines in the pedigree. Ear set, size and strength doesn't necessarily adversely affect the mobility of a German Shepherd Dog, however it certainly affects the nobility, expression and very hallmark that sets a German Shepherd apart from other breeds.

The problem of deep hindquarters is clearly entrenched in the breed and unfortunately as our eye has grown accustomed to the problem it has become normal and therefore not as obvious. It was noted over the weekend many people talking about the deep hindquarters of the youngsters. This tended to be prevalent in animals of high anatomical worth and as a result sees them highly placed. It is a frustrating fault and

we as a fraternity again must find a way to determine how we moderate the depth. If the depth is too great or the sire is producing too much depth, then the obvious choice is not to use the dog.

The last major issue is the rise in the backline and the bend in the lumbar spine. It appears to be linked with the depth of the hindquarter, quite likely caused due to the lower position of the hip joint and the resultant very steep croup. The vast majority of croups are far too steep, yet appear well moulded giving the impression of a smooth topline. However the croup angle in many exhibits over the weekend was well past 23 degrees as against the horizontal and seems closer to 40 degrees. Again, to the naked eye this problem does not appear to be significant, yet the same exhibits in photo show the problem to be profound. These problems do affect the mobility of the dog and one would speculate, the longevity. If you think about it logically and biomechanically, a curvature of the spine cannot be good for the breed.

Dogs who are line bred on animals that produce large soft ears, deep hindquarter angulation or a bend in the lumbar spine, will surface in the breeding and perpetuate those faults. We urge you to do your homework and ask those people you consider to be knowledgeable and unbiased about where you should go with your breeding programs going forward.

As highlighted in previous reports, we as a fraternity need to always be mindful that the end result of our breeding programs sees the majority of our puppies sold to prospective fanciers of the breed and not for showing. It is therefore most important that we as a collective look at reducing and not entrenching major faults: the expression of a GSD is unique and many would say is the prime reason why the breed is so popular. Correct set, size and erect ears are essential. The acceptance of over angulation and loose hocks, whilst may be understood by the enthusiast, is in fact used against our breed. The fact is this fault impacts on the movement and health of the dog. The back should be straight and not rise where it is higher than the withers.

In closing, we thank the South Australian Club and Jane Pike for their assistance with regard to the sires' progeny prior to and during this year's National Show and Trial. The results sheet was a godsend in compiling the tables for the sires. Also big thanks to Frank Moody who again provided the statistics for this report.

The sires are listed in alphabetical order (Kennel) within each bloodline connection group.

*Melanie Groth, Robyn Knuckey  
& Vince Tantaró*

This is the second time this sire has presented a group at a National Show and Trial. Catch Me If You Can is a triple National gold medal winner. The sire is present and the group consisted of 5 males and 5 females from 3 different dams. Impressive to note that he has already been able to produce high quality sons from different dam lines. Registrations have only increased by 25 since last year's National. Six animals have been successfully presented to survey. He is proving to be a very good elbow producer and early statistics show his mean A stamp score at 10.25.

The animals presented today are sire typical and present a strong family resemblance. There is clear definition between the males and females

and it is noted that the group is of high anatomical quality. The animals are large to very large standing with slightly stretched proportions, very good substance, excellent colour and pigment. Overall, they could be firmer in ligamentation. The coats are long and profuse. The heads are noble and strong however, the planes of the skull could be better aligned. The ears could be just slightly better set. The necks are strong and well set into mostly very good withers with very good firm backlines and very well moulded croups that could be a little longer. Most of the animals have well angled forequarters, where the upper arm could be just a little longer on some of the progeny. The hindquarter angulation is ranging from slightly deep to quite deep in some cases. The forechest and underlines in general are very good. However, care needs to be taken with the length of the foreleg. The progeny could stand more correct in front, however they display good overall firmness of the hock and elbow joints with a very good sequence of steps. The tails are long and often display a cast. The progeny display a good desire to run with a very good sequence of steps. The drive is powerful with very good reach and good firmness of the back.

A most impressive group. The progeny presented this weekend have achieved the highest gradings in their classes. It must be noted that this dog, because of his pedigree and the quality of animals presented, offers breeders a high degree of predictability in their breeding programs. It is clear that he is an excellent producer. Congratulations to the breeders on the achievements of this most impressive sire.

# SIRES progeny report

This is the first time this sire has been represented with a progeny group. The sire is not present. He is a locally bred male standing at stud in South Australia. He is represented by 8 progeny, 1 male and 7 females from 7 different dams. Fire Walker has proven his worth for soundness through the hip and elbow improvement schemes, falling into the

excellent category for elbows and demonstrating a low mean score for hips.

The animals presented today are a little mixed in type, quite well constructed, ranging in size from above medium to large with compact proportions. They are medium strong, with good colour and pigment and good overall firmness. The differentiation between the males and females is evident. The heads are medium strong where the foreface on most of the group could be stronger. The ears are well set with medium eye colour. The upper and lower jaws should be stronger. The necks are set slightly erect on a number of the progeny with normal withers and slightly short steep croups. The forehand angulation is good where the upper arms could be longer. The hindquarter angulation is slightly deep. The forechests should be more pronounced with good underchests. Good foreleg length where the majority of the group stand correct in front. They step correct at front and rear showing good drive and reach, with some of the exhibits showing a slight tendency to fall on the forehand. The ligamentation is firm.

