

German Shepherd Dog Club of Victoria

110th Championship Show

2nd November 2024

Mr Gaetano Barbieri (Italy)

KCC Park, Skye, Victoria

SUMMATION BY MR. GAETANO BARBIERI (ITALY)

My splendid German Shepherd dog adventure in this surprising country ended in the wonderful Australian setting, precisely in the city of Melbourne.

On November 2nd, the 110th German Shepherd Championship Show & Trial Show took place at the KCC-Park – this is a world class venue. I was most honoured to have judged this important event. I sincerely thank once again the club and members for the invitation.

Jacinta Poole as show Manager and her team provided a great event that made it easy for all of us to enjoy our passion.

I thank my Italian friend, Vincenzo Tantaro for the translation work done in the ring with so much patience (without him I would have been doomed) and Barbara Blythe for her patience in recording the critiques. I also give thanks to Nicky McDermott who was my ring steward.,

Last but not least, special thanks to the exhibitors that travelled in some cases from far away and at great expense that saw a very good entry of 130 animals catalogued. It must be noted that the fair play as displayed by all, made my work more fluid and their willingness to accept rankings and judgments must be praised. I also appreciated the positive feedback at the end of the competition.

My wife Vittoria, son Michele and I had a very good time with all the members and the people who supported us and pampered us with great kindness and hospitality.

To be noted:

The number of participants was high, good quality of subjects with some high-quality animals exhibited

Type, heads, expressions, proportions, pigment and colour and the quality of the coat are well represented. We must pay attention to the width and length of the chest, some backs appeared 'carp' with steep rumps, another particular and important matter to be noted is that of not neglecting the character aspect so that the function of the breed to which we are very attached to is not reduced to being a simple companion dog. It must be noted that the dog must be confident, and calm when measured and have its teeth examined- these two prerequisites are mandatory and must be completed without fuss or stress.

A final but painful note that worries the entire breeding world is the hyper-angles of the hindquarters which must be noted and not ignored!

In closing I again thank all without distinction for their welcome and hospitality.

I wish you all success in the future and until next time

Best wishes

Gaetano Barbieri
