01 Aug 2025 Bred By: Mrs C Willis
CH. SABARANBURG ZEUS CCD. ET. JC. RA. SPRD.A TD. TK.S. WNPD. x BRONBOREO UNOLUTION

Height 65.5 cm / Depth 28.5 cm

Double P1 Upper left. Very large, medium strong, well-coloured and very well pigmented sable dog of very good type and proportions. Strong masculine head with the desired dark masking, eyes could be slightly darker. Good size, set and placement of ears. Very good reach of neck, high withers, firm straight back. Very good length and lay of croup. The upper arm could be slightly longer and better angled, very good hindquarter angulation and very good breadth of thigh. Good fore and underchest development. Steps narrow going, correct coming. Stands not quite correct in front. Shows balanced ground-covering gait, where the drive should be stronger and reach could be freer.

VERY GOOD

Best Bitch 45 **Res** 39

Thank you to the German Shepherd Dog Club of Western Australia and it's committee for the invitation and the hospitality shown to Patrick and me. It's a small club and committee and should be applauded for their hard work and the excellent presentation of the grounds. Many thanks to Lee-Anne as show manager, she ran an extremely good event. My two stewards Scott in assembly and Helena in the ring kept things running smoothly and on time. Special thanks to Margaret my steno who had a major falling out with technology. Unfortunately the microphone to record my critiques wasn't working and then the battery on the laptop said I'm out. So writing the majority of the critiques by hand was the contingency plan. The weather was perfect for showing, not too hot.

There was an entry of 47 animals with 6 scratchings and one being withdrawn with my permission. The overall quality was very high with very good type and all animals achieved the highest grading for their age. Generally the size is large to very large with very good proportions. I noticed a few double P1s and some under developed P1s. Croups mostly were of good length, the angle of the croup was often slightly steep. Only a small number of animals were slightly pronounced in their hindquarter angulations. Hocks and elbow firmness were good to very good. The characters were very good and most stood well for teeth examination and measuring. I think the Perth breeders are doing a great job and should be very proud of what they're achieving.

Thanks again for the invitation, I really enjoyed my appointment.

Nicky