The breeders of Fire Walker are to be commended for presenting a good sound progeny group, noting that three of the females gained excellent gradings in the open class with 2 finishing in the first half of the class. from only 99 registrations.

LSC												V1

This is the second group Xeno has presented at a GSDCA National Show & Trial. The sire is not present. There are 5 progeny presented, 2 males, 3 females from 5 different dams. Notably the best result for him at this show was producing the Gold medal LSC Open bitch. Other progeny have received the highest gradings in their respective classes with average placings. With 27 animals through the Hip and Elbow

Breed Improvement scheme, Xeno's results are below 75% normal for the Elbow Scheme and this places him in the good elbow producer category. The mean hip score of 9.26 puts him lower on the list of sires in the GSDCA statistics, however his SV Breed worth score at 77 is considered to be very good.

The size of the exhibits presented is very good. They are slightly mixed in type, quite well structured, balanced, medium strong, well coated with very good colour and pigment. They could be firmer overall. The heads are broad however the foreface could be stronger on a number of exhibits. The ears are rather large and wide set with medium eye colour. The upper and lower jaws should be stronger. The necks should be longer. They have normal withers, good backlines with good forehand angulation with very good to slightly deep hindquarter angulation. On a number of exhibits the foreleg should be longer. The lower chests border on deep and should be longer. They step narrow at front and slightly cow-hocked at rear. The movement shows good drive and reach with a good sequence of steps. The progeny group this weekend is not as good as the earlier group presented in Sydney in 2016, however with limited numbers it is difficult to determine the potential of this sire. Care needs to be exercised with the length of foreleg, the depth and length of the lower chest and overall ligamentation.

Congratulations on presenting a good progeny group at the GSDCA National Show and Trial.

LSC							VG1				V7	

This is the third time that Xaro's connections have presented a group at a GSDCA National Show and Trial. A further 45 puppies have been registered since the last national in 2017. Xaro's performance at GSDCA National Show & Trials has been outstanding, placing in the top 4 every year since 2015 (Bronze in 2016). This year the group consisted of 4 males and 5 females with two of the progeny exhibited in the Open classes graded Excellent, with highly placed animals from Baby puppy through to Intermediate.

The group presented is of high quality with very good differentiation between the males and females. The animals are large, sire typical, well coloured and well pigmented, medium strong, substantial, of very good proportions, and of overall very good harmonious construction. Good heads and expression with dark eye colour and very good masking. Slightly large ears that should be slightly firmer in movement. The progeny show very good length of neck, withers, firm straight backs,

quite well moulded croups that in some cases could be longer. The upper arm should be slightly longer and better angled with very good placement of the shoulder blade. Very good hindquarter angulation. Very good length of foreleg. They stand correct in front with balanced chest proportions. Very good fore-chest development, with good length of the lower chest. They step correct both front and rear with firm hock joints and good firmness of elbows. During movement they show very good ground covering gait with powerful hindquarter drive and very good forehand reach, with very good back transmission whilst displaying an excellent desire to run.

It is pleasing to see this sire present a group of high anatomical worth with animals displaying uniformity, very good overall construction, balance and free of exaggeration. This sire offers a high degree of predictability for breeders. Breeders can utilise Xaro to consolidate type, firmness, balance of construction and pigmentation. He is linebred on quality animals and proven producers. Care should be exercised with regard to size and the size and firmness of ears.

Xaro's progeny have returned excellent results through the GSDCA HD/ED scheme with 92% of progeny receiving normal gradings for elbows and a mean score of 8.4 for hips. A further 10 animals have successfully presented to the GSDCA Breed Survey Scheme this year bringing the total to 29.

Of particular note is the very good uniformity of the animals presented and reinforces that there is a very high degree of predictability when using Xaro to consolidate type, overall construction, hindquarter angulation and pigmentation. This is an excellent group and the NBC executive congratulate the connections of the sire on his achievements and encourage breeders to continue to utilise Xaro in their breeding programs

SC											V17	V10 V16 V43 V48
LSC												

This is the fourth time Pepe has presented a progeny group at the GSDCA National Show and Trial. Since last years national only 7 puppies have been registered from Pepe. All animals presented this weekend were exhibited in the open class and achieved excellent gradings. Thirty-four have been breed surveyed. According to the statistics for the GSDCA Hip and Elbow schemes, Pepe is considered an excellent elbow producer with 90% of progeny gaining normal elbow results. He has a low mean score for hips. The group consists of 1 male and 4 females and

the sire is not present. Of the five animals exhibited in the open class all achieved an excellent grading. A commendable achievement.

The group is sire typical and range from large to very large. They are medium strong with compact proportions. Very good type. The differentiation between the sexes is evident. Very good colour and pigment. The heads overall are very good with good breadth of skull and very good masking; however the upper and lower jaws should be a little stronger. Desired dark eye colour with some slightly round. The ears are large and should be a little firmer in movement. The necks should be longer. High withers firm backs, some with a slight rise in the loin. The croups in most cases should be longer and are set slightly steep. The upper arms are good length but should be slightly better angled. In some cases, the shoulders are forward placed. Very good to deep hindquarter angulation. Good length of foreleg. Good fore-chest development, slightly deep, slightly short lower chest formation. They step correct at front and slightly close at rear, where both the hocks and elbows should be much firmer. In movement they display good willingness to run with good ground coverage, ligamentation and balance. Some care to be exercised with size and the backline, the length and lay of the upper arm and length of neck.

