

## **GSDCQ SBE SEPTEMBER 24,2023.**

Judge .Alastair Henderson.VIC

Firstly, I wish to thank the committee and members of GSDCQ for the invitation to judge your 2023 SBE. With a disappointing entry of 46 with 40 being presented in the ring I noted it was a substantial drop in numbers compared to 2022. Special thanks must go to my ring steward PieterTjerkstra, Stenographer Nikki Jones, photographer extraordinaire Gail Donald and Alison Chillingworth for live streaming on Facebook.

The weather was overcast in the morning with mild temperatures ,which was good for both dogs and handlers.

The major problems in the breed are still in most cases a deep hindquarter and short upper arms. Size was generally well above to very large,no exhibit was penalised for size.

In the Open classes to gain the Excellent Merit award the exhibit in the Male classes must have produced progeny that have passed the hip and elbow scheme and preferably Breed Survey and it was not necessary at this show to present a progeny group but to have some above average progeny around Australia. Males in my opinion have the opportunity to be bred with than females and this is why it may seem a bit harder to achieve the Merit Award.

In the bitch Open Classes they must either have successful progeny or be of high anatomical worth without progeny to be Excellent Merit.

Hopefully next year some of the Open class animals may be elevated after producing some worthy progeny to the Excellent Merit group.

Wishing all involved every success in the future.

Many Thanks,

Alastair Henderson.

### **SIRES PROGENY**

**Name – CHILLI DELLA VALCUVIA (IMP)**

Line Breeding :Furbo Degli Achei(3-4,4),Vegas Haut Mansard(4,3),Quenn Loherweg(4,4-5,5)

Produced 402 puppies ,with 65A,66Z. 35 are Breed Surveyed and 10 ZAP.

At this show Chilli presented 7 progeny from 5 dams.He has presented groups in all state breed shows and the National.As can be seen he has had wide use and has left his mark for years to come.

Overall he produces medium to large animals of very good type and proportions, excellent character with very good drive and desire to work in most cases. Richly coloured and with clear distinction between the sexes. Produces overall Good to very good fore and very good to deep hind angulation, clean topline, very good heads.

A dog that has certainly left his mark in this country and congratulations to his owners for bringing him here.

## **DAMS PROGENY**

### **Name – DEBBAR ISABELLA**

ISABELLA has produced 21 progeny, 6 AZ and 5 Breed Surveyed.

The group has progeny from 3 different sires who are generally of very good type, and proportions. Very good heads and distinction of the sexes, clean topline. Angulations are very good.

Congratulations to the breeder on presenting this group.

## **KENNEL GROUP OF CASTASTAR KENNELS**

Firstly, congratulations on presenting a kennel group and if my notes are correct it consisted of 2 males and 3 females from 3 sires and 3 dams.

A group that was a little mixed in type with some well constructed animals in the group. Generally they were large to very large with good bones and colour. Good heads, withers and topline. Angulation of the fore was good to very good with the hind angulation being very good to deep.

Wishing Castastar Kennels every success in their future breeding and hope they continue to present more Kennel Groups in future.
