

German Shepherd Dog Club of Queensland
Members Competition
27th October 2019
Judge - Dr. Karen Hedberg

Show Summary

The Members Competition was lightly attended but contained some interesting dogs. The type was rather mixed as shown by the numerous different stud dogs used, but the overall quality was very good. Generally, the height was acceptable with a few ranging to top size. Strength and sex differentiation was very good, toplines were very good, croups generally short but well laid. Forequarters the length of upper arm varied with most tending to steep, hindquarters were not too bad but 4-5 were deep and consequently could not extend properly at the fast gait. Chest proportions were a bit of an issue with quite a few dogs on the maximum propitious and 1-2 on 50/50.

Interestingly, I had a solid black dog of working lines in the Intermediate stock coat class who was quite well constructed, he needed more development particularly of the under chest, but was a surprisingly good mover once motivated.

The Junior stock coat bitch, a Rudy v Haus Edmond daughter was very well constructed with an excellent fore quarter and a touch deep in hindquarter that still needs to firm slightly but excellent type with very good extension of the forehand - one to watch.

The top dogs were of very good quality, the Open bitch was bred in SA and beautifully balanced. The Open dog was an imported Djambo son, standing on the maximum height but very well constructed. There were a few very promising youngsters coming up as well.

Karen