The NBC executive congratulates the connections of Pepe for continuing to present very good progeny throughout the duration of his stud career in Australia.

LSC	VP1		VP3		VP1	VP1						

# SIRES progeny report

This is the first group of Conbhairean Freddie presented at a GSDCA National Show and Trial. It is a very young group with the oldest progeny in the puppy class not yet 12 months of age. The results at this show would indicate its very early promise with a dominance of high placings

and winners from Baby through Puppy in both coat varieties.

The sire is present, leading 7 youngsters; one male and 6 females. They are sire typical, well-constructed, well proportioned, medium boned with very good colour and pigment. At this stage the heads are well formed but should be stronger in the foreface, upper and lower jaws. The ears are large but well set. Very good eye colour and shape. Very good masking and expression. In some cases, the necks are a little erect with normal withers. The backlines show a tendency towards a bend in the lumbar spine, the croups are well-moulded, set a little steep. The upper arms are of good length but set a little steep. Deep hindquarter angulation where the upper and lower thighs are long. Good length of tails. The fore chest and lower chest formation at this point is very good. Good length of foreleg with a tendency to stand a little east west at front and close behind. They step narrow both at front and rear with loose hocks. In movement they show good willingness to run with powerful hindquarter drive, however the reach should be freer.

The NBC is impressed with the first group presented for Freddie with some reservations about the depth of the hindquarter and the topline. We look forward to watching the group develop going forward and congratulate the connections of Freddie for this very good, impressive young group.

Place	BPD	BPB	MPD	MPB	PD	PB	JD	JB	ID	IB	OD	OB
SC							VG2 VG7		VG1	VG23 VG25	V7	
LSC								VG6		VG3		

This is the second group of Fremont Hells Bells, Gerry vom Schacher's best son. Only one litter registration has occurred in the past 12 months. Hells Bells' impressive show career at the National Show and Trial continued in 2018 adding a bronze medal to the previous 3 silvers in his collection. Whilst he is not linebred, his mother carries three lines to Iwan Lechtal on the 4th and 5th generation. He now has 10 animals

through the breed improvement schemes with a low range of scores for hips and placing in the very good category for elbows. He has four animals through the breed survey scheme.

The progeny group led by the sire consisted of 4 males and 4 females from seven different dams. There is good differentiation between the males and females. One male was shown in the open class gaining a credible 7th place with another son winning a strong Intermediate class. The progeny are sire typical, very good size, proportions and bone strength with good pigment however the black colour and in some cases the gold, should be stronger. Well-structured noble heads with very good strength of the jaws, good eye colour and ears that are large but mostly well set. Good neck length with normal withers, firm back lines and just slightly short croups. The forehand angulation is good where the upper arm should be longer and the hindquarter angulation is very good to slightly deep. The foreleg length is good, with very good fore and good lower chests. In some cases, they do not stand quite correct in front and the feet are a little flat. The pasterns are a little upright. They step narrow at rear where the hock and elbow joints should be firmer. The tails in some cases are long and carried with a cast. In movement they display good balance with good ground coverage and very good drive.

# SIRES progeny report

Even with such a small number of progeny on the ground, it is clearly evident that Hells Bells is a very good producer from a producing family line. The animals in the group are of high quality. The sons are excellent and sire typical, which is encouraging for predictability in breeding. In utilising Hells Bells, consideration should be given to the length of the

upper arm and the lower chest, the colour and character.

The NBC executive offers congratulations to the owners and breeders of this impressive male on presenting a group of very good quality.

## Quanto Wienerau line

### \*Juwika Destroyer (Imp Deu) a ED (Gmy)

SC		VP26 VP27	VP2	VP9				VG18 VG20	VG7 VG10	VG11		
LSC								VG2		VG8 VG12		

This is the second time Juwika Destroyer has presented a progeny group at the GSDCA National Show & Trial since arriving in Australia in late 2015. The oldest progeny presented this weekend are in the intermediate class. The sire is not present and there are 2 males and 3 females presented today. This is disappointing as 8 animals were eligible and exhibited and the final results very good. Destroyer's statistics in the breed improvement schemes is very good with high numbers being screened to provide a fairly reliable mean score of 7.81 for hips and is categorised as a very good elbow producer on the cusp of excellent.

Whilst small in number the group is of high anatomical quality, sire

typical, standing on the upper limits of size, with very good proportions, very good colour and pigment and good differentiation between the males and females. The heads are strong and with well-formed skull and foreface. The eye colour is medium to dark with excellent masking. The ears are rather large and in some cases are well set. The necks are set slightly erect and in general the withers are high with firm very good backline. The croups are a little short and should be better laid. Very good fore and slightly deep lower chests. The forehand angulation in general is very good with slightly deep hindquarters. Good length of foreleg, standing and stepping correct at front and rear. The hock and elbow joints could be tighter. In movement, the animals show good willingness to run and have a good sequence of steps with good balance and back transmission.

Given Destroyer's linebreeding, care will need to be exercised in regards to size, ear shape and size. Whilst the linebreeding would suggest that care be taken with hindquarter angulation it should be noted that Destroyer has very good hindquarter angulation and the progeny presented are also very good. However, it is recommended that care needs to be exercised when linebreeding on Vegus Haus Mansard for deep hindquarter angulation and ears with this dog. Destroyer should be utilised for strength, colour and pigment, overall dry and firmness. He has high quality progeny with some nice young sons and is a sire breeders should consider.

