

German Shepherd Dog Club of Tasmania Championship Show

15 February 2026 Judge: Melanie Groth (NSW)

Thank you to the GSDCT for the invitation to judge once again at the Club grounds in New Norfolk by the side of the Derwent River. It is always a pleasure to come to Tasmania to judge as the club is so hospitable and welcoming, evidenced by 35 people attending the Saturday night dinner over the dual championship show weekend. Thank you to my ring team of Alastair Henderson (steward), Maureen Lowery and Gabrielle Peacock (stenographers), Gail Donald (photographer), Heather Mathers Dogs Tasmania Rep and to Kristy Hall – Show Manager and all the volunteers who set up the rings and run the canteen. Huge thanks also to Jan and Jurgen Haase who hosted both judges (Jess Kada and I) for the weekend saving the club many hundreds of dollars in accommodation and meals.

The quality entry whilst low in numbers by mainland standards was healthy, boosted by Victorian exhibitors making the journey across the Strait.

Class and in show winners were of a very high standard all achieving the highest gradings possible for their age group. The Long Stock challenges were litter brother and sister from Lenin von Grafenberg and Freinhauf Havoc, both animals of medium size, correct proportions with very good movement and overall firmness, with the female Frenhauf X Wing taking Best In Show. The Stock coat winners were also of very high quality. Rasti vom Gamsetal in his senior years now looked and performed well, with Team Bern Tiger a very close second place who looks just like his father Willy Kuckucksland. I particularly liked the Rasti daughter from the Intermediate class and look forward to seeing her go through survey and compete in the open classes. A bitch of lovely substance, size and bone strength. Stobar Konstance a daughter of Chili della Valcuvia and Stobar Fenella (Conbhairean Freddie), now at full maturity and presented in lovely condition was my challenge bitch and Best Stock winner.

The weather was quite warm and the grounds were in good condition. Thank you to the handlers and exhibitors for the sporting way in which they accepted the decisions on the day.

16 Jul 2025 Bred and Exh By: Mr J Cooley & Ms T Beaton

CH. SALVATORE VOM GRAFENWALD (IMP DEU) x KOMATZU EXTRA HOT RUBY(AI)

7 mths Well boned, well coloured, richly pigmented black and tan puppy male. Slightly stretched proportions, well-formed head with very good masking, medium eye colour, and good strength of the upper and lower jaws. Overall, he should be a little more balanced in his angulations. Good chest development for his age, good length of foreleg, the front pasterns should be much firmer, stands and steps not quite correct in front, steps narrow at rear and slightly cow-hocked. Falls a little on the forehand during movement where the ligamentation should be firmer

2 yrs 5 mths H.63.5cm D. 29cm Just above medium size, with very good strength and substance for his size, well coloured and well pigmented, well-constructed quite compact LSC male of pleasing type. Very good head and expression, very good masking and tight lips, medium eye colour. The well set ears are just a little small but are Well shaped and firm. The well laid neck should be just a little longer. He has a level wither, slight peak in the top line and slight downward bend of the firm back. The croup is well moulded but set slightly steep. Very good forehand where the upper arm should be slightly better laid, very good hindquarter angulation. Good fore and under chest, good length of foreleg, stands a little open at elbow and is not quite correct viewed from the front. He steps a little cow hocked at rear. In movement he displays powerful drive with very good back transmission and very good reach, the front pasterns should be a little firmer. Very good ligamentation and muscular development. VERY GOOD

03 Jul 2024 Bred By: Mrs E & Mr G Parsons

KINGLAND JESTER x CH. KELINPARK TWIX

1 yr 7 mths H.65.5cm D.30cm Very large, well-boned LSC male with quite stretched proportions. He has a broad skull that is slightly domed, the side bite should be a little more correct, good strength of upper and lower jaws, where the lips should be a little tighter, the eyes should be darker, the ears are set a little low on the skull but are well shaped and of good size. The neck should be longer, slight nick in the topline behind the level withers, just firm back, slightly steep croup. Ideally the upper arm should be a little longer but is well laid, the hindquarter should be a little more balanced in the length of the bones. He should stand more correct in front; the pasterns are a little upright. Good fore and very good under chest. Ideally the hocks should be a little firmer. In movement he should be a little more coordinated, however he displays very good drive, and a slight restriction in the reach. Ideally, he should hold the wither line a little better, where he falls slightly on the forehand. VERY GOOD

3 yrs 5 mths H.65.5cm D.30cm Very large, strong, powerful, and substantial, well-structured LSC male that is slightly stretched in his height to length proportions. Very good colour and pigment, strong head masculine expression. He has a slightly domed skull, where the stop should be just a little more defined. Good strength of the upper and lower jaws, slight roman nose, good eye colour, good ear set, very good masking. Strong powerful neck, level withers, slight curve in the firm topline, good length and lay of the croup, slightly high tail set. Very good fore, slightly deep hind quarter angulation. Good fore and just slightly short under chest. Very good length of foreleg, standing and stepping not quite correct in front, narrow and very close at rear where the elbows and hocks should be tighter and firmer. In movement he displays a very good length of stride, just some slight movement over the top line from the powerful rear drive and over-reach from the rear. EXCELLENT

07 Sep 2024

Bred By: Mr B J Pereira & Mr R Pritchard Exh By: Mr J Cooley
& Ms T Beaton

BRONBOREO GEEWIZZ x BRONBOREO EVO

16 mths H. 63 cm D. 29.5 cm Above medium size, strong and substantial, elongated, red coloured sable male, who should be much firmer in ligamentation overall. He has very good dentition, a well-structured head with slight roman nose, dark masking and medium eye colour. Good length of neck, high withers, slightly infirm back, short steep croup with narrow thighs. Well angled forehead, very deep hindquarter angulation, where the bones of the hindquarter are too long with long infirm rear pasterns. Good fore and very good under chest with very good length of foreleg. He steps narrow at front with open elbows and feet should be much tighter. Very loose cow hocks. In movement he displays just good drive with very good reach where the top line should be much firmer. Due to the excessive angulation of the hindquarter the force of the rear pasterns having too much surface area in contact with the ground causes overreach from the rear drive and a subsequent bouncing of the topline and in general a lack of coordination in the sequence of steps. GOOD

Good head and expression, where ideally the foreface should be broader, slight roman nose, medium eye colour, good ear set. Good length of neck, high withers straight backline, with well moulded slightly short croup with slightly high tail set. Very good fore and hindquarter angulation. Very good fore and underchest, good length of foreleg. Steps correct at rear with good hock firmness, not quite correct at front. She should be firmer in ligamentation specifically between the withers and the back connection and over the croup area. In movement, she displays a very good length of stride, just needs to develop the sequence of steps and would benefit from some extra fitness and muscular development. Gunsure. EXCELLENT

CH. ALWIN VOM HAUS NESGEN (IMP DEU) x JARRAHHAUS TAKE A GAMBLE

3 yrs 5 mths H.62.5cm D.30cm Oversize, strong and substantial, richly coloured black and red, tan female with stretched proportions, presented in very good condition. She presents a very good picture in stance. Strong head with feminine expression, dark mask, medium eye colour, slight Roman nose. Powerful neck, high withers, firm straight back, well moulded croup, very good fore and hindquarter angulation. Very good fore and under chest. Very good length of foreleg. Steps correct at rear, not quite correct in front where the elbows should be a little more closed. Very good firmness of the hock joints. In movement, she displays very good drive with a restriction in the forehand reach. She maintains a good overline.
