

The German Shepherd Dog Club of Tasmania PM Show

23/05/21

Show Report

The weather was very good, the show was very well organised and run smoothly throughout. While the numbers in the younger classes was small, it was pleasing to see the numbers in the Open classes. Consistency of type was not evident throughout the classes. Some of the notable concerns were in the area of Short under chest, length and angle of the upper arm, these are not isolated to Tasmania and are evident throughout the breed. In several cases the pasterns were set quite steep. Several animals were measured at the limit of permissible size. During the gun test one female was showing concern and was not able to achieve the highest grading. The management of time must be considered by the Club when conducting further dual shows on the one day.

German Shepherd Dog (Long Stock Coat)

Class 2

Minor Puppy Dog

1st

KARRAINE BLAZES STERLINGKNIGHT (AI)

7100046993

30 Sep 2020 Bred By: : Mrs P Eaves-Tennant

Sup CH Karraine Blazing Up A Storm (AI) x Kadama Red Hot Raven

#1 Large, medium strong, dry, and firm masculine dog with a good head and expression, where ideally the right ear should be firmer. High wither, firm back, slightly short slightly steep croup. Good fore quarter angulation where the upper arm should be better angled. Good fore and under chest development. Very good hind quarter angulation. Stands correct in front. Correct coming and going where both the hocks and elbows should remain firmer. During movement displays a good ground covering gait, where the forehand reach and hind quarter drive should be more effective. Falls slightly on the forehand. VERY PROMISING.