Overall an impressive group. The NBC executive looks forward to the development of the progeny over the next year. Congratulations to the connections of Juwika Destroyer.

SC				VP3 VP14 VP26 VP27			VG1 VG3	VG5 VG8 VG10 VG17	VG16	VG4 VG26	V6 V19	V2
LSC					VP2							V3

This is the sixth time Toby has presented a progeny group at the GSDCA National Show and Trial. Over the past 12 months his popularity as an excellent producing stud dog has been maintained, adding another 59 registrations; evident in the number of young puppies entered at this show. Toby's show record is impressive with a 5th Excellent in 2013, silver medal in 2014 and the gold in 2015. The group presented this weekend consisted of 10 animals; 5 males and 5 females from 10 different dams. As with last year, the NBC note, that fourteen animals above 9 months were exhibited, yet only ten presented for the progeny parade. As a result, it does not give the fraternity a true picture of the calibre of what was presented at the show or a strong indication of this sire's worth. The sire was not present. Toby progeny gained top honours at this year's national with two of his daughters gaining a silver medal (stock coat) and bronze (long stock coat). One of his sons achieved Excellent 6 and

Xesko, an excellent grading and presented his own very good progeny group.

Toby's statistics continue to confirm him as a very good elbow producer and his mean score for hips has lowered to 8.84 over the past 12 months. Breeders have continued to show confidence in Toby as a sire utilising him over the last year, adding another 59 registrations to his progeny numbers since the 2017 National.

The group presented are large to very large, medium strong, well coloured, well pigmented of very good type and proportions. The group is sire typical, has good uniformity and very good definition of the sexes. Good heads, expressive with medium to dark eyes, large, slightly infirm ears. High withers, firm back, slightly short and slightly steep croups. A number of the backlines are not straight and show a bend in the lumbar spine. Good fore and very good to slightly deep hindquarter angulation. The view from front is correct. Very good length of foreleg. Slightly deep chest proportions, where in the main the lower chest should be longer. They step correct both front and rear with slightly loose elbows, slightly loose to very loose hock joints. They display very good ground covering movement with strong hindquarter drive and good reach. Very good back transmission. Care should be taken in regards to the length of the lower chest, the backline, the size and firmness of ears.

Toby is a well-bred, excellent sire that offers a high degree of predictability. The progeny possesses a strong resemblance to the sire. When utilising Toby as a breeding partner, breeders can be ensured that he will consolidate his strong family type, improve overall construction, temperament and ligamentation. The NBC executive congratulates the owners of Toby on past and present progeny groups. He has proven his worth as an excellent producer and very valuable sire in Australia.

# SIRES progeny report

This is the fourth time Ustinov has been eligible to present a progeny group at the GSDCA National Show and Trial. Ustinov was previously a National Gold Medal winner in 2013 and Bronze in 2014. His registrations at 260 would indicate that breeders in Australia have not utilised Ustinov prolifically in their breeding programs since his arrival in 2013. He has this weekend produced the gold medal winning stock coat male and a silver and bronze medal in the Open dog long stock coat. A commendable result.

In this group the five animals are of high quality, however there are

variations in type to the sire. Five animals were presented for the progeny parade, however only four were exhibited. The three males and two females range from large to very large, have very good proportions, medium bone strength with bone strength and a clear definition between the males and females. They have very good colour and pigmentation. Good head and expression with good eye colour. Both the foreface and the lower jaw should be stronger. Very good size and placement of the ears. The necks should be a little longer with level withers, firm backlines and slightly short slightly steep croups. In some cases, the foreleg should be a little longer where the animals could be a little better in chest depth proportions. The lower chests should be a little longer in some cases. They have good forequarter angulation and very good to deep hindquarter angulation. They step correct at both front and rear, however the hock and elbow joints should be a little firmer. In movement they show a very good sequence of steps with very good hindquarter drive and good reach. They have good firmness of ligamentation.

Ustinov's progeny results in the breed improvement scheme's statistics demonstrate that he just falls into the Normal to Excellent elbow producer range, with 85% of progeny receiving normal gradings. The mean scores for hips are at 9.93.

A pleasing group though small in number, and the NBC congratulates the owners of Ustinov's progeny on their outstanding success this weekend.

SC	VP3	VP3		VP4					VG9	VG3 VG37	V3 V22	V6 V13
LSC										VG1	V8	

This is the sixth group Gerry has presented at a National Show and Trial. He won the gold medal in 2014 and was the silver medal winner in 2012 and a credible Excellent 4 in 2013. Breeders have continued to

utilise Gerry in their breeding programs over the past 12 months, adding another 28 registrations to his previous total. Twenty-one animals have been successfully breed surveyed. With five excellent graded animals in the open classes, including Hells Bells who captured another medal at this year's GSDCA National Show and Trial; adding a bronze to his impressive three silver medals at the last three Nationals. Gerry's progeny results through the GSDCA HD/ED Control scheme are excellent with a low mean score of 5.68 for hips and a very high percentage of normal elbows, placing him in the excellent category. Ten animals were presented for the progeny group this year; 5 males and 5 females. The sire was not present.

The group is sire typical, large to very large, medium strong, firm and dry, well coloured, well pigmented with very good proportions. In some cases the black saddle markings should be more pronounced. Very good differentiation between the males and females. The heads are noble and well-structured with desired dark masking and eyes with good strength of upper and lower jaws. The ears are large but well set. The necks are

# SIRES progeny report

good, high withers, firm backs, with very good croups. Very good fore and hindquarter angulation. In some cases, the angle of the upper arm is a little steep. Very good length of foreleg. Balanced chest proportions, ideally the lower chest should be a little longer. The view from front is correct. They step correct at front and rear, with slightly loose elbow and hock joints. The progeny display a pleasing desire to run with a good sequence of steps with very good ground cover and balance. In some animals the ears should remain slightly firmer during movement.

Some care to be exercised in regards to the length of the lower chest, firmness of ears and height at wither. Gerry is very well bred and

offers breeders a high degree of predictability. He has produced a high number of well-constructed excellent males that are family typical. Whilst he is very well constructed he continues to produce animals of superior anatomy to himself and this is the hallmark of an outstanding sire. Notwithstanding that he also has a son that has produced a praiseworthy progeny group at this year's National Show & Trial from only a small number of registrations. Gerry has firmly cemented himself as an excellent all-round dependable sire. The NBC executive congratulates the owners and connections on the delivery of such a lovely progeny group.

LSC												

This is the 2nd group Xesko, residing in South Australia, has presented at a GSDCA National Show & Trial. The first being in 2016 in Sydney. Xesko is a son of Toby, has an excellent mother in Ryzack Alexa who goes back to the producing Kwint Jeurikstall. The sire is leading the group with 9 progeny; 1 male and 8 females from 9 different dams. The progeny are of above average quality and construction. This is a dog that breeders have utilised with 366 registrations to date. Ten percent of his progeny have been submitted to the Breed Improvement schemes with very pleasing results. He has a relatively low mean score of 5.83 for hips and falls in the

normal to excellent range for Elbows with 90% of progeny submitted gaining a normal grading. The two animals presented in the open class received excellent gradings.

The group range between above medium size to large, is sire typical with medium bone strength and good substance, very good colour and pigment with very good overall firmness. With only one male presented it is still obvious that there is good definition between the male and females. The group have very good heads and well-placed ears. The eyes are dark with very good strength of the upper and lower jaws. The length and placement of the neck is mixed. Level withers, good backlines, slightly short, slightly steep croups. Good forequarter angulation where the upper arm should be longer and better angled on some of the progeny. In general, the hindquarters are very good. Good fore and under chest development with good length of foreleg. They step narrow at both front and rear with slight looseness of the hock and elbow joints. Very good sequence of steps showing good balance and willingness, however the reach is just slightly restricted on a number of the progeny.

The NBC congratulate the breeders and connections of Schaeferhund Xesko for his excellent results in the breed improvement schemes. This consolidates the fact that this dog is a good producer of soundness. Congratulations on the presentation of a pleasing progeny group.

# SIRES progeny report

ANKC registrations	First registration	Progeny through HD/ED scheme	A stamp	Mean Score	Range	Z stamp	Normal	Near Normal	Grade 1	Breed surveyed
338	Nov-15	32	31	7.16	2-22	29	84%	nil	6%	8

Place	BPD	BPB	MPD	MPB	PD	PB	JD	JB	ID	IB	OD	OB
SC			VP9 VP13 VP16	VP10	VP4	VP15		VG3 VG16		VG14	V13	
LSC					VP3	VP2						

This is the second progeny group presented by Labo since his importation to Australia. Retired from the ring, he was the gold medal winning dog at the 2016 GSDCA National Show and Trial and he was placed Excellent 3 in the bronze medal position in 2017. He has eight progeny breed surveyed in Australia and with 10% of his progeny submitted to the breed improvement schemes here, the results show a good mean score of 7.16 for hips and 84% of his progeny are normal placing him in the very good category.

His oldest progeny born in Australia are not yet eligible for the open class. However, his son Calle Westervenn, imported from Germany was

Excellent 13 in the open class. Labo's progeny group consisted of 12 progeny; two males and 10 females and the sire was not present.

The progeny in the group are sire typical with good differentiation between the sexes. They range from medium size to large, are medium strong, well coloured, well pigmented animals of very good type. Mixed proportions. Good heads and expression with good masking and dark eyes. In a number of progeny the foreface, upper and lower jaws should be stronger. The ears are large and set a little low on the skull. They have strong necks of good length, normal withers, firm backs that show a rise in the topline with relatively well moulded slightly steep croups that could be a little longer. In general, the forehand angulation is very good where the lay of the upper arm is very good but could be a little longer. Well placed shoulders. The hindquarter angulation is very good. The tails are long. Most of the progeny tend to have very good forechest and in some, the lower chest is slightly deep. Good length of foreleg with good pasterns. Standing and stepping correct in front, the feet are just a little flat. Stepping narrow at rear, the hock joints should be firmer overall. In movement, they display good willingness to run with very good ground coverage and very good reach and drive.

When using Labo care needs to be exercised in regards to the size and set of the ears, the depth of the hindquarter angulation and the backline. A very good group by a sire that is well bred and offers a high degree of predictability. The NBC executive look forward to the continued development over the next twelve months. Congratulations to the connections of Labo.

LSC												

# SIRES progeny report

This is the fifth time that Odin has presented a group at a GSDCA National Show and Trial. Odin has performed very well in the open class at the National Show and Trial where in 2013 he was V10, 2014 V11, 2015 V14, and 2016 V4. He has been a producer of very good quality and presented very good groups at past National shows. The progeny results though the GSDCA HD/ED Control Scheme are excellent with 92% in the normal range for elbows and a low mean score of 7.08 for hips. He has fifteen progeny through breed survey. The sire is not present and the group consists of four males and three females with some youngsters in

the minor puppy classes.

The group is large to very large, quality, medium strong, well coloured and well pigmented, sire typical and of overall very good type and stretched proportions. Good differentiation between the sexes. They have good heads and expression with good masking of the skull and foreface, medium eye colour and good ear carriage. Ideally, both the skull and foreface should be a little stronger with the lower jaw strength showing improvement from previous groups. Normal withers, firm curved backlines, slightly short, steep croups. The upper arms are of good length, but should be better laid in most cases. Good to deep hindquarter angulation. Very good length of foreleg. Very good forechest development. Slightly deep and slightly short lower chest formation. They stand and step correct at front, narrow at rear. Whilst the hock joints on the progeny could be firmer and are slightly cow-hocked, they are an improvement on the sire. Slightly long tails. In movement, they show very good ground cover with balanced hindquarter drive and forehand reach. The backline should be straighter in movement.

The NBC Executive were pleased to see the further development of the group with a number of very good animals presented within this group. The value of Odin's producing capabilities continues to impress, however the same advice with regard to the firmness of the hock joints, the length of the bones in the hindquarter and the backline curve are to be considered. Congratulations to the owners on the continued presentation of an overall pleasing group.

SC	VP7	VP13		VP16						VG24		
LSC								VG3	VG1 VG4	VG2		

This is the 1st group presented at a GSDCA National Show & Trial for Veneze Lutz who is recently deceased. Five animals are presented; 2 males and 3 females from 5 different dams. With only a small number of animals through the breed improvement schemes early indications are that Lutz is an excellent elbow producer. The mean score for hips is still very good with 7.82 being a good indicator that he produces sound hips and elbows.

The group is mixed in type though of very good quality; particularly the long stock coats with high placings in the Intermediate dog and bitch LSC classes. They are large with very good proportions, bone strength, colour and pigment. Good definition between the males and females. The heads are good however in some cases the planes of the skull and foreface could be more correct. Good ears, masking and eye colour. The necks could be a little longer in some cases, with level withers and good backlines, slightly short, slightly steep croups. Good fore and slightly deep hindquarter angulation. The foreleg could be a little longer and in most cases, they are a little narrow and should stand more correct

# SIRES progeny report

in front. Good fore and slightly short lower chests. They step narrow at both front and rear. In movement they show good balance and willingness to run with good drive and some restrictions in the reach, due to the length of the upper arm.

We extend our condolences to the connections of Veneze Lutz for his untimely passing and hope that in the progeny that is now on the ground we see a male emerge to carry the line on for the future. Congratulations on the presentation of a good group.

## Quanto Wienerau line

### \*Ch Calle v Westervenn (Imp Deu) a ED H-Neg (GMY)

S. \*Ch Labo v Schollweiher a ED x D. \*Zimba v Westervenn a ED

Linebreeding: Nil

SV Breed worth: 73

**Exhibited Excellent 13 Open dog SC** Total entry eligible 10 – males - 1 females – 9 10 different dams

ANKC registrations	First registration	Progeny through HD/ED scheme	A stamp	Mean Score	Range	Z stamp	Normal	Near Normal	Grade 1	Breed surveyed
240	Sep-15	16	16	6.56	3-13	16	100%	nil	nil	4

Place	BPD	BPB	MPD	MPB	PD	PB	JD	JB	ID	IB	OD	OB
SC			VP10			VP4 VP6				VG7 VG13 VG20 VG27		V12 V38
LSC											V9	

This is the first time Calle has presented a group at the GSDCA National Show and Trial since arriving in Australia in May 2015. Nine progeny are presented; 1 male and 8 females from 8 different dams. Calle's initial results in the hip and elbow scheme are excellent and as a sire he is delivering low mean scores for hips and normal elbow results, placing him in the excellent range within the Elbow scheme. He has produced

excellent graded progeny this weekend with credible placings in the younger classes.

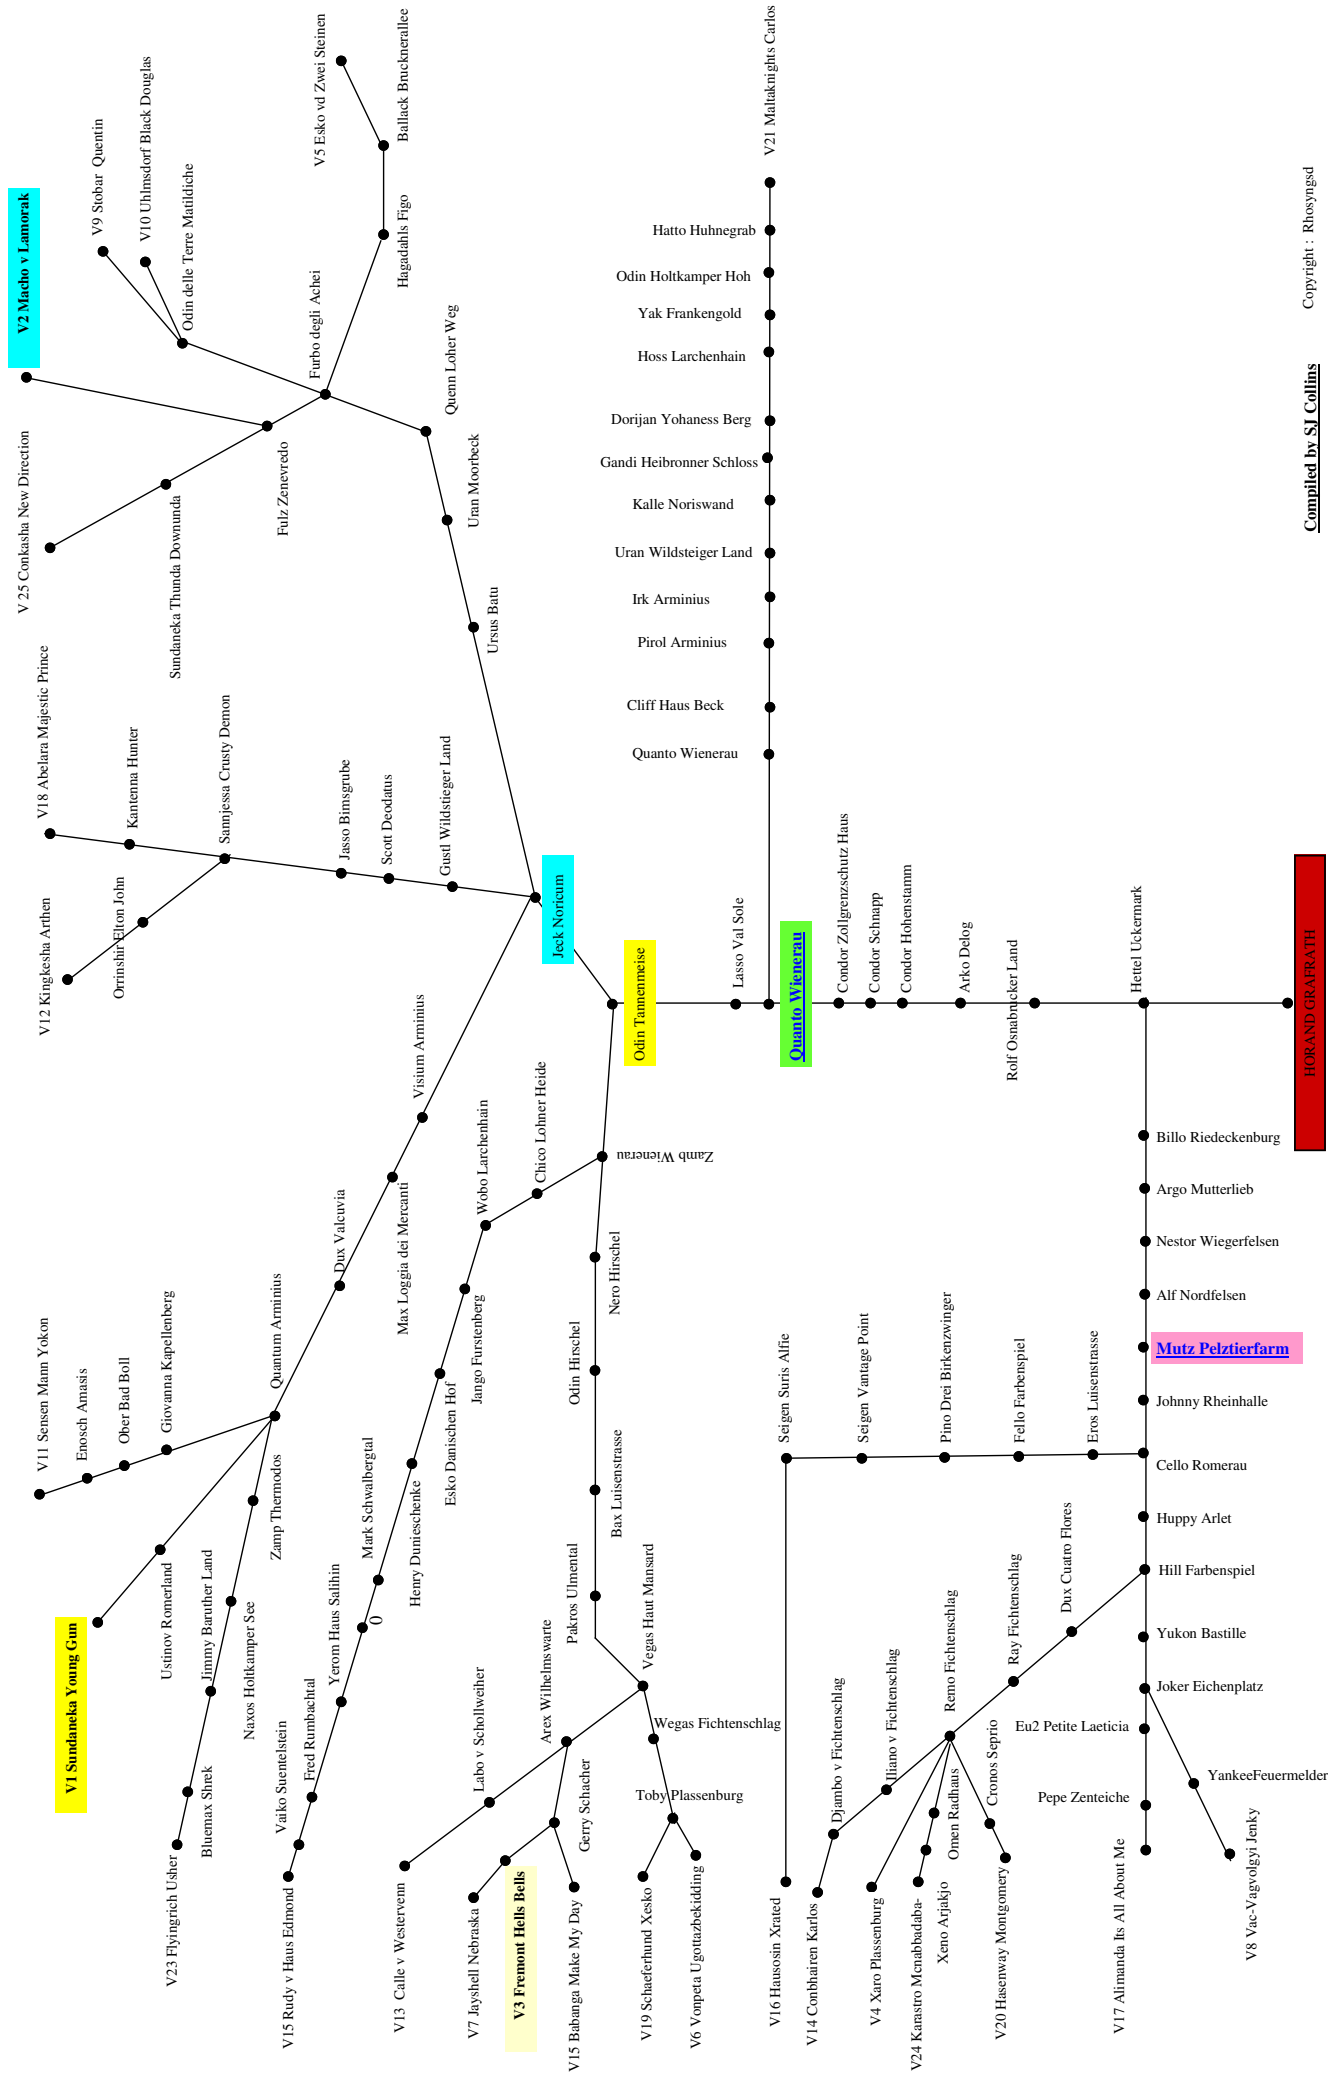

The group is fairly typey to the sire, large to very large, medium strong, very well proportioned with good colour and pigment. Good breadth of skull however the foreface, upper and lower jaws should all be a little stronger and in some cases the foreface is a too long. In some cases the ears should be set a little higher on the head. Good necks and withers with firm but slightly curved topline where the croups are slightly steep. Good forequarter angulation where the upper arms are slightly steep in some cases. Very good hindquarter angulation. Very good foreleg length with good chest proportions. They stand correct in front and step correct front and rear. The hocks could be firmer on a number of the progeny. The movement is balanced with very good reach and drive. They show a very good sequence of steps.

In utilising Calle as a sire the NBC is encouraged with the results in the breed improvement schemes. Care needs to be taken with size, the topline and the strength and proportions of the skull and foreface. This is a pleasing first group and we look forward to its continued development as the animals move into the older classes. Congratulations to the connections of Calle von Westervenn.

## GSDCA Breed Improvement Scheme Recognition

The following Kennels are recognised by the number of animals successfully presented to the Hip and Elbow Dysplasia Improvement Schemes. The Council recognises their contribution and significant achievement. Medallions and plaques are sent to each state club for special presentation so that breeders can be recognised within their own states. Congratulations to the following Kennels on these milestones in your breeding programs.

### Magazine and Website Package

Each full page stud dog advertisement printed in the QNR will have the option to be replicated on a dedicated Stud Dog page on the GSDCA website for a period of 3 months following the publication of the QNR edition in which it appears. Optional extra, available at no extra charge to the QNR advertisement fee.

The "Magazine and Website Package" has been established in an effort to encourage members who own stud dogs to advertise in the Quarterly National Review magazine and to provide an opportunity to receive national exposure on the website and advertise to a more diverse range of people. This is available for owners who place full page ads in the QNR.

**Please make Cheque/Bank draft or Money Order payable to: German Shepherd Dog Council of Australia Inc. and forward to: The Treasurer, GSDCA QNR, 20 Conrad Road, Longwood SA 5153**

### Notes:

All advertisers must forward FULL PAYMENT at the time of placing their advertisement. Advertisers are advised that where an animal is over 18 months of age it must have been successfully Breed Surveyed. Any imported animals with an overseas breed survey Classification will be permitted to be advertised for 6 months following their date of release from Australian Quarantine, after this time they must have obtained an Australian Breed Survey Classification.

If you require return of photos and a receipt, please provide a self-addressed, stamped envelope.

The Trade practices Act 1974 came into force on 1st October 1974 and certain provisions of the Act relating to consumer protection place a heavy burden on advertisers, advertising agents and publishers of advertisements. In view of the difficulty of ensuring that advertisements submitted for publication comply with the Act, advertisers and advertising agents must ensure that the provisions of the Act are strictly complied with. In case of doubts advertisers are advised to seek legal advice.
